DEDICATION

Na sadaukar da littafin nan ga Mai gidana Alh. Abubakar Adamu (Makaman Bakundi) da Hon. Sabi'u Sa'idu Mahuta (Sardaunan Daneji), Hon. Abubakar Yahya Kusada (House of Reps, Member Representing Kankia/Ingawa/Kusada Federal Constituency, Katsina State), Alh. Usman Habib Yahya Kano, Rabi'u Ali (Biyora), Datti Assalafy, Iyayena, Yan uwana, Aminaina, Abokaina da ilahirin Yan Crypto na arewacin Nijeriya.

ABOUT THIS BOOK

Kasuwancin cryptocurrency na ci gaba da haɓaka gami da mamaya tamkar wutar jeji, mutane a sassa daban-daban na faɗin duniya na tururuwar shiga kasuwancin. Adadin masu amfani da cryptocurrency kullum karuwa ya ke duk da matsin lamba da kofarin yaki da shi da Gwamnato cin wasu kasashen ke yi. Alherin da a ke samu a kasuwancin ya sa al'umma ke tururuwar shiga domin ka da a yi babu su, wanda suka jima a cikin kasuwancin za ka iya ganin alherin a bayyane tare da su.

Babban abin kayatarwa da kasuwancin crypto shi ne, saye da sayarwar duka yana faruwa ne akan internet. Ta hanyar amfani da wayar da ke hannunka kana iya zama babban Ɗan kasuwa, kana zaune a cikin dakinka ba tare da ka je ko ina ba za ka iya samun makudan kuɗaɗe. Idan kai ma'aikaci ne, kasuwancin crypto ba zai hana ka yin aikin ka ba domin za ka iya gudanar da kasuwancin kana a wajen aikinka ko bayan ka koma gida. Hatta Yan kasuwar da ke kasuwancin zahiri, dalibai da ke karatu, malamai da ke koyarwa a makarantu, matan gida, tsoffi da gajiyayyu duka za su iya gudanar da kasuwancin a duk inda su ke. Ashe kuwa, kasuwancin crypto zai taimaka sosai wajen rage yawan marasa aikin yi musamman a nan arewacin Nijeriya.

Matasan kudancin Nijeriya sun jima suna taka leda a kasuwancin cryptocurrency, ci gaban da su ke samu a dalilin crypto kuwa a bayyane ya ke domin za ka gan su suna walwala da facaka cikin wadata da karancin talauci. A nan arewacin Nijeriya kuwa, ba a jima ba da matasa suka farga da kasuwancin sosai, duk da akwai waɗanda sun jima a ciki

ba tare da an sani ba. Ko a arewacin Nijeriyar, mutanen da suka samu alheri sanadiyyar kasuwancin crypto suna da yawa sosai, waɗanda a baya ba su da aikin yi, yanzu a sanadiyyar crypto sun zama attajirai.

Duk da ɗimbin alherin da ke tattare da kasuwancin, babban kalubalen da mutane ke fuskanta shi ne ƙarancin ilimin sanin sirrin yadda a ke gudanar da kasuwancin cikin kwarewa. Mutane da yawa suna biyan makudan kuɗaɗe domin a koya masu, wasu har ƙasashen waje su ke tafiya da niyyar koyowa, amma haka za su dawo ba tare da samun cikakkiyar kwarewar da su ke buƙata ba. Hatta waɗanda suka jima a harkar da yawa suna yin kasuwancin ne a makance ba tare da kwarewa ba, wanda hakan na kai su ga tafka mummunar asara.

Wannan littafin '*Sirrin Crypto*' na ɗauke sirrukan kasuwancin crypto cikin fayyataccen bayanin da hatta mai ƙaramar ƙwaƙwalwa zai iya fahimta cikin sauƙi, kuma ya ji fahimtar a zuciyaarsa sannan ya ga fahimtar a idanunsa. Babban makasudin rubuta wannan littafin shi ne, domin na sauƙaƙewa mutanen arewacin Nijeriya da ma dukkanin wanda ya iya karatun Hausa wahalar fahimtar kasuwancin crypto. Na rubuta littafin ne ta hanyar amfani da tsarin 'Eng-Hausa' watau tsarin haɗa Turanci da bayanin Hausa domin yai sauƙin fahimta ga masu jin yaren Hausa tare da ba su matashiyar da za su iya ƙara zurfafa bincike a mataki na gaba. Ina da tabbacin wannan littafin zai zama sanadiyyar waɗatuwar ilimin crypto a arewacin Nijeriya, sannan zai zama sanadiyyar samun riba mai tarin yawa ga masu yin kasuwancin tare da taimaka musu wajen rage yawan yin asara.

Littafin na ɗauke da ɓangarori guda uku; The art of HODling, Cryptocurrency analysis da Cryptocurrency trading strategies. Ƴangaren '*The art of hodling*' na ɗauke da bayani akan cryptocurrency; tarihin samuwar sa, ma'anarsa, rabe-rabensa, fa'idojinsa, inda a ke

kasuwancinsa, yadda a ke kasuwancinsa tare da muhimman abubuwan da ya kamata wanda zai yi kasuwancin crypto ya sani. Wannan bangare ne na musamman ga waɗanda ke son fara kasuwancin crypto a matakin farko. Bangare na biyu '*Cryptocurrency analysis*' na ɗauke da bayani daki-daki, filla-figilla akan yadda a ke gudanar da fundamental analysis domin sanin ingancin coin kafin sayen sa da bayan sayen sa, da kuma yadda a ke gudanar da technical analysis domin gane alƙiblar da farashin coin ke fuskanta a kasuwa. Wannan bangare ne na musamman ga waɗanda sun jima da fara kasuwancin crypto, zai taimaka musu wajen kaucewa sayen jabun coin domin kaucewa yin asara tare da sanin lokacin da ya kamata su sayi coin da lokacin da ya kamata su sayar su samun riba mai tarin yawa. Bangare na uku '*Trading strategies*' na ɗauke da sirrukan kasuwancin crypto tun daga sanin; lokacin da ya kamata a sayi coin da lokacin da ya kamata a sayar, yadda a ke kasafata jari domin samun riba da tsarukan da a ke amfani da su na rage yin asara, kyawawan ɗabi'un da ya kamata mai kasuwancin crypto ya ɗabi'antu da su domin samun nasara da munanan ɗabi'un da ya kamata ya nesanta domin guje wa yin asara, salon kasuwancin crypto daban-daban da mafi yawan Yan kasuwar crypto ba su san da su ba ballantana su ke yi, da ma wasu tarin sirruka kala-kala da sanin su zai canja akalar kasuwancinka kacokan.

Ina fatan sanadiyyar littafin nan milliyoyin mutane su fahimci kasuwancin crypto a saukaƙe, su dogara da kansu sannan su taimakawa yaƙan uwansu. Hakan ya zama sanadiyyar raguwar matsi da tsananin talaucin da ke addabar mutanen Arewa. Wanda za su fara kasuwancin su shiga da kafar dama, waɗanda suka jima da farawa kuma su dace da alherin da ke cikinsa.

- ★ Kasuwannin haɗa-hadar cryptocurrency (Exchangers) kuwa, adadinsu ya kai kimanin 444 waɗanda suka shahara kuma aka fi amfani da su.

- ★ Kimar kasuwar cryptocurrency ya haura kimanin \$3,000,000,000,000,000.
- ★ Kimanin adadin mutane 300,000,000 ne ke yin kasuwancin crypto a faɗin duniya.
- ★ A Nijeriya kaɗai, masu amfani da cryptocurrency sun kai 13,000,000 kamar yadda rahoton *Chainalysis* ya nuna.
- ★ A watan April, 2021 kaɗai, mutanen Nijeriya sun yi hada-hadar cryptocurrency da ya kai kimanin \$1,800,000 kamar yadda Jaridar *The Africa Report* ta wallafa.
- ★ Kamar yadda ya ke a rahoton binciken shekarar 2020 da *Paxful* ta fitar, Nijeriya ita ce kasa ta biyu a jerin kasashen da a ke hada-hadar Bitcoin.
- ★ A May, 2021 kaɗai, y'an Nijeriya sun yi hada-hadar Bitcoin da ya kai na \$2,000,000,000, kamar yadda rahoton *Chainalysis* ya nuna.
- ★ Yawan mutane Millionaires da suka mallaki miliyoyin daloli a kasuwar cryptocurrency sun kai kimanin mutane 100,000, kamar yadda *Bitinfocharts* ta wallafa.

PART ONE

THE ART OF HODLING

Brief History Of Cryptocurrency

An fara yunkurin samar da kuɗaɗen internet ne tun a 1990s, lokacin da kwararren masanin ilimin cryptography nan ɗan asalin kasar America watau David Chaum ya kirƙiri kuɗin internet na farko a kasar Netherlands. David ya samu nasarar kirƙirar DigiCash ne ta hanyar amfani da fasahar Encryption algorithm na RSA domin ba shi cikakken tsaron adana bayanai da kuma tantance mu'amalolin da a ke yi da shi. DigiCash ya ɗauki hankullan kafofin yaɗa labarai musamman saboda kasancewar shi kuɗin internet na farko da aka fara samarwa. Ba a jima ba ya samu karbuwa da hasken goshi wajen al'umma har ta kai kamfanin Microsoft Corporation ya taya shi akan zunuzutun kuɗi har \$180,000,000 da niyyar ɗora shi akan kowacce computer da ke aiki da windows operating system. Sai dai David Chaum da kamfaninsa ba su amince da tayin ba, wanda rashin amincewa da tayin kuwa na daga cikin manyan kurakuren da David Chaum da kamfaninsa suka aikata da yai sanadiyyar rushewar DigiCash.

Yunkuri na biyu na samuwar kuɗin internet an kirƙiro shi ne daga faɗaɗa bincike da nazari akan tsarukan DigiCash. Kamfanoni daban-daban daga baya sun dukufa wajen koƙarin ganin sun samar da kuɗaɗen internet tare da kawo canje-canje masu ma'ana na zamani wanda DigiCash bai zo da su ba. Daga cikin kamfanonin akwai: PayPal, wanda

shi ne ya fi shahara da samun karbuwa a wajen al'umma. Dalilin da ya sa ya ciri tuta a tsakanin sauran kamfanonin shi ne: saboda ya ba da damar a yi amfani da shi a dandamalin yanar gizo (Web browser) wanda hanya ce da mutane suka fi sabawa da ita. PayPal na da bambanci da sauran kamfanonin masu gasa da shi, masu amfani da PayPal kan iya tura kuɗi ko karɓar ta amfani da tsarin sadarwa na peer-to-peer. Ya kuma taka muhimmiyar rawa wajen zamantar da harkokin biyan kuɗi na internet musamman tsarin amfani da katin cire kuɗi (Credit card) wanda masu amfani da PayPal kan iya mallaka kuma su cire kuɗi a duk inda su ke a faɗin duniya ba tare da la'akari da bambanci kudade ba. Nasarar da PayPal ya samu ce ta kara zaburar da wasu kamfonin wajen kofarin ganin sun samar da irin nasu tsarin biyan kuɗi na internet domin su yi goyayya da shi, daga cikin kamfanonin akwai; E-gold, B-Money, Bit Gold da dai sauransu.

Babban muhimmin abu na gaba a cikin tarihin cryptocurrency shi ne a October 31, 2008 wani mutum da har yanzu ba a san takamaiman waye shi ba mai suna 'Satoshi Nakamoto' ya fitar da wata takarda (White paper) da ke dɗauke da bayani daki-daki na fasahar da a yanzu mu ke kira da "Blockchain"

Samuwar fasahar blockchain ne ya haifar da samuwar dukkanin nau'ikan kuɗaɗen da mu ke kira "Cryptocurrency" Ta hanyar amfani da blockchain ne aka samar da kuɗin Bitcoin. A yau da na ke rubuta littafin nan akwai fiye da adadin Bitcoin 18,000,000 da ke zagayawa a hannun mutane wanda kimar kuɗinsu ya kai kimanin \$1,000,000,000,000,000. An fara kasuwancin Bitcoin ne a July, 2010, kowanne Bitcoin ɗaya bai wuce N5 ba a lokacin. Amma a yanzu da na ke maganar nan shekara 13 ke nan da samuwar Bitcoin, farashin kowanne Bitcoin ɗaya ya haura N38,000,000. Wanda ya sayi Bitcoin na kimanin N100 kacal a July, 2010 zuwa yanzu yana da ribar fiye da N760,000,000.

CHAPTER 01

MONEY

Abu ne mai wuya ka fahimci yadda cryptocurrencies su ke, yadda su ke aiki da yadda a ke kasuwancinsu idan ba ka san yadda kuɗaɗe su ke a ilimance ba. Saboda haka ne ma, za mu waiwayi tarihin samuwar kuɗaɗe da yadda suka dinga chanjawa a lokutta daban-daban, tare da yin bayani game da siffofin da ya kamata a ce kuɗaɗe su na da su kafin a kira su da kuɗaɗe masu inganci.

What Is Money?

Kuɗi na nufin duk wani abu da al'umma suka yarda su yi amfani da shi a matsayin abin da zai wakilci kimar kayayykinsu da ayyukansu a mu'amalolinsu na saye da sayarwa. Kuɗi na ba wa mutane damar kwatanta kimar kayayyaki don saukaƙe cinikayya da adana dukiya yadda ya dace. Misali: ka ba ni kuɗi ni kuma na ba ka wannan littafin, kuɗin da ka ba ni shi ya wakilci darajar littafina da na ba ka, ni ma zan iya amfani da kuɗin wajen sayen wani abin daban.

A garuruwan da mu ke rayuwa, akwai mutane daban-daban da ke ayyuka da sana'o'i daban-daban. Misali, idan ni marubucin littafin fi ne kai kuma kila manomi ne, wani kuma malami ne, wani maɗinki ne yayin da wani kuma Dan kasuwa ne. A matsayina na marubucin littafi ina

bukatar cin abinci domin na rayu, sai dai ni ba manomi ba ne ballantana na ke noma abin da zan ci. A matsayinka na manomi kai ma kana bukatar karanta litattafai domin ka samu ilimi. A wannan yanayi, ni da kai duka muna bukatar abubuwan da ba ma iya samarwa da kanmu dole sai mun naima a hannun junanmu. Tunda ina bukatar abincin ci kai kuma kana bukatar littafin karantawa ka samu ilimi, zan iya ba ka littafin kai kuma ka ba ni abincin da ya kai darajar littafina. To amma idan ya kasance ni ina bukatar abinci kai kuma ba ka bukatar littafina kuma fa? Kenan sai dai na daina rubuta littafi na koma yin noma idan ina son na rayu? Idan kowa ya koma manomi ta ya za a samu; malamai, likitoci da masu dinkin kaya? Domin kawar da wannan matsalar sai mu samu wani abu daban wanda da ni da kai muka amince ya wakilci darajar kayayyakinmu, na ba ka abin kai kuma ka ba ni abinci. Idan kana bukatar sayen takin zamani sai kai ma ka ba da abin a ba ka takin zamanin da ka ke bukata. Wannan abin da muka amince da shi ya wakilci daraja da kimar kayayyakinmu ko da ganye ne to shi a ke kira da "Kudɪ"

How People's Trust In Money Has Evolved

A karnukan da suka shufe, mutane sun yi amfani da abubuwan daban-daban a matsayin kudɪn cinikayya kamar; fata, gishiri, makamai, karafuna, tasa, azurfa, tagulla, zinare da dai sauransu. Kafin wannan lokacin mutane suna amfani da tsarin ban gishiri na ba ka manda (Bartering system) wajen cinikayya: idan manomi na bukatar fatanya sai ya ba da kayan da ya noma a ba shi fatanyar. Sai dai wannan tsari na yin musayar kayayyaki yana da wahalarwa sosai domin kafin manomin ya samu wanda zai amince ya karbi kayan gona ya ba shi fatanya sai ya wahala, kila ma sai ya dauki kayan gonar ya tafi kasuwa ya dinga cigiya, idan ma ya samu wanda zai karɓa ya ba shi fatanyar, to sasanta yawan kayan gonar da zai ba shi ma wani jan aiki ne.

A hankali sai mutane suka fara amfani da abubuwa masu darajar kamar gishiri, fata, makamai da dai sauransu a matsayin abubuwan da za su wakilci kimar kayayyakin su. Idan manomi yana bukatar fatanya sai ya ba da gishiri a ba shi fatanya gwargwadon adadin da suka sasanta. Haka idan yana bukatar sayar da kayan gonarsa sai ya bayar a ba shi gishiri ko dai duk wani nau'in abu da su ke amfani da shi a lokacin. Daga baya mutane suka fahimci amfani da wannan abubuwan ma akwai wahalarwa, sakamakon akwai abin da ba ya rabuwa ballantana ka raba ka sayi abin da bai kai darajar guda daya ba, akwai kuma abubuwan da adana su da yawo da su babban jidali ne. A haka dai har aka zo zamanin amfani da zinare a matsayin kuɗin cinikayya. Amfani da zinare ya taikaita yawan wahalhalun da mutane ke fuskanta, kasancewar shi ba ya lalacewa kuma yana da sauƙin adanawa.

Zamani na tafiya mutane na kara samun fasahohi tare da kawo abubuwan da za su sauƙaƙe wahalhalun da su ke yi, anan ne suka fahimci shi kansa zinaren yana da wahalar cinikayya musamman idan kana son sayen abin da bai kai darajar sinkin zinare ba. Hakan ne ya janyo samuwar tsabobin kuɗaɗen zinare ta hanyar sarrafa shi tare da samar da sulalansa domin sauƙaƙe wa mutane biyan kananun abubuwa ba tare da shan wahala ba. Ai kuwa kwalliya ta biya kuɗin sabulu domin mutane sun ɗauki tsawon shekaru suna amfani da sulallan zinare a matsayin kuɗaɗen cinikayya.

Ilimi na kara samuwa, hikimomin kirƙira na kara samuwa cikin al'umma, har aka zo zamanin da mutane suka sake fahimtar su ma tsabobin kuɗaɗen zinaren nan suna da nasu kalar wahalarwar: Idan kana son zuwa kasuwa sayen kaya masu yawa sai dai ka tafi da tarin sulala wanda ɗaukarsu kaɗai ma babban jidali ne, ga kuma farayi akan hanya idan sun tare ka ba za ka iya ɗaukar sulalan ka gudu ba sai dai ka

bar su a nan kai kuma ka tsira da rayuwarka. Sakamakon haka aka fara samar da bankunan ajiyar sulala, idan ka kai sulallanka sai a lissafa a ba ka takardar shaidar ajiya ka tafi da ita, idan kana son sayen abu maimakon bayar da zinare kana iya bayar da takardar shaidar ajiyar zinarenka a ba ka abin. A hankali a hankali amfani da takardar shaidar ajiyar banki ya mamaye kasashen duniya, duk da haka dai kana iya ba da tsabar kuɗi a karɓa.

Haka mutane suka dinga amfani da takardar shaidar ajiya da kuma sulallan kuɗi wajen cinikayya, har zuwa zamani mulki mallaka da yaƙoƙin duniya wanda ya haifar da samuwar kasashe daban-daban. Kafin samuwar kasashen, ba gwamnatoƙi ne su ke bayar da takardar shaidar ajiya ba, bankuna ne ke bayarwa. Da kasashe suka samu ya kasance kowacce kasa tana da Gwamnatin daban, sai aka samar da kuɗin takardu wanda a ke kira da "Fiat money"

Idan mai karatu na fahimta zai ga yadda kuɗaɗe suka dinga canjawa daga wani abu zuwa wani abu a karnuka daban-daban. Abu ɗaya ne bai taɓa chanjawa ba: yarda. Dukkanin canje-canjen da aka dinga samu na abubuwan da a ke amfani da su a matsayin kuɗi ya faru ne saboda mutanen sun yarda su daina amfani da abu kaza su koma suna amfani da abu kaza, ashe dai kuɗi na nufin duk abin da al'umma suka yarda da shi.

Fiat Money

Kalmar "Fiat" ta samo asali ne daga yaren Latin wanda ke nufin "Abin da aka zartar" Ma'ana abin da Gwamnati ta sanya shi ya zama doka. Kuɗaɗen fiat, watau kuɗaɗen da mu ke amfani da su a yanzu, darajarsu da kimarsu ta ta'allaka ne da zartarwar Gwamnati: ita ke da alhakin

samar da su sannan ta zartar cewa kowanne ɗan kasa ya yarda da su a matsayin kuɗaɗen saye da siyarwa.

Yardar mutane akan amfani da wani abu a matsayin kuɗi yanzun yardar ta koma akan Gwamnati. Mutane sun yarda Gwamnatin ƙasarsu ta samar masu da abin da zai wakilci daraja da ƙimar kayayyaki da ayyukansu. Saboda haka Gwamnati ke buga kuɗaɗen takarda ta kuma ba su darajar da ta ga dama. Ita ke da alhakin cewa "Wannan takardar N1000 ce wannan kuma N100 ce" sai mutane su ke amfani da su a matsayin kuɗaɗen cinikayya. Kuma ita kaɗai ce ke da ikon buga kuɗaɗen da ƙayyade su izuwa duk adadin da ta ke so, yayin da ragowar mutane kuma ba su da ikon bugawa ko sarrafa. Sabanin ada kuma mutane na da ikon zaɓar abin da su ke so ya wakilci ƙimar kayayyaki da sannan kowa na da ikon samar da wannan abin. Tsarin bai wa Gwamnati ikon kula da al'amuran kuɗi; samar da su, sarrafa su da ƙayyade adadinsu ita kaɗai shi a ke kira da da "Centralization" yayin da tsarin da al'umma ke amfani da shi a baya da ya ba su ikon samar da abin da suka yarda da shi a matsayin kuɗi shi a ke kira da "Decentralization"

Digital Money

Digital money ko digital currency na nufin duk wani nau'in kuɗi da a ke cinikayya da shi ta hanyar tura lambobin kuɗi maimakon takardarsu ko sulallansu, kamar dai kuɗin da mu ke turawa ko karɓa ta hanyar amfani da banki.

Samuwar internet ne ya wajabta samar da kuɗaɗen lambobi domin al'umma su ke amfani da su wajen cinikayya a internet ɗin. Guguwar sauyi da juyin juya hali da internet ta zo da shi wanda tai sanadiyyar sauya fasalin yadda mu ke gudanar da al'amuranmu na yau da kullum, ya kasance duk wani abu da mu ke amfani da shi a zahiri ana fofarin

samar da irinsa a internet. Internet ta zama tamkar duniya ta biyu wadda mu ke rayuwa a cikinsu, muna zama a duniyarmu ta zahiri yayin da wasu al'amuran kuma muna gudanar da su ne a internet kamar; kafofin sadarwar zamani, kasuwanni da makarantun internet. Ashe kuwa, matuƙar za mu iya ganin kaya mu saya a internet to akwai buƙatar ma a ce mu ke iya biyan kuɗin kayan a internet ɗin, wannan dalilin da makamancinsa ya sa aka samar da kuɗaɗen digital.

Duk da ya ke, galibin nau'in kuɗaɗen digital da mu ke amfani da su wajen saye da sayarwa su ma fiat money ne, bambancinsu kawai su lambobi ne ba takardu ko sulallai ba. Ta fuskar sauƙin mu'amala, tsaro da sauƙin samarwa, kuɗaɗen digital sun fi kuɗaɗen takardu da sulallai da mu ke amfani da su sauƙi sha'ani. Saboda su lambobi ne, Gwamnati ba ta buƙatar kashe maƙuɗan kuɗaɗen buga su, sannan ba za su kode a sake bugo su ba. A yau 92% na kuɗaɗen da mu ke amfani da su wajen cinikayya a faɗin duniyar nan duka nau'in digital money ne.

A hankali kuɗi na neman canja siffa daga takarda zuwa lambobi kamar yadda ya canja siffa daga sulallai zuwa takardu. Ilimin da fasahar zamani ke sanyawa kudade ke canjawa, al'ummar kowanne karni suna fofarin ganin sun samar da nau'in kuɗin da ya fi masu sauƙin sha'ani fiye da wanda suka saba amfani da shi. Idan mai karatu yana fahimta zai ga amfani da zinare a matsayin kuɗi ya fi amfani da gishiri sauƙin sha'ani, amfani da sulallan zinare ya fi amfani da sinkin zinari sauƙin sha'ani, amfani da kuɗaɗen takardu ya fi amfani da sulallai sauƙin sha'ani, yayin da amfani da kuɗaɗen digital kuma ya fi amfani da kuɗaɗen takarda sauƙin sha'ani.

Duk da ya ke masana ma suna ganin dama su kansu kuɗaɗen takardar ba takardun ba ne masu daraja, darajar kowanne kuɗin takarda yana a lambobin da su ke ɗauke da su ne. Misali, takardar N1000 ba ta fi

takardar N100 daraja ba, illa lambar 1000 da ke cikin N1000 ne ya fi lambar 100 da ke jikin N100. Kasancewar su nau'in kuɗaɗen fiat watau kuɗaɗen doka wanda Gwamnati ta ke da ikon ba su duk darajar da ta ga dama ta hanyar rubuta girman darajar a jikin lambobin da ke takardun. Takardun kuɗi suna a matsayin abin da mutane za su karanta su ga wacce daraja Gwamnati ta ba su ne. Da aka samar da computers da wayoyin hannu ya kasance mutane suna iya karanta sakonni da turawa ta cikin su sai aka dora lambobin kuɗi a cikinsu tunda dama amfanin takardun bai wuce don a karanta sakon Gwamnati da su ke d'auke da shi ba, kuma al'umma suna iya karantawa a computers ko wayoyin hannu.

Idan mai karatu ya nazarci wannan zai ga ashe kuɗaɗen da mu ke amfani da su ba wasu abubuwa ne masu daraja ba illa zartarwar Gwamnati, sannan ba kuɗaɗen mu ke kashewa ba wannan dokar mu kewa biyayya. Misali, idan na sayi kaya a gurinka na ba ka kuɗin kayan ko na tura maka, a zahiri kuɗaɗen nan babu abin da za ka iya sarrafawa da su, kawai ka amince ka karɓa ne saboda Gwamnati ta ce a dole ka karɓa. A wannan yanayi, maganar Gwamnatin nan ka yiwa biyayya amma ba ka karɓi wani abu mai daraja a hannuna ba. Idan na sayi kaya na ba ka kuɗi tamkar na isar maka da sakon Gwamnati ne cewa "Gwamnati ta ce ka ba ni kayan" sai na ba ka takardun kuɗi domin ka tabbatar sakon daga Gwamnati ne ba karya na ke ba. Takardun kuɗi suna a matsayin shaidar da mai kaya zai tabbatar daga Gwamnati su ke kuma ga darajar kayan da Gwamnati ta ce ka ba ni nan a rubuce a cikin takardun.

Amma idan muka waiwayi tarihin kuɗi za mu ga mutanen baya sun yi amfani da wasu abubuwa masu daraja ne wanda a karan kansu abubuwan suna da darajar da za a iya amfani da su a sarrafa wani abu kamar; zinare, gishiri, fata, azurfa da dai sauransu, dukkanin su za a iya amfani da su a sarrafa wani abun na amfani. Idan an karɓe su an bayar

da kaya, to an karbi abu mai daraja ne aka bayar da abu mai daraja. Sabanin kuduɗen takarda ko na digital da mu ke amfani da su da ba su da wata daraja domin babu abin da za ka iya sarrafawa da su, kawai kana karɓa ne a matsayin dole.

Masana na kallon samuwar kuɗin fiat a matsayin wani ci gaba ta fuskar sauƙin sha'ani, amma kuma sun bautar da al'umma sakamakon tsirarun mutane ne su ke da ikon samar da su da ikon sarrafa su. Yau ko nawa gare ka sai Gwamnati ta so kayi amfani da su sannan za ka iya amfani da su, idan ta so sai ta hana ka amfani da su, sannan idan ta so sai ta hana amfani da su ta kawo wanda ta ga dama. Wadannan matsalolin dama waɗanda ban lissafu ba suna daga cikin dalilin da masana suka ga cewar akwai bukatar samar da samfurin kuɗin digital da za su taimaka a kawar da kalubalen da al'umma ke fuskanta a bangaren mu'amalolin da suka shafi kuɗaɗe. Domin kawar da kalubalen kuwa, dole sai an ɗauko tsohon tsarin samar da kuɗi na 'decentralization' sannan a samar da kuɗin da ke da halaye irin na zinare da za a iya amfani da su akan internet domin sauƙaƙe wahalhalun zirga-zirga da su. Wannan kuɗiri shi ya haifar da samuwar cryptocurrency.

What is Cryptocurrency?

Cryptocurrency nau'i kuɗaɗen digital ne masu zaman kansu, da su ke ɗaukar matsayin kuɗaɗen saye da sayarwa ko kuma kadarori da a ke kasuwancinsu akan internet. Bambancin cryptocurrency da kuɗaɗen digital da mu ke amfani da su shi ne: kuɗaɗen digital da mu ke amfani da su ikon samar da su da gudanar da su yana hannun Gwamnati da cibiyoyin kuɗaɗe, yayin da cryptocurrency kuma ikon samar da su da gudanar da su yana farkashin ilahirin al'ummar da suka yarda da su kuma suka amince su karɓe su a matsayin kuɗaɗe ko kadarorin da za a iya hada-hadarsu. Tsarin cryptocurrency da gudanarwar su yana kama da na zinare, kasancewar shi ma zinare yana ɗaukar matsayin kuɗi sannan yana ɗaukar matsayin kadara wanda a ke iya saye ko sayarwa.

Characteristics of Cryptocurrency

Cryptocurrencies a matsayin kuɗaɗe ko a matsayin kadarori suna da siffofi da tsarukan da su ke wanzuwa akan su. Ga su kamar haka:

- Digital
- Decentralised
- Pseudonymous
- Transparency
- Global
- Limited Supply

Digital

Cryptocurrency suna wanzuwa ne a siffar lambobi da za a iya turawa ko karɓar su ta hanyar amfani da internet, hakan na nufin babu su a zahiri, babu kuɗin takardarsu ko kuma tsabobinsu. Kasancewar su digital ya sa suna da sauƙin ɗauka a je duk inda a ke so ba tare da wani ma ya san

akwai su ba. Ta wannan fannin za a iya cewa cryptocurrencies sun fi zinare sauƙin dɗauka da sauƙin ajiya domin shi zinare yana da gangar jiki kuma ana iya taɓa shi ko riƙe shi ba kamar cryptocurrency da ke a siffar lambobi ba.

Decentralised

Cryptocurrencies suna wanzuwa ne akan tsari mai y'anci wanda babu wata hukuma ko Gwamnatin da ke da ikon kula da mu'amalolin da a ke yi da su ita kadai. Kowa na iya samar da su matuƙar dai al'umma sun yarda da su to za a iya mu'amala da su a matsayin kuɗaɗe ko kadarori. Ta fuskar adana bayanansu ma, babu wani rumbun ajiyar bayanai na wata Gwamnati ko wata hukuma da ke adana bayanan mu'amalolin da a ke yi da su.

Pseudonymous

Cryptocurrencies suna dɗauke da cikakken sirrin mallaka ta yadda za ka iya turawa ko a turo maka su ba tare da sunanka ko bayananka sun fito ba. Ba kamar kuɗaɗen gargajiya ba da kafin ka iya tura su ko ajiye su a cikin asusunka dole kana buƙatar buɗe account na banki, yayin buɗewar kuma sai an buƙaci; cikakken sunanka, adiresinka, shekarunka, jinsinka har ma da katin shaidarka duk domin a iya gane ka a kuma iya gane mu'amalolin da ka ke yi, sannan idan za a bincike ka a iya samun bayananka cikin sauƙi. Su kuwa cryptocurrencies wajen amfani da su ba ka buƙatar sanya bayananka sannan idan ka tura su ko kuma an turo maka ba za a taɓa iya gane cewa kai ne ka tura ko kuma kai aka turowa ba. Duk mu'amalolin da ka yi da cryptocurrencies daga kai sai Allan da ya halicce ka ne kawai ku ka sani, bayan ku babu mai sani ko da ya bincika. Idan za ka saye su za ka saye su ne ba tare da sanin wajen wanda ka saya ba, idan za ka sayar da su za ka sayar da su ne ba tare da ka san wanda ka sayarwa ba.

Transparency

Duk da an samar da cryptocurrency da cikakken tsarin boye bayanar masu gudanar da mu'amaloli, amma kuma suna da sigar fayyace duk mu'amalolin da aka yi da su. Yayin gudanar da mu'amaloli da kudadenmu na gargajiya bankuna ne ke ajiye bayanar tarihin mu'amalolin da aka yi, bankunan ne kadai ke damar kallon mu'amalolin da mutane su ke yi da kudadensu. Amma cryptocurrencies kuwa, babu wata cibiyar da ke adana bayanar mu'amalolin da aka yi da su, maimakon hakan bayanar na warwatse ne a kowacce computer ko wayar da a ke amfani da ita wajen yin mu'amalolin da suka shafi cryptocurrency din. Saboda haka, kowa zai iya ganin cryptocurrency din da aka tura daga wata wallet zuwa wata wallet, amma babu wanda zai iya gane wanda ya tura da wanda aka turawa. Hakan na nufin, cryptocurrency a bayyane su ke kuma a boye su ke. za a iya ganin adadin cryptocurrency din da ke cikin kowacce wallet ma, idan mai wallet din ya tura cryptocurrency zuwa wata wallet, za a ga turawar da adadin yawan cryptocurrency din da aka tura, lokacin da aka tura har ma kuɗin cajis din da aka caji wanda ya tura. Sai dai ba za a iya gane wanda ya tura da wanda aka turawa ba.

Global

Kamar yadda a lokacin da a ke amfani da zinare a matsayin kuɗi ko ina ka je a faɗin duniya za ka iya cinikayya da zinare ba tare da ka bukaci yin canji ba, haka su ma cryptocurrencies a ko ina kake a faɗin duniya za ka iya mu'amala da su. Saboda cryptocurrency ba kuɗin wata kasa ba ne ballantana ya zamanto a iya kasar kadai za ka iya kashe su, su kuɗin al'umma ne da za ka iya kashewa a duk inda al'umma su ke a faɗin duniya matuƙar dai al'ummar sun yarda da su. Ba sa kuma dogaro da tattalin arzikin wata kasa ballantana idan tattalin arzikin kasar ya karye hakan ya shafi kimarsu, su suna amfani ne da tattalin arzikin kansu da

kansu. Bugu da kari, kasuwancin su bai kebanta da wata kasa kadai ba, idan kana da su za ka iya sayarwa mutumin da ke a wata kasar daban, kuma kai ma za ka iya saye daga mutumin wata kasar.

Limited Supply

Ba kamar kudadenmu na gargajiya da Gwamnati kan iya buga duk adadin da ta ke so idan ta bukaci hakan ba, kowanne cryptocurrency na zuwa ne da kayyadadden adadin (Total supply) da yawansa ba zai taɓa wuce wannan adadin ba. Misali: adadin yawan Bitcoins guda 21,000,000 ne, saboda haka har abada Bitcoin zai tabbata ne a guda 21,000,000, ba zai taɓa wuce haka ba, ba ma zai taɓa karuwa ko da da guda ɗaya kacal ba. Kayyadadden adadi da cryptocurrencies ke zuwa da su, yana daga cikin abin da ke sanyawa su kara daraja da baiwa masu kasuwancinsu damar samun riba a kankanan lokaci. Rashin kayyade adadin kudadenmu na gargajiya na daga cikin dalilin da ke sanyawa darajarsu ke raguwa.

Da yawan mutane suna da tunanin cewa, tunda Gwamnati ce ke buga kuɗi to mai zai sanya Gwamnati ba za ta dinga bugawa tana rarrabawa al'umma don kawar da talauci ba? Masu irin wannan tunanin ba su fahimci cewa darajar kuɗi na karuwa ne idan adadin kuɗin ya yi karanci a hannun al'umma ba. Idan ya kasance kuɗaɗe suka yi yawa a hannun mutane, bukatar kuɗin domin yin cinikayya ta ragu to darajar kuɗinma za ta ragu. Ya ka ke kallo idan ya kasance kowa ya noma masara a Nijeriya?

Idan kowa ya noma masara to tabbas bukatar sayen masara dole za ta ragu, don haka farashin masarar ma dole ya ragu. Saboda me? Saboda wa zai sayi abin da yana da wadatar sa?

To kamar haka ne idan kuɗaɗe suka yi yawa a hannun al'umma, darajarsu za ta ragu gwargwado yawan da suka yi hannun al'ummar.

Yadda kayyadadden adadin cryptocurrencies ke taimaka masu wajen daga darajarsu shi ne, a lokacin da cryptocurrency ya ke sabo, mutanen da suka mallake shi za ka ga ba su da yawa sosai, saboda haka ba zai yi daraja sosai ba. Amma daga baya cryptocurrency din na samun karbuwa adadin masu bukatarsa na karuwa, darajarsa da farashinsa ma za su dinga karuwa.

Pros and Cons of Cryptocurrency

Cryptocurrency na dauke tarin fa'idodi da waraka akan matsalolin da suka shafi Kasuwanci da mu'amalolin kudade, a wani bangaren kuma suna dauke da irin nasu matsalolin da amfani da su zai iya haifarwa.

Pros

- ✓ Reducing corruption
- ✓ Eliminating extreme money printing
- ✓ Giving people charge of their own money
- ✓ Cutting out the middleman
- ✓ Serving the unbanked
- ✓ Borderless Transactions
- ✓ Liquidity

Reducing Corruption

Yayin da ka ba wa wani mutum ko wasu mutane cikakken iko akan wani abu fiye da sauran mutane to ka buɗe kofar cin hanci da rashawa kenan. Kasancewar kudadenmu na gargajiya da mu ke amfani da su ikon samar da su, sarrafa su da kula da su yana hannun tsirarrun mutane, hakan babbar barazana ce da za ta iya haifar da cin hanci da rashawa, domin tsirarrun mutanen za su iya cin karansu babu babbaka saboda fura da ludayi na hannunsu, yadda suka dama haka kowa zai sha. Amma cryptocurrencies sarrafa su, samar da su da kula da bayan

mu'amalolin da a ke yi da su duk yana hannun al'umma ne, babu wata cibiya ko wani mutum da ke da iko fiye da na sauran al'umma ballantana ya yi amfani da wannan damar wajen yin almundahana, alfarma ko karkatar da kuɗaɗen al'umma.

Amfani da cryptocurrency zai taimaka sosai wajen kawar da cin hanci da rashawa. Misali, idan Gwamnati ta ware kuɗi domin yin wani aiki, matuƙar kuɗaɗen cryptocurrency ne kuma aka faɗi wallet address ɗin da aka sanya su, hakan zai ba wa al'umma damar bibiyar duk abin da a ke yi da su . Da zarar an ciri kuɗi daga wallet ɗin jama'a za su gani an cira, za su ga lokacin da aka cira, za su ga wallet ɗin da aka turawa sannan za su iya ganin nawa ne ya rage a cikin wallet ɗin. Ba kamar yadda ya ke idan an ware kuɗaɗen gargajiya domin gudanar da wani aiki ba, wani lokacin ma Gwamnati na rasa wa ya cire kuɗin kuma ko da an bi diddigi to yana ɗaukar lokaci mai tsayi kafin a gane. Ta hanyar amfani da cryptocurrency, idan Gwamnati ta so bincikar yadda aka kashe wasu kuɗaɗe da aka ware domin yin wani muhimmin aiki, a cikin minti biyu za a iya tattara bayanan yadda aka kashe kuɗin ba tare da bata lokaci ba.

Eliminating Extreme Money Printing

Amfani da cryptocurrency zai taimaka wajen rage buga kuɗi ba bisa ka'ida ba da Gwamnati ke yi wanda hakan ke haifar da karyewar darajar kuɗaɗen. Galibi, idan ƙasa na fuskantar matsin tattalin arziki sai Gwamnati ta umurci Central Bank da ya buga takardun kuɗaɗe da yawa da niyyar a rarrabawa y'an ƙasa bashin kuɗaɗen domin farfaɗo da tattalin arziki a cikin kasar. Sai dai wannan tsarin bai cika haifar ɗa mai ido ba, domin kamar ɗaure rauni ne da tsumma wanda ba ya hana a ji zafin raunin. Misali, idan Gwamnatin Nijeriya ta buga takardun kuɗaɗe da yawa adadin kuɗaɗen za su yawaita a hannun mutane sai darajar Naira ta karye, idan darajar Naira ta karye kuwa hakan zai haifar da

hauhawar farashin kayayyaki wanda zai jefa y'an Nijeriya cikin kuncin rayuwa sannan ya kara jefa kasar cikin matsanancin karayar tattalin arziki.

Bisa al'ada, kowanne cryptocurrency yana da kayyadadden adadi, ta hanyar amfani da cryptocurrency Gwamnati ba za ta dinga buga kufade duk shekara ba, hakan zai taimaka wajen daga darajar kudin kasar sannan Gwamnati za ta daina kashe makudan kufade a kokarin buga sabbin kufade kamar yadda ta ke yi kusan ko wacce shekara. Misali: a shekara 2020 kafai, Babban Bankin Najeriya ya kashe Naira biliyan 58.618 wajen bugo takardun kufade guda biliyan 2.518 wanda darajarsu ta kai tiriliyan 1. A shekarar 2019 ma Babban Bankin ya kashe Naira biliyan N58.618, yayin da a shekarar 2018 kuma ya kashe kimanin Naira biliyan N75.523 duk a kokarin bugo sabbin takardun kufade. Irin wannan makudan kufade da a ke kashewa ta hanyar amfani da cryptocurrency ba za a kashe su ba, maimakon haka sai dai a yi amfani da su wajen ayyukan raya kasa.

Giving People Charge of Their Own Money

Amfani da cryptocurrency zai taimakawa al'umma su sami cikakken yancin sarrafa kufadensu yadda su ke so ba tare da an gindaya masu dokoki ba; za su iya tura duk adadin da su ke so ba tare da an kayyade masu adadin da za su iya turawa ko wacce rana ba, za su iya ajiye duk adadin kufaden da su ke so ba tare da kayyade masu adadin da za su iya ajiyewa ba, kamar dai yadda ya ke faruwa a bankunanmu na gargajiya.

Ta hanyar amfani da kufaden gargajiya kuwa, al'umma ba su da ikon sarrafa kufadensu yadda su ke so sai yadda Gwamnati ta ke so. Kai da kufinka ba ka da yancin cirewa a duk lokacin da ka ke so, ba ka da yancin tura adadin yawan kudin da ka ke so, sannan ba ka da ikon ajiye duk yawan adadin kudin da ka ke so, sai abin da Gwamnati ta kayyade

maka za ka iya: ajiyewa, cirewa ko turawa a kowacce rana, idan Gwamnati ta ga dama ma kai da kudinka sai ta hana ka amfani da su.

Cutting Out the Middleman

Idan kana son tura wa wani kudi, dole kana bukatar banki a matsayin wanda zai tura maka kudin zuwa asusun wanda ka ke son tura wa. Shigowar banki a tsakanin mai turawa da mai karba shi ke haifar da jinkiri domin kafin bankin ya gama bincikawa tare da tantance ingancin mu'amalar sai ya dauki dan lokaci, ba kamar tura cryptocurrency da ke faruwa tsakanin mai turawa da mai karba ba tare da wani a tsakiyar su ba. Bugu da kari, yayin saye ko sayar da kadara ta zahiri, kamar gida, filaye da dai sauransu, mai saye da mai sayarwa suna bukatar Dillali ko Lauya ko kuma duka biyun a tsakaninsu. Shigowar Dillali ko Lauya a tsakanin mai saye da mai sayarwa na haifar da jinkiri. Bayan jinkiri ma, dole mai saye da mai sayarwar sai ko wanensu ya biya Dillali ko Lauya da suka taimaka wajen sasanta cinikayyar da tabbatar da doka a tsakani. Ta hanyar amfani da cryptocurrency kuwa; za ka iya sayen cryptocurrency na biliyoyin kudafe ba tare da wani ma ya sani ba ballantana bukatar lauya ko dillali ta shigo ciki. Za ku gudanar da cinikayyar ne tsakanin ka da mai sayarwar ba tare da wani ya shigo ciki ba, abin burgewar ma har ka saya ka biya kudin ba za ka san wajen wanda ka saya ba shi ma kuma ba zai san wanda ya sayar wa ba.

Serving The Unbanked

Sakamakon binciken *Global Finance and Merchant Machine* na 2021 ya nuna, a halin yanzu akwai kimanin mutane biliyan 2 da ba su da asusun banki a faɗin duniya. A Nijeriya kuma waɗanda da ba su da asusun ajiyar kudi a banki sun kai mutum miliyan 123.6 watau kimanin 60% kenan na yawan mutanen Nijeriya. Galibin mutane ba sa samun damar mallakar asusun ajiya a bankuna ne sakamakon rashin cika ka'idodin buɗe asusun banki, wasu kuma saboda rashin kudi sakamakon buɗe

asusun na bukatar kuɗin da ba za su iya biya ba. Misali: kafin buɗe asusun banki ana bukatar hotunan passport guda biyu, domin yin hotunan nan kuwa sai ka kashe a kalla N500, sannan ana bukatar a kalla N2,000 da za ka sanya a asusun wanda galibin mutane suna fama da abin da za su ci ma ballantana su iya biyan wannan kuɗaɗe.

Amfani da cryptocurrency ba ya bukatar buɗe asusun banki, abin da ya ke bukata kawai shi ne: mallakar waya ko computer. Yayin buɗe wallet kuma ba a bukatar ka sanya ko da sunanka ko katin shaidar ka ballantana rashin katin sheda ya hana ka buɗewa. Ashe kuwa, cryptocurrency zai taimakawa waɗanda ba su da damar buɗe asusun banki, ta hanyar amfani da cryptocurrency kowa ma zai iya turawa ko a turo masa matufar dai ya san yadda a ke yi.

Borderless Payment

Amfani da cryptocurrency zai taimaka wajen cire wahalar yin mu'amalar kuɗaɗe tsakanin kasashen waje. Misali: idan kana da cryptocurrency a Nijeriya za ka iya zuwa Saudia ka sayar da shi ba tare da ka yi canjin kuɗi ba. Da yawan mutane ma suna amfani da cryptocurrency ne domin kawar da matsalar yin canji da wahalar tura kuɗi zuwa wata kasar. Maimakon da za ka tafi Saudia ka yi canji, sai kawai ka bari idan ka isa sai ka sayar da cryptocurrency dinka a biya ka da kuɗin Saudia din. Sannan za ka iya mallakar katin cire kuɗi na cryptocurrency da zai ba ka damar cire kuɗi a duk kasar da ka je.

Idan ya kasance kuma Yan kasuwa ba sa bukatar yin canjin kudade idan za su sayo kaya daga kasashen ketare, hakan zai taimaka wajen rage tashin kayan masarufi wanda karancin Dollar ke haifarwa. A nan Nijeriya amfani da cryptocurrency zai iya taimaka wa wajen haɓɓaka darajar Naira, idan Yan kasuwarmu suka gane yin mu'amalar kuɗi da cryptocurrency hakan zai rage yawan bukatar dollar domin zuwa yin sayayya a kasashen waje, rage bukatar Dollar kuwa zai sa darajarta ta karye idan za a canja ta da Naira.

Liquidity

Ba kamar kadarorin zahiri da idan kana bukatar sayar da su sai ka jira mai saye ba, ko idan kana bukatar saye sai ka jira mai sayarwa ba. Idan kana da cryptocurrency kuma kana bukatar saye ko sayarwa za ka iya saye ko ka sayar nan take.

Liquidity kuɗi ne da a ke sanyawa a kasuwar cryptocurrency ta yadda mai sayarwa zai iya sayar da cryptocurrency dinsa akan farashin da ya ke ba tare da ya jira mai saye ya buƙaci saya ba, idan kuma kana bukatar saye ne to za ka iya saye ba tare da jiran mai sayarwa ba. Bugu da ƙari, kasuwar cryptocurrency tana ci 24/7, babu lokacin da a ke rufewa ko buɗe kasuwar saboda ita ko da yausha a buɗe ta ke. Idan kana son sayen cryptocurrency to za ka iya saya a kowanne lokaci kuma a duk inda ka ke a faɗin duniya, idan kana son sayarwa ma za ka iya sayarwa a kowanne lokaci kuma nan take.

Liquidity da cryptocurrencies su ke da shi yana daga cikin abin da ya sa suka zama kadara mafi daɗin sha'ani domin da zarar ka matsa to za ka iya matsar kayanka a kowanne lokaci. Amma kadarorin zahiri kamar gida ko fili a wani gurin sai a fi shekara ba a samu mai saye ba, idan ka matsa kuma sai dai ka sayar asara. Misali: wani lokacin za ka ga iyaye suna son aurar da yarsu saboda haka sai su daga fili da niyyar sayarwa,

amma a karshe sai dai a dinga daga ranar auren saboda rashin mai sayen filin. Ko kuma wani ya bukaci sayar da wata kadararsa domin biyan kuɗin jinyar da ta ke bukatar kulawar gaggawa, a karshe har mara lafiyar ma zai mutu ba tare da a samu mai saye ba.

Cons

- No reverse of payment or recovery
- Volatile in nature
- Black market

No Reverse of Payment or Recovery

Ba kamar kuɗaɗen gargajiya da idan ka tura kuɗi suna iya dawowa ba, sannan idan ka yi kuskure wajen turawar kana iya zuwa banki ka yi korafi a nemi wanda ka turawa har dai a karshe a dawo maka da kuɗaɗenka. Su cryptocurrencies idan an tura su ba sa taɓa dawowa kuma ba a taɓa dawo da su. Dabi'arsu ta boye bayananku masu mu'amala da su ya sa ba za a iya gane wanda ka turawa ba ballantana a sanya ya dawo da su. Hakan na nufin idan ka yi kuskure wajen turawa to ka yi asararsu kenan domin ba za ka iya dawo da su ba sannan su ma ba za su dawo ba. Bugu da kari, a wajen buɗe wallet ba a amfani da bayananku mutum, saboda haka idan wayarka ko computer naka ta faɗi ko ta lalace kuma ya kasance ba ka ajiye private keys naka ba to ka yi asararsu kenan. Sannan ko da biliyan nawa ka ke da su na cryptocurrency matuƙar babu wanda ka faɗawa private keys naka idan ka mutu magada ba za su iya amfani da su ba. Amma ta hanyar amfani da bankuna idan ka mutu 'Next of kin, naka zai iya zuwa ya bukaci kuɗin kuma a ba shi.

Volatile In Nature

Hawa da saukar farashin cryptocurrency da ke aukuwa lokaci bayan lokaci yana iya zama alheri sannan yana iya zama sharri. Darajar

cryptocurrency a kasuwa ba ta da tabbas, za ka iya ajiye cryptocurrency na milliyan ₦aya ka ga ya koma na kasa da dubu ₦ari, duk da ya ke ya danganta da irin cryptocurrency ₦in da ka ajiye. Sannan za ka iya ajiye coin na dubu ₦ari ka zo ka iske ya koma na million ₦aya. Ba kamar kuɗaɗenmu na gargajiya ba, idan ka ajiye kuɗinka a banki darajar su ba za su ragu ba sai idan bankin ne ya cira.

Black Market

Dabi'a cryptocurrency na boye bayan masu mu'amala zai iya taimakawa masu aikata miyagun laifi kamar; y'an ta'adda, masu fataucin miyagun kwayoyi da sauransu. Ta hanyar amfani da kuɗaɗen gargajiya, y'an ta'adda na shan wahalar gudanar da mu'amalolin kuɗi domin ana iya bin diddiginsu a gano su cikin sauki. Amma ta hanyar amfani da cryptocurrency, y'an ta'adda na iya sayen makamai su biya ba tare da an iya gano su ba. Bugu da ƙari, ta wani ɓangaren cryptocurrency zai iya taimakawa barayin Gwamnati musamman idan ya kasance Gwamnatin ba ta karɓi tsarin amfani da cryptocurrency ba. Misali: anan Nijeriya y'an siyasa na iya satar kuɗi su sayi cryptocurrency su ajiye ba tare da EFCC ta iya ganowa ba, ba kamar yadda idan sun ajiye kuɗaɗe a banki ko kuma sun sayi kadarori EFCC ke iya bin diddiginta ta gano ba. Amma idan ya kasance Gwamnati na amfani da cryptocurrency ne kuma aka ware cryptocurrency aka ba wa wani ɗan siyasa domin ya yi aiki, to ana iya ganin yadda ya ke kashe kuɗin ta yadda ba zai iya sata ba don ko da ma ya sata za a gane.

Types Of Cryptocurrencies

Duk da ya ke yanzu haka akwai fiye da nau'ikan cryptocurrencies 15,000 a kasuwa, sai dai masana na raba cryptocurrencies gida shida (6) bisa la'akari da manufar da aka samar da su da kuma wuraren da su ke aiki. Ga su kamar haka:

1. Payment tokens
2. Privacy tokens
3. Utility tokens
4. Stablecoins
5. Central bank digital currencies (CBDCs)
6. Non-fungible tokens (NFTs)

Payment Tokens

Payment tokens nau'inkan cryptocurrencies ne da ke daukar matsayin kuɗaɗe, ana samar da su ne musamman domin a ke amfani dasu wajen biyan kuɗi yayin cinikayya. Duk da ya ke, kowanne cryptocurrency za a iya amfani da shi a sayi wani abu da shi idan mai sayar da abin ya yarda a ke biyansa da irin coin din, amma akwai nau'ikan cryptocurrencies din da an kirkiro su ne musamman domin haka. Irin waɗannan nau'ikan cryptocurrencies suna daukar matsayin kuɗaɗe ne irin waɗanda aka yi amfani da su a karnin baya, ba irin kuɗaɗen takarda da ba a ajiyarsu a matsayin kadara ba.

Mutanen karnin baya sun yi amfani da; zinare, gishiri, tagulla, tasa a matsayin kuɗi. Dukkanin abubuwan nan suna daukar matsayin kuɗi kuma suna daukar matsayin kadara, kamar haka payment token su ke a duniyar cryptocurrency. Suna daukar matsayin kuɗi domin ana amfani da su wajen saye da sayarwa, suna kuma daukar matsayin kadara domin ana iya sayen su da niyyar gaba a sayar aci riba, kamar yadda zinare ma ana iya amfani da shi a sayi kaya kuma ana iya sayensa a ajiye a matsayin kadara.

Privacy Tokens

Privacy tokens nau'ikan cryptocurrencies ne da a ke samar da su musamman domin yin mu'amalolin kuɗaɗe cikin sirri ta yadda ba za a ga mu'amalolin da aka yi da su ba. Privacy tokens sun bambanta da sauran cryptocurrencies da a ke iya ganin bayanan mu'amalolin da a ke yi da su a fayyace, domin idan na tura maka privacy token to ni da kai ne kadai za mu san mu'amalar da muka yi amma wani ba zai iya dubawa ya gani ba.

Galibin cryptocurrencies suna da tsarin fayyace mu'amala ta yadda kowa zai iya duba adadin yawan coins ɗin da ya ke cikin wata wallet, amma wanda ke da wallet ɗin ne kawai ba za a iya sani ba. Ta hanyar amfani da privacy tokens kuwa, wani ba zai iya duba adadin coin ɗin da aka tura ko aka karba ba, sai waɗanda suka yi mu'amalar ne kadai za su sani.

Stablecoins

Stablecoins nau'inkan cryptocurrency ne da a ke samar da su musamman domin su wakilci darajar kuɗaɗen zahiri ko kuma wata kadara da ta ke a zahiri. Misali: USDT, BUSD, TUSD da aka samar domin su wakilci darajar Dollar America a duniyar cryptocurrency. Waɗannan nau'inkan coins ɗin suna ta shi ne kawai idan darajar Dollar America ta tashi, suna sauka ne kawai idan darajar Dollar America ta sauka. Ana kirƙirar su ne da tsarin da ba za su wuce Dollar America ba, sannan ba za su gaza Dollar America ba (1 USDT= \$1). Suna aiki ne kamar yadda stabilizer ke aiki a wutar lantarki: idan wuta ta yi yawa sai stabilizer ta rage wutar, idan wuta ta yi kaɗan kuma sai ta kara wutar ta yadda ba za ta yi kaɗan ba sannan ba za ta yi yawa ba. Kamar haka stablecoin su ke, idan Dollar America ta tashi sai su ma su tashi, idan ta sauka sai su ma

su sauka, a kowane lokaci dai darajarsu za ta daidaita ne da darajar Dollar America.

Stablecoins suna iya daukar darajar wata kadara ta zahiri ta yadda farashinsu a ko da yausha zai daidaita da farashin kadarar a kasuwa. Misali, stablecoin na zinare farashinsa ko da yausha zai dinga zama ne a farashin da zinare ya ke a kasuwa. Idan zinare a kasuwa yana N100 to shi ma coin din farashinsa zai tsaya a N100 ta yadda ba zai wuce farashin zinarin ko ya gaza ba.

Dabarar samar da irin waɗannan cryptocurrencies din shi ne: idan kana son sayen wata kadara da ta ke a zahiri domin ka sayar da ita wata rana, maimakon ka sayi kadarar sai ka nemi stablecoin da ke wakiltar kadarar ka saya, duk lokacin da ka ke son sayarwa to farashinsa dai ba zai yi kasa da farashin kadarar ba. Sannan stablecoin din da su ke wakiltar Dollar America ko wani kuɗin daban, amfaninsu shi ne: maimakon ka ajiye Dollar a asusun bankinka sai ka ajiye su a wallet naka. Akwai mutanen da sun yarda da cryptocurrency kuma sun fahimci fa'idar amfani da cryptocurrency, amma ba sa son sayen coins don gudun kada su saya farashin coin din ya sauka su yi asara, sai su ke sayen stablecoins tunda su farashinsu ba ya yin kasa da kuɗin da su ke wakilta. Yan crypto kuma suna amfani da stablecoin ne a matsayin jarin yin kasuwancinsu, idan sun ga coin din da za su saya sai su saya da stablecoin din da su ke da shi, idan za su sayar da coin din sai su sayar a ba su stablecoin.

Stablecoins sun bambanta da sauran cryptocurrencies wajen zuwa da kayyadadden adadi, su ba su da takamaiman adadi; adadinsu na iya karuwa kuma yana iya raguwa a ko da yausha.

Central Bank Digital Currencies (CBDCs)

CBDCs nau'ikan kuɗaɗen digital ne da a ke samar da su akan blockchain kamar yadda a ke samar da kowanne cryptocurrency akan blockchain, sai da masana ba su cika sanya su a jerin nau'ikan cryptocurrency ba sakamakon bambancin su da kuɗaɗen digital ɗinmu na gargajiya da Gwamnati ke samarwa kaɗan ne. Bambancin su kawai su CBDCs ana samar da su ne akan blockchain yayin da kuɗaɗen digital ɗinmu na gargajiya ba sa aiki akan blockchain. Sai dai wasu daga cikin masana suna kallon su a matsayin cryptocurrency kasancewar suna akan blockchain kamar yadda cryptocurrencies su ke.

Gwamnatoƙin ƙasashe da yawa sun fahimci amfanin blockchain amma suna faɗa da cryptocurrencies sakamakon cryptocurrency suna wanzuwa ne a tsarin decentralization ta yadda Gwamnati ba za ta iya sarrafa su, kula da su ko juya al'amuransu ba. Sakamakon haka sai gwamnatoƙin ke ƙirƙirar nasu cryptocurrencies ɗin wanda su ke akan tsarin centralization ta yadda zai kasance Manyan Bankunan ƙasashe ne ke; samar da su, sarrafa su da kula da mu'amalolin da a ke yi da su. E-Naira da Babban Bankin Nijeriya ya samar misali ne na nau'ikan CBDCs.

Non-fungible Tokens (NFTs)

A yaren Turanci idan aka ce abu "non-fungible" ne to ana nufin irinsa guda ɗaya ne kawai, idan aka kira wata kadara da 'non-fungible' to wannan kadarar irin ta guda ɗaya ce idan an sayar da ita to sai da ka saye ta a hannun wanda ya saya. Misali: SIM card, idan na sayi SIM lambar sim ɗin ni kaɗai nake da ita wani ba zai sake zuwa kasuwa ya sayi irinta ba, kamar haka non-fungible tokens su ke.

Cryptocurrencies kamar Bitcoin, BNB Ethereum da dai sauransu 'Fungible tokens' ne, saboda ni zan iya mallakar Bitcoin guda ɗaya kai

ma ka mallaki Bitcoin ɗaya sannan wasu ma za su iya mallaka. A dadin Bitcoin ya kai guda million 21, mutane milliyan 21 kowa zai iya sayen Bitcoin guda ɗaya. Amma cryptocurrencies ɗin da su ke 'Non-fungible', to idan na saya kai ba za ka iya sayen irin nawa ba sai da ka sayi irin naka daban.

Non-Fungible tokens nau'ikan cryptocurrencies ne da su ke wakiltar kadarori kamar zane (paints) katuna (cards) da dai sauransu. Ana samar da irin waɗannan cryptocurrencies ɗin ne domin su wakilci kadarori da sana'o'in al'umma ta yadda idan kana zane za ka iya sayar da abin da ka zana, idan kana yin waƙa za ka iya sayar da waƙar, sannan idan kana yin kiɗa ma za ka iya sayar da sautin kiɗan.

Utility Tokens

Utility tokens nau'ikan cryptocurrencies wanda a ke samar da su musamman domin biyan kuɗin caji ko sayen coins ɗin da su ke kan wani takamaiman blockchain. Irin waɗannan tokens ɗin suna zuwa da blockchain wanda kowa zai iya kirƙirar token akan blockchain ɗinsu. Duk token ɗin da aka kirƙira akan blockchain ɗinsu to za a yi amfani da su ne wajen biyan caji na mu'amalolin da aka yi da shi.

Ethereum shi ne coin na farko da ya fara ba da damar da wani zai iya kirƙirar token akan blockchain ɗinsa (ERC-20). Duk token ɗin da aka kirƙira akan ERC-20 to za a iya sayen sa da Ethereum sannan za a iya musanya shi (converting) da Ethereum, yayin biyan kuɗin caji na tura tokens ɗin da aka kirƙiri akan ERC-20 to za a yi amfani da Ethereum ne kaɗai. Daga cikin nau'ikan utility tokens akwai; Ethereum, Augur, Vechain, TRON, EOS, Binance Coin, Stellar, Cardano, Tezos da dai sauransu.

CHAPTER 02

CRYPTOCURRENCY EXCHANGES

A baya mun yi fayyataccen bayani game da cryptocurrencies; tarihin samuwar su, tsarukansu, fa'idodin amfani da su, kalubalen da ke tattare da amfani da su har ma da rabe-raben su. Bayan mai karatu ya fahimci yadda cryptocurrency ya ke da fa'idodin da ke tattare da shi, kuma ya kwadaitu da ya fara kasuwancinsa, abu na gaba da ya rage masa shi ne, ya san inda ake hada-hadar cryptocurrency.

What Are Cryptocurrency Exchanges?

Cryptocurrency exchanges kasuwanni ne da ke wanzuwa akan internet wanda ke ba wa mutane daga sassa daban-daban na faɗin duniya damar; sayen cryptocurrency, sayar da cryptocurrency, musayar cryptocurrency ko kuma adana cryptocurrency a cikinsu. Aikin waɗannan kasuwanni shi ne: su samar da yanayi wanda zai ba wa mai bukatar sayen cryptocurrency daga ko ina ya ke a faɗin duniya damar da zai ga kalar cryptocurrency ɗin da ya ke son saye kuma ya saya ba tare da wata matsala ba. Bugu da ƙari, ayyukan kasuwannin sun haɗa da:

- Samar da rumbun ajiyar bayanai (Database) domin adana bayanan dukkanin hada-hadar da a ke yi a cikinsu ta yadda masu saye da masu sayarwa za su iya bincikawa su ga bayanan; cryptocurrencies ɗin da suka saya ko suka sayar, lokacin da

suka saya ko suka sayar, farashin da suka saya ko suka sayar da dukkanin bayanin abin da suka gudanar a cikinsu.

- Samar da ingantaccen tsaro don kare dukiyoyin masu saye da masu sayarwa ta yadda wani ba zai cuci wani ba a tsakaninsu, ta yadda mai saye zai samu abin da ya saya sannan mai sayarwa ma zai karfi kudin abin da ya sayar cikin aminci da salama.
- Samar da dokoki da tsare-tsare masu kyau da za a gudanar da kasuwancin akansu domin samar da aminci da biyan bukatun masu saye da masu sayarwa.
- Samar da hanyoyin biyan kuɗaɗe daban-daban saboda mutane daban-daban da ke zaune a gurare daban-daban ta yadda za su iya sayen cryptocurrency daban-daban kuma su biya a duk inda su ke a faɗin duniya.
- Samar da guraren ajiyar cryptocurrency ta yadda Yan kasuwa za su iya adana kuɗaɗensu ko cryptocurrencies dɓinsu idan ba sa buƙatar saye ko sayarwa a lokacin.

Types of cryptocurrency exchanges

Kasuwannin hada-hadar cryptocurrency sun kasu kashi uku:

- ❖ Centralized exchanges (CEX)
- ❖ Decentralised exchanges (DEX)
- ❖ Hybrid exchanges (HEX)

Centralized Exchanges (CEX)

Centralized exchanges nau'ikan kasuwannin cryptocurrency ne wanda a ke saye ko sayar da cryptocurrency a cikinsu bisa tsari da jagorancin

hukumomin kasuwannin. Hakan na nufin, hukumomin ne ke kula da duk mu'amalolin da a ke yi a kasuwannin ta hanyar samar da dokokin yadda za a gudanar da kasuwancin, kula da tantance masu saye da masu sayarwa, saya wa wanda ke son saye da sayar wa wanda ke son ya sayar da cryptocurrency dinsa.

Za a iya kiran waɗannan nau'ikan kasuwannin da "Kasuwannin dillanci cryptocurrency" mai ya sa na ce za a iya alaƙanta kalmar 'Dillanci' a cikinsu?

Saboda aikin dillali shi ne ya haɗa mai saye da mai sayarwa kuma ya sasanta su tare da sama masu tsarin da za su yi cinikayyar cikin aminci. Dillali shi ne mutumin tsakiya (Middle man) wanda ke a tsakanin mai saye da mai sayarwa ta yadda idan kana son sayar da wani abu dillali za ka ba wa talla, sannan idan kana son sayen wani abu nan ma dillali za ka ba wa cigiyar neman mai buƙatar sayarwa. Kamar haka centralized exchanges su ke aiki: idan kana son sayen coin cikinsu za ka shiga su haɗa ka da mai sayarwa, idan za ka biya kuɗin coin ɗin da ka saya su za ka ba wa su kuma su ba wa mai sayarwa, idan mai sayarwa zai ba ka coin ɗin da ka sayar su zai ba wa su kuma su ba ka.

Centralized exchanges suna kuma da kamanceceniya da bankuna ta fuskar ikon kula da duk cinikayyar da a ke yi a cikinsu kamar yadda bankuna ke kula da duk mu'amalolin da a ke yi a cikinsu. Yadda a ke gudanar da kasuwancin cryptocurrency a cikin centralised exchanges ya yi kama da yadda a ke yin mu'amalolin kuɗi a bankuna ne ta abubuwa kamar haka:

- ❖ Kafin ka fara aiki da kasuwannin sai ka buɗe asusu a cikinsu, yayin buɗewa za a buƙaci bayananka harda katin shaidarka kamar dai yadda bankuna ke yi.

- ❖ Za ka sanya kuɗaɗenka a asusunka na kasuwar ka ajiye a ciki kamar yadda a ke sanya kuɗi a asusun banki.
- ❖ Za ka bincika cryptocurrency ɗin da ka ke son saye, kowanne cryptocurrency za ka gansa da farashinsa ya danganta da ƙasar da ka ke, idan kana Nijeriya ne za ka ga farashin kowanne coin da Naira.
- ❖ Za ka zaɓi cryptocurrency ɗin da ka ke son saye, kasuwar za ta nuna maka masu son sayarwa, za ka buƙaci saye akan wani adadin farashi, kasuwar za ta bincika wanda ke son sayar da coin ɗinsa a farashin da ka saita.
- ❖ Kasuwar za ta cire kuɗaɗe daga asusunka gwargwadon adadin cryptocurrency ɗin da ka saya sai ta sanya a asusun wanda ya sayar maka sannan ta cire adadin da ka saya daga asusun mai sayarwa ta sanya maka a naka asusun. Kamar dai yadda bankuna ke cire kuɗi daga asusunka su sanya a asusun wanda ka turawa.

Sannan za a iya fassara centralized exchange da "Cibiyar musayar cryptocurrency" domin mutane daga sassa daban-daban na faɗin duniya ke shiga cikinsu su sayi cryptocurrency ko su sayar karkashin jagorancin hukumomin kasuwar.

Best Centralized Exchanges In 2021

Akwai nau'inkan centralized exchanges da yawa, daga cikin waɗanda suka fi shahara kuma aka fi saye da sayarwar cryptocurrency a cikinsu akwai:

1. Binance

2. Coinbase
3. FTX
4. Kraken
5. Crypto.com
6. KuCoin
7. Huobi Global
8. Gate.io
9. Bitfinex
10. Gemini
11. Binance.us
12. Bitstamp
13. Bybit
14. FTX US
15. bitFlyer
16. Coincheck
17. Bithumb
18. OKEx
19. Poloniex
20. Coinone

Pros And Cons of Centralized Exchanges

Centralized exchanges suna tattare da fa'idodi da yawa, a wani bangaren kuma suna dauke da matsaloli da yawa wanda amfani da su kan iya haifarwa.

Pros

- ✓ User-friendly
- ✓ Customer service
- ✓ Reliable
- ✓ Fiat-to-crypto

- ✓ Recovery possible
- ✓ Multiple payment methods
- ✓ Trading styles

User-Friendly

Centralized exchanges an tsara su ta sigar da za su yi sauƙin fahimta ta yadda hatta mai koyo zai iya fahimtar yadda a ke saye da sayarwa a cikin sauƙi. Galibin kasuwannin suna da fasalin 'Lite' da 'Pro'.

Lite: yanayi ne mai sauƙin fahimta da aka samar musamman domin masu koyo. Idan ka saita 'Lite' za ka ga an taikaita komai ta yadda ba za ka sha wahalar fahimtar yadda a ke amfani da kasuwar ba.

Pro: yanayi ne mai rikitarwa da aka samar musamman domin waɗanda suka kware sosai. Pro na ɗauke da abubuwan da yawanci ba sa bayyana a Lite.

Customer Service

Centralized exchanges na samar da tsarin zantawa da wakilansu domin yin tambaya ko yin korafi idan buƙatar hakan ta taso. Idan kana fuskantar wata matsala yayin amfani da su ko kana son yin tambaya akan wani tsari da ba ka gane ba kana iya tuntuɓar su kai tsaye kuma su saurare ka.

Reliable

Amfanin da centralised exchanges wajen sayen cryptocurrency ya fi aminci da salama kasancewar suna da tsarin tantance masu saye da masu sayarwa, sannan suna shiga tsakani domin su tabbatar an gudanar da cinikayya a sigar da babu cuta babu cutarwa.

Fiat-to-Crypto

Wasu daga cikin nau'ikan centralized exchanges na ba da damar a sayi cryptocurrency ta hanyar amfani da kuɗaɗen gargajiya ta yadda mai

saye zai iya amfani da kuɗaɗensa na banki ya sayi coin, haka ma mai sayarwa zai iya sayar da cryptocurrency a sanya masa kuɗin a asusunsa na banki.

Recovery Possible

Kasancewar kafin fara amfani da centralised exchange dole sai ka yi rijistar buɗewa wanda za a buƙaci bayananka kuma sai an tantance bayanan kafin a ba ka damar fara saye ko sayarwa, hakan na taimakawa yayin da ka manta password naka za ka iya dawo da shi. Idan ka ajiye coins naka a cikin waɗannan kasuwanin to ko da ka manta password naka to ba ka yi asarar kuɗaɗenka ba, domin za ka iya buƙatar canja password sai kasuwar ta yi amfani da bayanan da ka bayar lokacin rijista, a tambaye ka su idan ka iya tabbatar da kanka sai a ba ka damar canja sabon password.

Multiple Payment Methods

Da ya ke mutane daga sassa daban-daban na faɗin duniya ne ke tattaruwa a centralized exchanges domin gudanar da kasuwancin cryptocurrency, kasuwannin suna samar da hanyoyin biyan kuɗaɗe daban-daban da ako wacce ƙasa ka ke za ka iya amfani da irin hanyar biyan kuɗin da ku ke amfani da shi a ƙasarku ka sayi cryptocurrency ko ka sayar a biya ka.

Trading Styles

Centralized exchanges suna ba da damar gudanar da salon kasuwancin cryptocurrency daban-daban ta yadda Ɗan kasuwa zai zaɓi salon da ya fi ƙayatar da shi ya ke amfani da shi.

Cons

- No anonymity

- Higher risk of hacking attacks
- Price manipulation
- Custodial
- Not global accessible
- Transaction limitations

No Anonymity

Yayin amfani da centralised exchanges dole sai ka yi rijista wanda sai ka sanya cikakken bayananka, saboda haka duk mu'amalolin da ka ke yi a cikin kasuwannin ana iya gani kuma a gane ka. Sannan kasuwar tana iya sanin daga kasar da ka ke ta yadda idan kasar ta hana amfani da cryptocurrency kasuwar za ta iya hana ka saye ko sayarwa.

Higher Risk of Hacking Attacks

Saboda kudade da bayananku masu hada-hada a kasuwannin yana tattare a rumbun ajiyar bayanai na kasuwar, hakan wata dama ce ga masu yin kutse su iya gane inda za su kai hari kai tsaye. Shi ya sa mafi yawan irin waɗannan nau'ikan kasuwannin an taɓa yi masu kutse an saci maƙudan kudade a cikinsu, duk da asarar bata cika shafar masu ajiyar kudadensu a kasuwanni ba.

Price Manipulation

Centralized exchanges an sha zarginsu da ha'ntar farashin cryptocurrencies musamman yayin kaddamar da sabbin cryptocurrencies a kasuwannin ta hanyar daga farashin coin sai mutane da yawa sun saya sai su mayar da farashin yadda ya ke, hakan kuma na janyowa mutane asara sosai.

Custodial

Yayin amfani da centralised exchanges dole sai Dan kasuwa ya buɗe asusun ajiya wanda zai sanya kuɗin da zai sayi cryptocurrency da su ko ajiye cryptocurrency ɗin da ya ke son sayarwa. A sakamakon haka, Dan kasuwa ba shi da cikakken ikon sarrafa dukiyarsa sai yadda kasuwar ta tsara masa, wani lokacin ma kasuwannin suna iya hana cire kuɗi musamman idan suna yin gyara. Wata buƙata ta musamman za ta iya tasowa ka buƙaci amfani da kuɗaɗenka amma ka tarar an hana cirewa a lokacin.

Not Global Accessible

Ba a kowacce ƙasa za ka iya sayen cryptocurrency a cikin centralized exchanges ba sakamakon sai an yi rijista a ke amfani da su, sannan suna amfani da database ne wajen adana bayanai maimakon amfani da distributed ledger. Saboda haka, mutanen da ke a ƙasashen da aka haramta kasuwancin cryptocurrency ba za su samu damar shiga kasuwanni ba.

Transaction Limitation

Kasancewar centralized exchanges cibiyoyi ne da ke aiki kamar banki, masu amfani da su ba kowanne adadin coin za su iya ajiyewa, cirewa ko turawa ba. Suna da kayyadadden adadin da su ke ba da damar sanyawa, cirewa ko turawa a kowacce rana. Idan ka cinye wannan adadin sai dai ka jira zuwa gobe kafin ka iya amfani da wani adadin.

Decentralized Exchange (DEX)

Decentralised exchanges nau'ikan kasuwannin cryptocurrency ne da ke ba wa Yan kasuwa damar su yi cinikayya a tsakaninsu ba tare da sa hannun hukumomin kasuwar ba. Hakan na nufin; mai saye zai sayi

cryptocurrency dɪn da ya ke so kai tsaye daga mai sayarwa, mai sayarwa zai sayar da cryptocurrency dɪnsa kai tsaye ga mai saye ba tare da hukumomin kasuwar sun shiga tsakaninsu domin sasantaƙa ko tantancewa ba. Irin waɗannan nau'ikan kasuwannin sun fi kama da kasuwanninmu na zahiri inda mai saye ke shiga ya ga kayan da ya ke so kuma ya saya a gurin mai sayarwa kai tsaye.

A '*Centralized exchanges*' hada-hadar cryptocurrency a cikinsu yana faruwa ne tsakanin mutane uku; mai saye, mai sayarwa da kuma kasuwar. Mai saye ba ya sayen cryptocurrency kai tsaye daga mai sayarwa sai dai ya buƙaci kasuwar ta saya masa, mai sayarwa ba ya sayar da cryptocurrency dɪnsa kai tsaye ga mai buƙatar saye sai dai ya buƙaci kasuwar ta sayar masa. Amma a decentralised exchanges mai saye da mai sayarwa ne su ke cinikayya a tsakaninsu, mai saye ya saya kuma ya biya mai sayarwa kuɗin cryptocurrency dɪn da ya saya, sannan mai sayarwa ya ba wa mai saye adadin cryptocurrency dɪn da ya sayar masa.

Best Decentralized Exchanges In 2021

Daga cikin nau'ikan decentralized exchanges da suka fi shahara kuma aka fi amfani da su akwai:

1. Uniswap (V3)
2. PancakeSwap (V2)
3. dYdX
4. ApolloX DEX
5. Deri Protocol
6. TraderJoe
7. Biswap
8. Curve Finance
9. SpookySwap

10. Kine Protocol
11. 1inch Exchange
12. Honeyswap
13. Sushiswap
14. Quickswap
15. Raydium
16. Serum DEX
17. SpiritSwap
18. Terraswap
19. Perpetual Protocol
20. Pangolin

How Decentralized Exchanges Works?

Kasancewar mutane na saye da sayarwa ne a decentralized exchanges ba a karkashin gudanarwar hukumomin kasuwannin, mai karatu zai so ya san yadda mutanen da ke zaune a kasashe daban-daban za su iya haɗuwa a wata kasuwa su yi kasuwanci ba tare da kasuwar na sanya ido akansu ba, kuma ya kasance an yi an gama ba tare da wani ya cuci wani ba. Decentralised exchanges na aiki ne ta hanyar amfani da tsaruka kamar haka:

No Sign up & KYC

Decentralized exchanges ba su da tsarin yin rijista ko buɗe asusun ajiya, suna ba wa mutane damar amfani da su ba tare da sun yi rijista ko sun buɗe asusun ajiya ba. Kamar kasuwanninmu ne na zahiri, inda za ka iya shiga ka yi sayayya ba tare da ka yi rijista ba domin babu wata hukuma a kasuwar da ke kula ko tantance masu saye da sayarwa.

Connect Your Wallet

Decentralized exchanges ba su da tsarin buɗe asusun ajiya wanda mai saye zai ajiye kuɗinsa a ciki mai sayarwa kuma ya ajiye abin da zai sayar a ciki, maimakon haka kowa zai yi amfani da wallet dinsa ta musamman ne da ya ke da ita. Kasuwannin da kamfanonin da su ke samar da wallet suna ba wa masu sayayya damar jona wallet nasu da kasuwar. Hakan na nufin, abin da za ka yi amfani da shi a matsayin kuɗin sayayya da kuma cryptocurrency dɪn da ka ke son sayarwa duka za ka ajiye su a cikin wallet dɪnka ta musamman ne, idan ka shiga kasuwar sai ka jona wallet dɪn da kasuwar. Kamar dai yadda ya ke idan za ka je sayayya a wani shago da ke a kasuwanninmu na zahiri, za ka ta fi da kuɗinka ne a aljihunka sannan shi kuma mai shagon zai ajiye kayan da ya ke sayarwar a shagon, idan ka sayarwa sai a ba ka kayan ka tafi.

Place An Order

Bayan ka jona wallet naka da kasuwar, abu na gaba da za ka yi shi ne za ka zaɓi abin da ka ke son saye ko sayarwa, ka sanya adadin da ka ke son saye ko sayarwar sannan ka danna alamar saye ko sayarwa. Kamar yadda ya ke a zahiri, idan ka je shago za ka nuna abin da ka ke so ne kuma ka faɗi adadin da ka ke so, kai kuma a faɗa maka kuɗin ka biya.

Smart Contract Automates Trading

Bayan ka zaɓi abin da ka ke so kuma ka danna alamar buƙatar saye, abu na karshe shi ne a zare jumillar kuɗin cryptocurrency dɪn da ka saya daga wallet naka sannan a sanya maka cryptocurrency dɪn da ka saya a cikin wallet naka, hakan na faruwa ne da taimakon tsarin smart contract.

Smart contract: tsari ne da a ke amfani da shi wajen kulla yarjejeniya. Da zarar aka kulla yarjejeniyar sai smart contract ya tabbatar da abin da aka kulla dɪn nan an aiwatar da shi daidai.

Yayin da ka sanya adadin coin dɓin da za ka saya kuma aka nuna maka jumillar kuɓin da za ka biya sannan ka danna alamar amincewa, to kamar ka kulla yarjejeniya da mai sayarwa ne, saboda haka smart contract zai tabbatar da jumillar kuɓin cryptocurrency dɓin da ka saya ya fita daga wallet naka, sannan adadin cryptocurrency dɓin da ka saya kuma ya shiga wallet naka. Kai mai saye abin da ka saya ba zai taɓa shiga wallet naka ba sai idan adadin kuɓin da za ka biya sun fice daga wallet naka, mai sayarwa ma kuɓin kayansa ba za su taɓa shiga wallet na shi ba sai kayan da ya sayar sun fita daga wallet na shi. Ta haka ne smart contract ya ke taimakawa ayi kasuwancin ba tare da wani ya zalunci wani ba.

Pros And Cons of Decentralized Exchanges

Decentralized exchanges na da tarin fa'idodin da za su sanya a buƙaci amfani da su, a wani ɓangaren kuma suna da matsalolin da zai sa a ƙi amfani da su.

Pros

- ✓ Anonymity
- ✓ Global accessibility
- ✓ Difficult to hack
- ✓ Low fees
- ✓ Non-custodial
- ✓ More trading options

Anonymity

Yayin amfani da decentralized exchanges ba a buƙatar yin rijista ko buɗe asusun ajiya ballantana a samu bayananka da za a iya amfani da su a gane ka ko a gane inda ka ke. Idan ko ya kasance za ka iya sayen

cryptocurrency ko ka sayar ba tare da an iya gane ka ba, hakan na nuna ba za a iya sanin mai ka saya, mai ka sayar, adadin da ka saya da kuma adadin da ka sayar ba. Ba kamar centralized exchanges da kafin amfani da su sai an yi rijista kuma sai an tantance bayanan da aka bayar ba.

Global Accessibility

Yana daga cikin fa'idodin amfani da decentralized exchanges shi ne, za ka iya sayen cryptocurrency ko ka sayar a kowacce fasa ka ke a fadin duniya ko da kuwa a kasar an haramta kasuwancin cryptocurrency. Kasuwannin sun dogara ne kacokan da blockchain, saye da sayarwar da a ke yi a cikinsu yana gudana ne da taimakon smart contract. Saboda haka, ba za a iya hana mutanen wata kasar shiga cikin kasuwannin ba, idan ko ana so a hana to sai dai a hana amfani da internet a kasar gaba daya, amma matuƙar akwai internet to babu shakka mutane za su iya saye da sayarwa a decentralised exchanges.

Difficult To Hack

Kasancewar decentralised exchanges sun dogara ne da blockchain wajen tattara bayanai, blockchain kuwa na amfani ne da distributed leader da ke rarraba bayanan mu'amaloli ga computers da wayoyin da a ke amfani da su a yi mu'amala akan wannan blockchain din, masu kutse ba za su iya yiwa kasuwannin kutse a cikin sauki ba. Kafin su samu damar yiwa kasuwar kutse sai idan za su iya tattaro wayoyi da computers din da a ke amfani da su a shiga kasuwar, wanda hakan kuma ba abu ne mai yuyuwa ba. Sannan ko da ma masu kutsen sun samu damar yiwa kasuwar kutse, kasancewar masu amfani da kasuwannin ba sa ajiye coins dinsu a ciki to ba za su yi asarar komai ba.

Low Fees

Wani abin kayatarwa da irin waɗannan kasuwannin shi ne cajis dīn da su ke chajar masu mu'amala da su kaɗan ne duk da ya ke ya ta'allaka ne da blockchain dīn da kasuwar ke aiki da shi. Irin su PancakeSwap, Sushiswap, 1Inch da su ke akan Binance smart-chain suna da sauƙin cajis sosai idan aka kwatanta su da nau'ikan centralized exchanges irin su Binance, Coinbase da sauransu.

Non-custodial

Yayin amfani da decentralized exchanges ba a buɗe asusun ajiya a kasuwar ballantana ya zama dole sai an ajiye coins a ciki kafin a iya saye ko sayarwa. Wallet kawai za a jona a sayar da coins nan take kuɗin da aka sayar su shiga wallet na mai sayarwa, ba kamar centralized exchanges da dole sai an ajiye coins a cikinsu kafin a iya sayarwa ba.

More Trading Options

Decentralized exchanges na ɗauke da dubannin cryptocurrencies kala-kala, kusan duk cryptocurrency dīn da za a buƙaci saye ko sayarwa akwai a cikinsu sakamakon kaddamar da sabbin cryptocurrencies a cikinsu babu wahalarwa ta yadda hatta waɗanda ba su iya cika sharaɗoɗin kaddamarwa a centralized exchanges ba suna samun damar kaddamarwa a nan.

Cons

- No fiat-to-crypto
- Not user-friendly
- No recovery
- Not reliable
- Low liquidity

No Fiat-to-Crypto

Decentralized exchange ba sa ba da damar sayen cryptocurrency ko sayarwa da kuɗaɗen gargajiya. Idan kana buƙatar sayen cryptocurrency a matakin farko dole sai dai ka yi amfani da centralised exchanges, sakamakon a decentralised exchanges musayar cryptocurrencies a ke, ma'ana ka ba da wani cryptocurrency ka karɓi wani cryptocurrency ɗin daban. Sabon shiga ba zai samu damar sayen cryptocurrency da kuɗaɗensa na banki ba, sannan ba zai samu damar sayar da cryptocurrency a biya shi da kuɗaɗen banki ba.

Not User-Friendly

Decentralized exchange ba su da fasali mai sauƙin fahimta da ake warewa musamman domin masu koyo, fwararru da masu koyon duka fasali ɗaya su ke amfani da shi. A sakamakon haka, amfani da irin waɗannan kasuwa yana gagarar masu koyo har sai sun ɗauki lokacin mai ɗan tsayi kafin su iya amfani da su daidai.

No Recovery

Idan wani abu ya faru yayin amfani da decentralized exchanges kuma ya janyo maka asara to babu yadda za ka yi ka dawo da abin da ka rasa sai dai ka ɗaga hannu ka ɗora a kai ko kuma kai ta sallallami, amma asara kam ka riga ka yi. Saboda haka, akwai buƙatar sanya hankali da natsuwa sosai yayin amfani da su.

Not Reliable

Decentralized exchanges tamkar bariki su ke: uwa ba kwaɓa uba babu fwaɓa, duk mu'amalolin da a ke yi a cikinsu babu mai kula da tantancewa. Abu mai sauƙi ne ka sayi jabun cryptocurrency a cikinsu saboda rashin tsarin tantance inganci kafin saka coin, sannan kowa ma

na iya saka cryptocurrency kuma ya sayar ko da jabu ne mara ingancinci.

Slippage

Slippage na faruwa ne idan mai sayar da coin ya sanyawa coin din farashin da ya wuce farashin da a ke sayar da shi a kasuwa a daidai wannan lokacin. A decentralised exchanges galibi a kan samu coins da dama wanda su ke da slippage, idan za ka saye su farashinsu daban idan za ka sayar farashinsu daban, ana zuka farashi idan za ka saya sannan ana rage farashi idan za ka sayar. Amma wannan na faruwa ga iya wasu coin din kadai, yayin da yawan coins kuma ba su da shi ma.

Low Liquidity

Liquidity yana yin karanci a decentralised exchanges ta yadda cryptocurrencies da dama idan ka saye su ba za ka iya sayar ba, wani lokacin ma ba za ka iya sayen su ba ko kuma ba za ka iya sayen adadin da ka ke so ba. Wani lokacin kuma idan za ka sayi cryptocurrency a cikin adadin da za ka saya sai an dauki wani adadi an sanya a cikin liquidity, haka ma idan za ka sayar.

Hybrids Exchanges (HEX)

Hybrid exchanges kasuwanni cryptocurrency ne da suka haɗa ayyuka da tsarukan centralized exchanges da decentralised exchanges a guri ɗaya. Dabarar samar da irin waɗannan kasuwannin shi ne: domin a kawar da raunin da ke tattare da centralised da decentralized exchanges ta yadda Ɗan kasuwa zai mori fa'idodin da ke cikin kasuwannin biyu a guri ɗaya. Ta fuskar samar da kyakkyawan tsarin gudanar da kasuwancin cryptocurrency centralized sun fi decentralised exchanges, ta fuskar samar da tsaro da ba da cikakken yancin cinikayya ba tare da

shinge ba kuma decentralised exchanges sun fi centralized exchanges. Saboda haka ne aka samar da hybrid exchanges da niyyar amfani da kyakkyawan tsarin gudanarwa da ke cikin centralized da kuma cikakken tsaron adana bayanai da ba wa Yan kasuwa cikakken yanci da ke a decentralised exchange. Hybrid exchanges na kunshe da fa'idodin da ke a cikin kasuwannin guda biyu, sannan ta kawar da raunin da ke cikin kasuwannin domin samar da kasuwa daya mai tarin fa'idodi da rashin matsaloli.

Hybrid exchanges su ne nau'inkan kasuwanni crypto sabon yayi da za a yi amfani da su a nan gaba. A halin yanzu, babu nau'ikan hybrid exchanges da suka fara aiki gadan-gadan, amma akwai da dama waɗanda a ke kan samarwa, daga cikinsu akwai waɗanda suna kan matakin karshe na fara aiki yayin da wasu ke kan matakin gwaji kamar www.qurrex.com www.espay.exchange da sauransu.

Factors To Consider When Choosing Cryptocurrency Exchange

A yau, akwai kimanin fiye da cryptocurrencies exchanges guda 444 da a ke amfani da su ayi kasuwancin cryptocurrency. Galibin su ba su da inganci, akwai buƙatar yin duba na tsanaki wajen tantance exchanger kafin amfani da ita domin kiyaye kanka daga yin mummunar asara wanda zaɓar jabun kasuwa zai iya janyo maka. Akwai muhimman abubuwa guda bakwai da za ka yi la'akari da su yayin zaɓar exchanger da za ka yi amfani da ita wajen gudanar da kasuwancinka na cryptocurrency. Ga jerin abubuwan kamar haka:

1. Supported countries
2. Supported currencies
3. Liquidity

4. Transaction fees
5. Payment methods
6. Volume
7. Security

Supported Countries

Abu na farko da za ka fara bincikawa yayin zaɓar exchanger shi ne: ka duba jerin ƙasashen da a ke iya amfani da ita. Centralized exchanges ba kowacce ce ke aiki a kowacce ƙasa ba, galibin su akwai ƙasashen da ba sa aiki sakamakon rashin cika sharuɗɗan hukumomin ƙasashen. Saboda haka, ka bincika ko exchanger ɗin na aiki a ƙasarka. Za ka iya duba haka ne ta hanyar shiga website nata.

Supported Currencies

Abu na biyu, ka duba adadin kuɗaɗen gargajiyyar da a ke iya sayen cryptocurrencies da su da kuma adadin cryptocurrencies ɗin da a ke iya kasuwancin su a cikinta. Tunda decentralized exchanges ba sa ba da damar amfani da kuɗaɗen gargajiya, sai ka duba adadin yawan coin ɗin da a ke iya cinikayyar su a cikinta. Centralized exchanges ma ba kowacce ke ba da damar amfani da kuɗaɗen gargajiya ba, ga waɗanda ke ba da damar amfani da kuɗaɗen gargajiyyar sai ka duba ko kuɗin ƙasarka na cikin jerin kuɗaɗen da a ke iya sayen cryptocurrencies da su, sannan ka duba yawan coins ɗin da a ke iya kasuwancinsu a cikinta ko akwai irin coin ɗin da ka ke son saye ko sayarwa a cikinta.

Liquidity

Liquidity shi ne abu na uku da za ka yi la'akari da shi. Yawan liquidity da kasuwar ke da shi zai ba ka tabbacin idan za ka sayi cryptocurrency a kasuwar za ka saya cikin sauƙi ba tare da jiran mai sayarwa ba, haka idan ka tashi sayarwa ma za ka sayar cikin sauƙi ba tare da jiran mai

saye ba. Idan kasuwar babu liquidity sosai kuwa, hakan na nufin ba ta da saukin cinikayya sosai domin za ka iya sayen coin ka zo sayarwa babu hali sai ka jira mai saye, watakila kafin lokacin ma farashin coin dīn ya sauka.

Transaction Fees

Yana da matuƙar amfani ka duba yawan cajis dīn da kasuwar ke chaja yayin mu'amala da ita. Wasu kasuwannin suna da caji sosai da in ba adadin coin dīn da za ka saya ko sayarwa yana da yawa ba, sai cajis ya fi kuḍin coin dīn da za ka tura. Shi ya sa ya ke da matuƙar mahimmanci ka duba yawan cajis da kasuwar ke caji kafin ma ka fara amfani da ita.

Payment Methods

Ga exchanges dīn da ke ba da damar amfani da kuḍaḍen gargajiya, yana da kyau ka duba hanyoyin biyan kuḍin da kasuwar ke aiki da su. Binance Trades

Binance ta tanadar wa masu amfani da ita tsarukan cinikayyar cryptocurrency daban-daban da za su iya gudanarwa a cikinta:

- ❖ Convert
- ❖ Spot
- ❖ Margin
- ❖ P2P
- ❖ Fiat

Convert

Convert hanya ce ta yin musayar cryptocurrencies wadda Dan kasuwa zai musanya cryptocurrency dɓin da ya ke da shi zuwa wanda ba shi da shi. Misali, kana da USDT kana bukatar BUSD, ta hanyar convert za ka ba da USDT dɓinka a ba ka BUSD. Ana yin musayar ne bisa la'akari da farashin cryptocurrencies a wannan lokacin, gwargwadon kimar coin dɓin da ka bayar gwargwadon kimar coin dɓin da za a ba ka. Mafi yawan Yan kasuwa suna amfani da convert a matsayin hanya mafi sauri ta sayar da coin dɓinsu.

Spot

Spot hanya ce ta saye da sayarwa wadda mai saye zai sayi coin nan take kuma ya biya nan take bisa la'akari da farashin coin dɓin a kasuwa. Spot hanyar cinikayya ce irin wadda mu ke amfani da ita a kasuwanninmu na zahiri wadda mai sayarwa zai zo da abin da zai sayar, mai saye zai zo da kuɓin saye ya biya a ba shi abin da ya saya nan take.

A centralized exchanges kamar Binance, spot guri ne da Dan kasuwa zai shiga ya ga farashin coin a lokacin, ya ga orders na masu saye da na masu sayarwa. ya bukaci saye ko sayarwa ita kuma kasuwar ta saya ko ta sayar masa a farashin da ya saita. Dan kasuwa zai bukaci saye ne idan yana da kuɗin biya a wallet na shi, mai sayarwa zai bukaci sayarwa ne idan yana da adadin coin ɗin da ya ke son sayarwa a wallet na shi.

Margin

Margin hanya ce da za ta ba ka damar sayen cryptocurrency fiye da adadin kuɗin da ka ke da shi ta hanyar ba da coin ɗin da ka ke da shi domin a ba ka adadin da ka bukata. Misali, kana da USDT guda dubu 10, kana bukatar sayen Bitcoin amma adadin USDT ba zai saya maka Bitcoin ɗin ba, ta hanyar margin za ka iya ba da adadin USDT naka a riƙe a matsayin jingina (Collateral) sai a ba ka Bitcoin da ka bukata ka yi kasuwanci da shi, daga baya ka dawo ka biya. Margin kamar hanyar cinikayya ce ta jingina wadda za ka iya ba da kuɗi kaɗan ka jingini kadara daga baya ka maida a ba ka kuɗin da ka bayar.

Fiat

Fiat hanya ce ta sayen cryptocurrency ko sayarwa da kuɗaɗen gargajiya ta hanyar amfani da katin cire kuɗi (Debit/Credit card). Ta wannan hanyar za ka iya saye ko sayar da cryptocurrency da kuɗin da ke asusun bankinka. Idan kana a Nijeriya, a halin yanzu ba za ka iya sayen cryptocurrency ta hanyar amfani da wannan tsarin ba, biyo bayan umurnin Babban Bankin Nijeriya na hana amfani da bankuna wajen sayen cryptocurrency.

P2P

P2P a Binance guri ne da aka tanadar domin sayen wasu daga cikin trading pairs, ma'ana nau'inkan coins dɓin da Binance ta zaba domin a ke amfani da su a matsayin kuɗin cinikayya a kasuwarta. Ta hanyar P2P za ka iya sayen coins dɓin kuma ka biya da kuɗin kasarka. Binance ta samar da wannan tsari ne domin taimakawa mutanen da ba su mallaki hanyoyin biyan kuɗi da Binance ke amfani da su ba, da kuma mutanen da a kasar da su ke akwai dokar hana sayen cryptocurrency ta hanyar amfani da banki kamar dai yadda aka hana a Nijeriya.

Binance na amfani da BNB,BTC,USDT, ETH da BUSD a matsayin kuɗaɗen cinikayya a kasuwar. Idan kana so ka sayi coin wajibi ka mallaki ɗaya daga cikin su domin da su ne za ka saya sannan da su za a biya ka idan ka sayar. Hanya mai sauƙi ta sayen su ita ce ta hanyar amfani da katin cire kuɗi na banki (Debit card), kasancewar Babban Bankin Nijeriya ya dakatar da amfani da banki wajen sayen cryptocurrency, ga mutumin da ke Nijeriya ta hanyar P2P ne kaɗai zai iya sayen su.

P2P na ba wa Yan kasuwa damar su sayi BNB,BTC,USDT, ETH da BUSD kai tsaye daga mai sayarwa kuma su biya shi da kuɗin gargajiya ta hanyar tura masa kuɗin kai tsaye zuwa asusun bankinsa. Tsarin P2P ya yi kama da tsarin kasuwanci a decentralised exchanges inda mai saye ya ke saye kai tsaye daga mai sayarwa kuma ya biya shi kuɗin kai tsaye. Idan ka sayi coin a P2P to ka saya ne kai tsaye ga mai sayarwa, za ka iya ganin sunansa har ma da bayanan asusun bankinsa da za ka tura masa kuɗin, amfanin Binance anan shi ne ta sama muku tsarin da zaku yi cinikayyar cikin aminci ba tare da cutarwa ba.

How P2P Exchange Work?

Kaddara kana da kuɗi a asusun bankinka kuma kana buƙatar sayen cryptocurrency da su domin ka ajiye, kasancewar Gwamnati Nijeriya ta

hana amfani da banki wajen sayen cryptocurrency ballantana ka yi amfani da katin cire kudɓin bankinka ka saya, a wannan yanayin sai dai ka nemi wanda ya ke da coin dɓin da ka ke son saye ka tura masa kudɓi shi kuma ya turo maka coin dɓin. Sai dai ba lallai ka samu wanda zai sayar maka a kusa da kai ba, kila sai dai ka bincika a kafofin sada zumunta kamar; Facebook, Twitter, Instagram da dai sauransu. A nan kuma za ka iya turawa wanda zai sayar maka kudɓi, bayan kudɓin sun shiga shi kuma ya fi tura maka coin dɓin, tunda ba ka san shi ba dole sai dai ka dɓauki kaddara.

Saboda haka, sai Binance ta samar da tsarin P2P inda za ka iya sayen cryptocurrency da kudɓaɗenka na banki cikin aminci. Binance ita ce za ta tantance mai saye da mai sayarwa kafin ta ba su damar amfani da tsarin, sannan ita za ta samar da tsarukan da za a yi amfani da su wajen gudanar da cinikayyar ta yadda wani ba zai cuci wani ba. Yadda tsarin P2P ya ke shi ne:

- Mai sayarwa zai sanya bayanan asusun bankinsa sannan Binance ta tantance sahihancin bayanan.
- Mai sayarwa zai ajiye coin dɓin da ya ke son sayarwa a funding wallet. Sannan zai shiga sashin P2P ya bukaci sayar da coin dɓinsa ta hanyar sanya order.
- Shi ma mai saye zai sanya bayanan asusun bankinsa sannan Binance ta tantance sahihancin bayanan.
- Zai shiga sashin P2P ya duba order dɓin masu son sayar da coin dɓinsu, idan ya ga wanda farashinsa ya kwanta masa a rai sai ya bukaci saye. Da zarar ya bukaci saye to Binance za ta sanar da mai sayarwa cewa wani na bukarar sayen coin dɓin da ya ke son

sayarwa, sannan za ta riƙe coin ɗin domin hana mai sayarwa cirewa har sai an gama cinikayyar ko kuma mai sayen ya fasa saye.

- Binance za ta nunawa mai saye bayan an asusun bankin mai sayarwa har da lambar wayarsa, sannan shi ma mai sayarwa zai ga bayan an asusun mai saye da lambar wayarsa. Binance za ta ba su kayyadadden lokaci da idan mai saye bai turawa mai sayarwa kuɗi ba har lokacin ya yi to za a soke wannan cinikayyar sannan a maidawa mai sayarwa coin ɗinsa da aka riƙe.
- Idan mai saye ya turawa mai sayarwa kuɗin kuma sai ya danna alamar ya tura, Binance za ta sanarwa mai sayarwa cewa mai sayen fa ya ce ya tura. Idan mai sayarwa ya duba asusun bankinsa ya ga tabbacin mai saye ya tura kuɗin to sai ya danna alamar amincewa da ya ga kuɗin, sai Binance ta turawa mai saye adadin coin ɗin zuwa cikin wallet ɗinsa.

Binance Affiliate Program

Binance affiliate program tsari ne da zai ba ka damar samun kuɗi ba tare da ka sayi coin ka sayar ka ci riba ba, abin da kawai za ka yi shi ne: ka sanya wani ya yi rijistar da Binance kuma ya sanya referral code ɗinka, a duk lokacin da ya yi wata mu'amala kuma Binance ta caje shi kuɗin caji to kana da kamasho a cikin kuɗin. Idan adadin mutane da ka kawo ba su wuce 500 to kana da kamashon 40% na duk abin da Binance ta caje su a mu'amalolin da suka yi. Misali, idan wanda ka sanya ya tura USDT 100 kuma Binance ta caje shi USDT 10 to kana da kamashon 40% cikin USDT 10, wanda zai kama USDT 4 kenan. Idan kuma waɗanda ka sanya sun wuce mutum 500 to za ka samu kamashon 50% na kuɗin da aka caji kowanne ɗayansu a duk mu'amalolin da ya yi. Misali, idan wani daga cikin su ya sa yi USDT 100 kuma aka chaje shi USDT 10, to kana da

kamashon 50% wanda zai kama USDT 5 kenan.

Affiliate program ba shi da bambanci da dillanci irin wanda mu ke yi a zahiri, wanda za a buƙaci ka kawo mai sayen kaya bisa yarjejeniyar za a ba ka kamasho a duk adadin kayan da ya saya. Tsarin na taimakawa Binance wajen kara samun abokan hulɗa, sannan zai taimaka maka ka samu kuɗi ko da ba ka da kuɗin sayen cryptocurrency ballantana ka yi kasuwancinsa.

Order

A centralized exchange, mai saye ba shi da ikon sayen coin kai tsaye ga mai sayarwa sai dai ya buƙaci kasuwar ta saya masa, haka mai sayarwa ba shi da ikon sayarwa mai saye kai tsaye sai dai ya buƙaci kasuwar ta sayar masa. Nuna buƙatar a saya maka ko a sayar maka yana faruwa ne ta hanya sanya adadin coin ɗin da ka ke son saye ko sayarwa da adadin farashin da ka ke son ka sayi coin ɗin ko kuma ka sayar, wanda yin hakan shi a ke kira da "Order"

Saita order hanya ce ta nunawa kasuwa buƙatar da ka ke da ita, ita kuma kasuwar sai ta aiwatar maka da buƙatar. Misali, idan ka saita order ta sayen A-coin a farashin N50, kana ba wa kasuwar umurni ne cewa ta saya maka A-coin a farashin N50. Ita kuma kasuwar za ta nemi wanda ya ke son sayar da A-coin ɗinsa a farashin da ka saita sai ta saya maka. Idan babu mai son sayar da A-coin ɗinsa a farashin da ka ke son saye kuma, to kasuwar za ta jira har sai farashin ya sauko daidai da yadda ka saita sannan ta saya maka.

Types of Order

Order a kasuwannin cryptocurrency ta kasu kashi huɗu:

1. Market order
2. Limit order
3. Stop-loss order
4. Stop-limit order

Market Order

Market order nau'in order ce da Dan kasuwa zai saita domin saye ko sayar da coin dinsa a farashin da ya ke a kasuwa. Misali A-coin yana N50 yanzu, sai mai saye ya bukaci sayensa a wannan farashin ko kuma mai sayarwa ya bukaci sayar da coin dinsa a wannan farashin.

The image shows two side-by-side screenshots of a trading interface. The left screenshot is for buying BNB, and the right is for selling BTC. Both show a 'Market' order type selected, a 'Market Price' box, and a list of price and amount pairs. The left interface has a green 'Buy BNB' button, and the right has a pink 'Sell BTC' button. Both show a total amount of 0.009346 BTC, which is approximately \$414.52 on the left and \$44,254.56 on the right.

Price (BTC)	Amount (BNE)
0.009351	47.49
0.009350	43.51
0.009349	33.49
0.009348	3.09
0.009347	14.24
0.009346	46.40

Price (BUSD)	Amount (BTC)
44,260.02	0.00592
44,258.42	0.07940
44,255.62	0.08619
44,255.03	0.02294
44,255.00	0.00650
44,254.57	0.54150

Limit Order

Limit order nau'in order ce da Dan kasuwa zai saita da niyyar sayen coin ko sayarwa a farashin da ya ke so wanda ya bambanta da farashin da coin din ya ke a kasuwa.

- **Buy Limit Order:** wannan nau'in order ce da Dan kasuwa zai saita da niyyar sayen coin a kasa da farashin da coin din ya ke a kasuwa. Misali, A-coin yana a farashin N50 a yanzu amma Dan kasuwa shi a N40 ya ke son ya saye shi, sai ya saita limit order

na shi a N40 dīn ta yadda farashin A-coin na sauka zuwa N40 kasuwar za ta saya masa ko da ba ya nan.

- **Sell Limit Order:** Sell limit order nau'in order ce da Dan kasuwa zai saita idan yana son sayar da coin dīnsa a farashin da ya fi farashin da coin dīn ya ke a kasuwa yanzu. Misali, A-coin yana a N40 amma Dan kasuwa yana son sayarwa ne a N50, sai ya saita limit order na shi a N50 dīn ta yadda farashin na tashi zuwa haka kasuwar za ta sayar mishi ko da ba ya nan.

Stop-Loss Order

Stop-loss order nau'in order ce da Dan kasuwa zai saita da niyyar idan farashin coin dīnsa ya sauka zuwa haka to kasuwar ta sayar masa don gudun kada ya yi babbar asara. Misali, Dan kasuwa ya sayi A-coin a farashin N50, daga baya sai farashin ya tashi zuwa N55 kuma yana tsoron ya sayar saboda farashin bai gama tashi ba, sai ya saita stop loss order na shi a N50 da niyyar idan farashi A-coin ya sauko yadda ya saya to a sayar mishi kawai. A wannan yanayi Dan kasuwar ya tsare farashin da ya saya, ko da bai ci riba ba to ba zai yi asara ba kuma.

Idan kuma masu sayarwa sun fi buƙatar su sayar to za su dinga rage farashi domin su gamsar da masu saye, sai farashin ya dinga sauka gwargwadon farashin da masu sayarwar suka dinga ragewa.

CHAPTER 05

CRYPTOCURRENCY WALLET

Tunda ka fahimci inda a ke kasuwancin cryptocurrency, sannan ka san yadda a ke yi, abu na gaba da ya rage maka shi ne ka san inda a ke adana cryptocurrency da kuma yadda a ke adanawar.

Cryptocurrency a matsayin kudi mai yanci da a ke amfani da shi wajen mu'amala ba tare da gudanarwar bankuna ba, mu'amala da su da adana su yana faruwa ne ta hanyar amfani da wallet. Hakan na nufin, wallet na daukar matsayin bankuna ne a cryptocurrency, yadda za ka iya amfani da bankuna wajen sarrafa kuɗaɗen gargajiya haka za ka iya amfani da wallet wajen sarrafa cryptocurrencies. Wallet na da bambanci da exchanges inda a ke kasuwancin cryptocurrency, maimakon haka ana amfani da wallet ne domin; adana cryptocurrency, turawa ko kuma karɓa. Duk da ya ke, a kan samu nau'ikan wallets ɗin da su ke ba da damar musayar cryptocurrency (converting a cikin su).

What is Wallet?

Wallet manhaja ce da a ke amfani da ita wajen adana cryptocurrency tare da sarrafa su yayin mu'amala. Ta hanyar amfani da wallet ne za ka iya adana coins naka a ciki, za ka iya turawa wani, sannan wani zai iya tura maka kamar dai yadda mu ke amfani da manhajar banki ta wayar hannu.

How Wallet Works?

Ba kamar wallet dinmu ta gargajiya da mu ke iya adana tsabar kudadenmu a ciki ba, ita wallet ta cryptocurrency tana ba da adamar adana public keys da private keys ne.

- **Public keys:** Wannan lambobi ne da su ke daukar matsayin lambobin asusu da a ke amfani da su wajen turawa ko adana coins a cikin su. public keys na aiki ne kamar lambar asusun banki wanda idan za a turo maka kudi za a turo maka ne ta cikinsu, haka idan za a turo maka cryptocurrency za a yi amfani da public keys ne a turo maka.
- **Private keys:** Wannan lambobin sirri ne da ke ba ka damar sarrafa asusunka na cryptocurrency, ta hanyar amfani da su ne za ka iya tura coin ko cirewa a cikin asusunka. private keys suna aiki ne kamar lambobin sirri (Password) da a ke amfani da su domin shiga mobile bank.

Adadin coin din da ka mallaka suna ada ne a cikin blockchain, wallet na ba ka damar amfani da keys ne domin sarrafa coins naka kawai. Public keys lambar asusunka ne da ke cikin blockchain wanda za a yi amfani da shi domin turo maka coins a ciki. Private keys lambobi ne da su ke tabbatar da hakkin mallaka wanda idan ka sanya su za ka samu damar sarrafa coins dinka, idan ka rasa su kuma ka rasa coins dinka. Saboda haka, maimakon adana coins, wallet na ba ka damar adana keys dinka ne a cikinta tare da ba ka damar sanya private keys dinka domin amfani da coins din da ka mallaka. Misali: idan na yi amfani da wallet nawa na tura maka coins zuwa wallet naka, hakan ba ya nufin coin din ya fita daga wallet dina ya shiga wallet dinka. Dama can coin dina ba a wallet dina ya ke ba yana cikin blockchain ne, tura maka da na yi kamar na

bukaci blockchain ne da ya debe wannan adadin daga public keys dīna ya sanya a public keys dīnka.

Types of Cryptocurrency Wallet

Cryptocurrency wallet ta kasu izuwa manyan rukunnai gudu biyu:

1. Hot wallet
2. Cold wallet

Hot Wallet

Hot wallet nau'ikan wallets ne da ke ba da damar; adanawa, turawa ko karɓar cryptocurrency ta hanyar amfani da internet. Hot wallet na adana public keys da private keys dīn masu amfani da ita ne a rumbun adana bayanai da ke kan internet wanda kamfanoni ko kasuwannin cryptocurrency ke samarwa. Amfani da nau'ikan hot wallets na nufin ka amince kamfanonin ko kasuwannin su adana maka private keys naka a rumbun adana bayanansu da ke kan internet.

Types of Hot Wallets

Hot wallet sun kasu kashi uku:

1. Mobile wallet
2. Desktop wallet
3. Online wallet

Mobile Wallet

Mobile wallet nau'in wallet ne da ke amfani da internet (Hot wallet) wanda aka samar da manhajarsu domin su yi aiki a iya wayoyin hannu kadai. Hakan na nufin ba za su iya aiki a computer ba, yanayinsu na

kama da yanayin mobile bank wanda ke ba ka damar sarrafa kuɗaɗen da ke cikin asusunka na banki.

Domin amfani da mobile wallet kana buƙatar sauke manjarta ne sannan ka yi rijista, hakan zai ba ka damar tura coins ko karɓa a cikin wayarka, sannan za ka iya ganin hawa da saukar farashin coins ɗinka a ciki. Galibin mobile wallet suna ba da damar ajiye nau'ikan coins da yawa ta yadda a wallet ɗaya za ka iya ajiye gaba ɗaya coins ɗinka ba tare da ka buƙaci sauke wata wallet ɗin ba. Sannan suna ba da damar yin musayar coins, idan kana da coin kana son musanyawa da wani nau'in coin ɗin, to kana iya yi kai tsaye ta cikin wallet ɗinka.

Online Wallet

Online wallet nau'in wallet ce da a ke amfani da ita a dandamalin internet, tana ba da damar adana coin, turawa ko karɓa ta hanyar amfani da dandamalin internet (Web browsers). Ba ka bukatar sauke manjar wallet a wayarka ko a computer dinka domin amfani da online wallet, abin da kawai ka ke bukata shi ne internet, ko da aron waya za ka iya karɓa ka sarrafa coin naka matuƙar dai ka kiyaye private keys dinka. Online wallet na ba da damar adana nau'ikan cryptocurrencies da yawa, ta hanyar amfani da ita kana iya adana duk nau'ikan cryptocurrencies da ka mallaka a guri ɗaya sabanin nau'ikan wallets din

da a ke iya ajiye nau'in coin daya ko biyu kadai. Bugu da kari, online wallet ta fi kowacce nau'in wallet saukin sha'ani da boye sirri, saboda duk inda ka je a fadin duniya za ka iya shiga wallet naka ka sarrafa coins dinka matukar gurin akwai internet. Ba a waya a ke ajiye ta ba ballantana idan wayar ka ta fadi ka yi asara, ballantana wani ya san kana da manhajar wallet din a wayarka.

A wani bangaren kuma amfani da online wallet nada hadfari sosai, kasancewar suna aiki ne a cikin dandamalin yanar gizo wanda wani mutum ko kamfani ya samar. Masu kutse suna iya yiwa rumbun ajiyar kutse su sace coins naka, sannan kamfanin yana iya hana ka sarrafa kuɗaɗenka a lokacin da ya ga dama. Haka zalika, Idan kana amfani da online wallet zai yi wuya idan ka mutu magadanka su san kana da coins, ko da ma sun sani zai yi wuya su san yadda za su iya cire coins din sakamakon wallet din ba akan waya ko computer dinka ta ke ba ballantana su ci karo da ita idan sun bincika wayarka ko computer dinka. Misalin online wallet su ne centralized exchanges; kowacce centralized exchanges ta na da wallet a cikinta da masu saye da sayarwa za su iya alkinta coins dinsu a ciki.

Cold Wallet

Cold Wallets nau'inkan wallet ne da ke ba da damar adana cryptocurrencies a rumbun ajiya na zahiri kamar; USB, memory cards da sauransu. Idan kana amfani da cold wallet hakan na nufin kai ka ke adana private keys naka da kanka a gurin ajiya na zahiri, maimakon amince wa wani kamfani ya adana maka keys naka a rumbun ajiyar bayanai na internet. Misali, Idan ka adana hotunanka akan Facebook, ka ajiye ne a cikin rumbun ajiyar bayanai na Facebook din. Amma idan ka adana hotunanka a cikin memory na wayarka kuma, ka adana ne a memory dinka da ka ke kula da shi. Kamar haka hot wallets da cold wallets su ke. Idan ka adana cryptocurrencies naka a hot wallet to

kamfanin da ya samar da wallet dɓin ne ke adana maka, idan kuma ka adana a cold wallet to kai ka adana kayanka da kanka.

Types of Cold Wallets

Cold Wallet ta kasu kashi biyu:

1. Hardware wallet
2. Paper wallet

Hardware wallet

Hardware wallet nau'in wallet ce da a ke samarwa a cikin nau'ura mai kama da USB flash drive. Maimakon amfani da waya ko computer akwai nau'irar wallet dɓin da aka samar musamman don adana cryptocurrency a cikinsu. Hardware wallet na ba ka damar adana coins dɓinka cikin tsatstauran tsaro, saboda na'urar ke adana maka Keys dɓinka, hakan na nufin kai ne ka ke da cikakken ikon adana cryptocurrency dɓinka ba wani kamfani ba.

Manyan Yan kasuwar cryptocurrency sun fi amfani da hardware wallet saboda tsananin tsaro da su ke da shi, masu kutse ba su iya kutsawa cikinta ballantana su samu damar sace coin dɓin da ke ciki. Sai dai, hardware wallet tana da tsada sosai da ba kowa zai iya mallakarta ba. Misali, Trezor model T a yanzu haka farashinta ya kai ₦80,000 a kasuwa.

Best Hardware Wallet

Akwai nau'inkan hardware wallet da dama da za ka iya bincikawa a online stores Kamar www.amazon.com ko www.jumia.com.ng domin sayen su:

1. Ledger Nano S
2. Trezor Model T
3. Keepkey
4. CoolWallet S Duo
5. SafePal S1
6. Ellipal wallet

Paper Wallet

Paper wallet nau'in wallet ce da aka samar da ita musamman ga mutanen da ba su yarda da adana bayanai a cikin kayan lantarki kamar waya da computer ba. Maimakon ajiye wallet a wayarka ko a computer dinka, kana iya amfani da paper wallet kamar www.bitaddress.org.

Bitaddress.org wallet ce ta internet da za ka iya shiga ka yi rijista sannan ka gurzo (printing) takardar wallet din ka fito. Takardar na dauke da; public keys, private keys naka da kuma QR code wanda za a iya amfani da shi a tura maka coins ta hanyar daukar hotonsa. Ba kamfanin da ya samar da wallet din ne ke adana maka coins dinka ba, wannan takardar da ke dauke da public keys da private keys ita ke adana maka coins din saboda haka idan ta fadi ko ta lalace ka yi asarar coins dinka.

Wanda ke son ajiye coins dinsa na tsawon shekaru ba tare da ya taɓa ba to paper wallet ita ce abin da ya ke bukata. Tana da tsananin tsaro ta yadda masu kutse ba za su iya kutsawa cikinta ba, sai dai idan a sace takardar a kwafe private keys naka a yi amfani da shi. Haka ma waɗanda ba su da waya ko computer, ko kuma waɗanda su ke zama inda babu internet suna iya zuwa inda akwai internet su buɗe paper wallet su gurzo takardarta su koma gida. Idan za a tura masu coin sai a yi amfani da QR code da ke jikin takardar a ɗauki hotonsa a tura masu.

Best Paper Wallet

2. www.bitcoinpaperwallet.com
3. www.paperwallet.bitcoin.com
4. www.BitAddress.org
5. www.walletgenerator.net

Choosing A Crypto Wallet

Duk wani abu mai daraja akan tanadi guri na musamman domin ajiye shi cikin aminci, ballantana kuma kuɗin da a ke amfani da shi wajen sayen kayayyaki masu kima da daraja. Da ya ke kuɗaɗen cryptocurrency

babu inda za a iya ajiye su sai a wallet, akwai buƙatar tantance wallet din da za ka yi amfani da ita ta yadda dukiyarka ba za ta salwanta ba.

Idan ka yi duba izuwa nau'ikan wallets dɪn da muka yi bayanin su a baya, za ka ga kowacce tana da fa'ida ta musamman da ta keɓanta da shi, sannan tana da rauni na musamman da ta keɓanta da shi. Saboda haka, wajen zaɓar wallet dɪn da ta dace, za ka yi la'akari ne da buƙatar da ka ke da ita. Misali, wanda ke son ajiye coin dɪnsa na tsawon lokaci zai buƙaci wallet mai tsananin tsaro, wanda ke yin trading kuma zai buƙaci wallet mai sauri da sauƙin sha'ani. Daga cikin abubuwan da za ka yi la'akari da su yayin zaɓar wallet akwai:

Based On Security

Idan kana buƙatar amfani da wallet wadda ta ke da cikakken tsaro to hardware wallet da paper wallet su ne kankat. Sai dai suna da rauni ta fuskar sauƙin sha'ani musamman ga me kasuwancin cryptocurrency wanda ba ya buƙatar ajiyewa na tsawon lokaci. Online wallet kuma suna da sauƙin sha'ani amma suna da rauni sosai a fuskar tsaro. A wannan yanayin, za ka iya aiki da guda biyun; idan kana buƙatar ajiye coins dɪnka na tsawon lokaci sai ka kayi amfani da hardware wallet, idan kuma kana buƙatar ajiyewa na wucin gadi ne domin yin kasuwancinsa, sai ka yi amfani da online wallets.

Based On Anonymity

Bisa wani dalili naka na musamman, za ka iya buƙatar amfani da wallet wadda ta ke da sirri ta yadda wani ba zai iya sanin kana da cryptocurrency ba. Wataƙila kana son ajiye cryptocurrency a matsayin kadara ne kuma ba ka buƙatar wani ya san kana mu'amala da cryptocurrency ma ballantana ya san kana da shi. Wataƙila kai dɪn siyasa ne da ka ke son ɓoye kuɗaɗenka na halali, amma kana tsoron binciken jami'an tsaro da idan suka gano kana da wannan adadin coins

ɗin za su iya rikewa da tunani ka saci kuɗin al'umma ne ka saya. Koma dai wanne dalili ka ke da shi wanda ya sa ka ke bukatar mallakar cryptocurrency ta yadda wani ba zai taɓa sanin kana da shi ba komai sa idonsa, to online wallet da hardware wallet su ne abin da ka ke bukata.

Online wallet na aiki ne akan dandamalin internet, babu bukatar ajiye manhajarta a wayarka ko computer ɗinka ballantana idan an tashi bincike a ga manhajar a cikin wayarka har a bukaci sanin coins ɗin da ke ciki. Hardware wallet kuma za ka iya boye ta a wani gurin, ko da ma wani ya ganta zai yi wuya ya gane wallet ce ballantana ya bukaci sanin abin da ke cikinta.

Based On Transaction Fees

Masu kasuwancin cryptocurrency musamman wanda ba su da babban jari, za su bukaci wallet wadda ba a cajar kuɗi da yawa yayin mu'amala da cryptocurrency. A wannan yanayi, online wallet da mobile wallet su ne abin da ka ke bukata. Duk da ya ke, wasu daga cikin mobile wallet ɗin ma suna caji kuɗi sosai misali: Trust wallet. Amma akwai waɗanda ba sa caji kuɗi sosai kamar; Sefepal, Mycelium Wallet, Wirex, Xapo, BitGo, GreenAddress, Coinbase wallet da dai sauransu.

PART TWO

CRYPTOCURRENCY ANALYSIS

Kasuwar cryptocurrency na daɗa haɓɓaka tare da ɗaukar hankulan manya da kananun masu saka hannayen jari na sassan duniya. Sakamakon hakan sabbin coins ke daɗa yawaita masu kyau da marasa kyau wanda hakan ya sanadiyyar yawaitar ayyukan damfara. Yan kasuwa da yawa sun rasa makudan kuɗaɗe sakamakon sayen coins marasa inganci, da yawan Yan kasuwa har sun fara cire tsammanin mai da kuɗaɗensu ballantana burin samun riba. Duk da haka, Yan kasuwa da su ke da ilimin bincike da sanin lokacin da ya dace a sayi coins da lokacin da ya dace a sayar, suna dacewa da samun ɗimbin alheri da karancin yin asara. Domin mai karatu ya san hanyoyin da a ke gudanar da irin wannan bincike, shi ne dalilin samar da wannan bangaren. Bangaren na ɗauke da fayyataccen bayani game da yadda a ke gudanar da Fundamental Analysis da Technical Analysis.

CHAPTER 06

FUNDAMENTAL ANALYSIS

Domin fahimtar cikakkiyar ma'anar 'Fundamental analysis' akwai bukatar mu yi fashin bakin kalmomin guda biyu (Fundamental da Analysis) ta yadda mai karatu zai san ma'anarsu a bangaren harshe, hakan zai kara taimaka masa ya fahimci karatun a fayyace.

- **Fundamental:** wannan kalmar an samo ta ne daga yaren Latin, watau 'Fundamentum' wadda ke nufin "Foundation" a yaren Turanci. Foundation kuma na nufin "Tushe, ginshiki ko turbar da aka gina wani abu akanta"
- **Analysis:** hanya ce ta tattara bayanana da suka shafi wani abu daki-daki domin fahimtar yadda abin ya ke aiki; dabi'arsa, tasirinsa, ingancinsa, amfaninsa, rauninsa da ma duk abin da ya shafi abin. A takaice, kalmar "Analysis" na nufin "Bincike"

Bisa dogaro da ma'anonin kalmomin guda biyu, za mu iya fahimtar cewa "Fundamental analysis" na nufin "Gudanar da bincike domin gano tushen wani abu ko turbar da abin ya kafu akanta"

Fundamental analysis hanya ce ta tattaro bayanana da za su taimakawa. Dan kasuwa ya fahimci turbar da aka gina coin akanta, wanda sanin turbar ne zai fayyace masa; darajarsa, kimarsa, karbuwarsa da ma

ingancinsa. Watakila mai karatu ya ce "Mai ya sa sanin ginshikin coin ya ke da amfani maimakon sanin farashinsa?"

Sanin tushen abu shi zai ba ka damar fahimtar ingancin abin, saboda abu mai inganci yana kafuwa ne akan tushe mai inganci. Ka lura, ko da aure ka je nema kafin a ba ka yarinyar sai an binciki su waye iyayenka, saboda iyayenka su ne tushenka. Idan sun kasance mutanen kirki to kaima za'a yi maka zaton zama mutumin kirki, idan kuma mutanen banza ne to za'a yi maka zaton zama mutumin banza kai ma. Haka, idan ka ga gida mai kyau, to kyawun gidan ya samo asali ne daga kyawun foundation dinsa. Idan aka samu matsala tun daga foundation to duk kwaskwarimar da aka yi wa gidan sai an samu matsala wata rana. Don ko da an sayar da gidan da tsada sakamakon ado da kayan alatun da aka sanyawa gidan, tunda gidan bai mori foundation ba, a kwana a tashi sai darajar gidan ta zube. Kamar haka, ko da farashin coin na karuwa a kasuwa matuƙar dai coin dɪn bai mori ginshiki mai kyau ba to a kwana a tashi sai farashin coin dɪn ya rikito.

Bincike akan ginshikin da aka kirƙiri coin akansa shi ne abu na farko da ya kamata ka yi kafin sayan coin a matsayinka na Ɗan kasuwar da ke sayen coin don ya ci riba. Saboda, Idan ka sayi coin mai inganci to ko da farashinsa ya sauka ba ka da ciwon kai, saboda ingancin nasa shi zai sake dawowa da farashinsa. Sabanin idan ka sayi coin mara inganci, ko da farashinsa bai sauka ba to kana cikin haɗari tamkar mutumin da ke kwance a dakin da aka gina shi da tubalin toka, karamin yayyafin ruwa zai iya narkar da dakin.

Kafin zuwan cryptocurrency, Yan kasuwa na gudanar da fundamental analysis ne domin gane ƙoƙarin kamfanin da su ke son sayen hannun jari a cikinsa, da cryptocurrency ya zo sai a ke gudanar da shi domin gane ingancin coin kafin a saye shi.

The Problem with Cryptocurrency Fundamental Analysis

Yadda a ke gudanar da fundamental analysis na cryptocurrency ya sha bamban da yadda a ke gudanar wa akan kamfanonin gargajiya. Yayin gudanar da fundamental analysis akan kamfanin da a ke son sayen hannun jari a cikinsa, ci gaban da kamfanin ke samu da adadin kudaden shigar da ya ke kawo wa su ne abin da Yan kasuwa su ke la'akari da su wajen gane dacewar sayen hannun jari a kamfanin ko akasin haka. Su kuwa cryptocurrencies ba kamfanoni ba ne; ba sa a farkashin kulawar wata cibiya, sannan ba sa dogaro da kawo kudaden shiga ballantana. Dan kasuwa ya yi la'akari da yawan kudaden shigar da su ke kawowa kafin ya saye su. Cryptocurrencies kadarori ne masu zaman kansu da ke zama a hannun mutane daban-daban, kowanne mutum shi ke da cikakken iko akan coins din da ya mallaka.

Kasuwar cryptocurrency cike ta ke da rudani, haɗari da rashin tabbaci game da ingancin coins. Alherin da a ke samu a cikinta ne ya sa kullum sabbin coins a ke daɗa kirkirowa masu kyau da marasa kyau, wanda gane masu inganci a cikinsu yana buƙatar tsananta bincike ba wai dogaro da abu ɗaya ko biyu kaɗai ba. Yan Crypto da yawa suna sayen coins marasa inganci ne sakamakon rashin tsananta bincike, ta yadda da sun duba abu ɗaya zuwa biyu sai su yanke hukuncin saye. Misali, wasu na amfani da yawan followers a Twitter, Facebook, Instagram ko Telegram na kamfanin da suka samar da coin ɗin a matsayin ma'aunin gane ingancin coin. Idan suka ga coin na da yawan followers ko members sai su yi tunanin coin ɗin na da inganci. Yin hakan kuwa tamkar ƙoƙarin gane nagartar mutum ne ta hanyar la'akari da yawan abokansa ba tare da sanin halayen abokan nasa ba, tunda za ka iya samun mutum na da abokai da yawa amma galibinsu abokan banza ne. Saboda haka nema ya'nan damfara ke kirƙirar 'fake accounts' da niyyar

kara adadin mabiyansu na kafofin sada zumunta, domin su janyo hankalin Yan kasuwar da su ke la'akari da yawan mabiya kafin su sayi coin. Ka ga ashe la'akari da yawan followers ko members ba zai zama ma'aunin gane ingancin coins ba, kamar dai yadda yawan abokai baya nuni da nagartar mutum. Haka zalika, idan ka ce za ka yi amfani da yawan holders don gane ingancin coin kuwa, nan ma za ka iya ruftawa, domin yawancin kamfanoni suna yin air-drop ne domin su tara yawan holders din da za su ja hankulan Yan kasuwa masu la'akari da yawan holders a matsayin ma'aunin gane ingancin coin kafin su saya. Waɗan su kamfanonin kuma, suna buɗe wallets ne da yawa sai su dinga tura coins kaɗan a cikin wallets din ta yadda idan ka zo lissafa yawan holders sai ka gansu da yawa, ashe ba ka san taron tsintsiya ne babu shara ba.

Types of Fundamental Analysis

Yayin gudanar da fundamental analysis Dan kasuwa na samun sahihin sakamako ne idan ya yi la'akari da sakamakon binciken bangarori guda uku, ya haɗa su guri ɗaya sannan ya yanke hukunci da abin da sakamakonsu ya nuna. Hanyoyin gudanar da fundamental analysis na cryptocurrency sun kasu kashi uku:

1. On-chain metrics
2. Project metrics
3. Financial metrics

On-chain Metrics

On-chain metrics hanya ce ta gudanar da bincike akan coin ta hanyar la'akari da bayanar da ke kunshe a cikin blockchain dinsa domin fahimtar; ingancinsa, karɓuwarsa, darajarsa da kuma haɗa-hadar da a ke yi da shi wajen turawa da karɓa. Ana kiran wannan nau'in binciken kuma da "Blockchain analysis" saboda bincike ne kacokan da a ke

gudanarwa ta hanyar tatso bayanai daga blockchain wanda coin dīn da a ke bincika ya ke akansa.

Kamar yadda muka yi bayani, fundamental analysis kacokan ya dogara ne da binciken nasaba; tushe da ginshikin da coin ke wanzuwa akansa domin fahimtar abin da ke wakana da coin dīn a farkashin kasa wanda ido ba ya gani amma suna da tasiri wajen auna inganci da nagartar coin. Cryptocurrencies an kirkiro su ne a cikin blockchain kamar yadda zinare a ke samun su a farkashin kasa, sannan kamar yadda a ke kafa ginshikan ginin gidaje akan doron kasa. Kasancewar Yan kasuwa na gudanar da fundamental analysis da niyyar gane ingancin da darajar coin domin kaucewa zantuttukan yaudara daga y'an damfara, ashe hanya mafi sauƙi ta samun haƙifanin bayanan coin dīn ita ne: ta hanyar bincika mazaunin da coin dīn ya ke a kai.

Ko a zahiri, idan kana son gane kwarin gini da darajarsa ba tare da la'akari da abin da wanda zai sayar maka da gidan ya faɗa maka ba, hanya mafi sauƙi shi ne; ka bincika farkin bolon da aka yi amfani da shi wajen ginin, ingancin kayan aikin ginin tare da lissafin adadin kuɗin da ginin ya ci. Sanin hakan ne zai nuna maka ingancin ginin, kimarsa da yadda ya kamata a ce ka saye shi. Kamar haka, on-chain metrics ke a matsayin ma'aunin da za'a auna bayanan coin dīn da ke rubuce a cikin blockchain domin gane darajar coin dīn da ingancinsa. Gudanar da binciken kuwa na da'ukar lokaci mai tsayi, domin sauƙaƙe binciken Yan kasuwa na amfani da tools kamar; Glassnode Studio, Santiment, CryptoQuant, Messari, 5- Dune Analytics, Nansen, Into TheBlock, Breadcrumbs da dai sauransu.

Yayin gudanar da bincike a bangaren on-chain metrics, Dan kasuwar zai tattaro tare da binciko muhimman bayanai kamar haka:

- ❖ Transaction count
- ❖ Transaction value
- ❖ Active addresses
- ❖ Active holders
- ❖ Whale addresses
- ❖ Hodl waves

Transaction Count

Transaction count lissafi ne na adadin yawan mu'amalolin da aka yi da coin a kowanne lokaci ko a kowacce rana.

A duk lokacin da ka sayi coin ko ka tura coin zuwa wata wallet ko kuma ka karɓi coin ɗin da aka turo maka, to blockchain na lissafawa, Dan kasuwa zai iya bincika yawan mu'amalolin da aka yi da coin ɗin a kowacce rana. Sannin yawan mu'amalolin da a ke yi da coin zai taimaka maka ka gane; coin ɗin na da rai ko kuma ya mutu, yana samun karɓuwa ko kuma shiru ne. Yan kasuwa na amfani da transaction count kuma wajen gane farashin coin zai tashi ko zai sauka. Idan yawan mu'amalolin da a ke yi da coin ɗin na karuwa, hakan na nuna bukatar coin ɗin na karuwa a wajen Yan kasuwa, sakamakon hakan kuma farashin zai tashi gwargwadon yadda masu saye su ke sayen coin ɗin. Idan kuma yawan mu'amalolin da a ke yi da coin ɗin yana raguwa ne, hakan alama ce ta masu saye ba sa sayen coin ɗin sosai, sakamakon haka farashin coin ɗin zai sauka.

Transaction count kamar lissafin bugun zuciyar mutum ne yayin da ya ke numfashi: idan zuciyar mutum na bugawa sosai hakan alama ce ta lafiya, idan ko zuciya na bugawa a hankali a hankali hakan alama ce ta akwai matsala. Idan mu'amalolin da a ke yi da coin yana karuwa hakan na nuna coin ɗin na samun karɓuwa, idan kuma yawan mu'amalolin na raguwa sosai hakan alama ce coin ɗin na mutuwa. Sai dai wani hanzari

ba gudu ba, dogaro da yawan mu'amalolin da a ke yi da coin kadai domin gane karbuwar da coin dɪn ke samu na zuwa da babban kalubale. Masu jabun coin su kan dinga tura karamin adadi na coin zuwa wallet daban-daban domin su dagula lissafin masu gudanar da binciken ta yadda idan sun zo lissafa adadin mu'amalolin da a ke yi da coin dɪn za su ga adadin na da yawa. Saboda haka, akwai bukatar yin taka tsan-tsan yayin gudanar da wannan bincike.

Transaction Value

Transaction value na nufin adadin kimar mu'amalolin da a ke yi da coin a kowanne lokaci ko kuma a kowacce rana.

A duk lokacin da ka sayi coin ko ka tura coin, blockchain na lissafa kimar coin dɪn da ka saya ko kuma ka tura, hakan na nufin yawan kuɗɪn da kowacce mu'amala ta kunsu. Misali, sai Yan kasuwa suka tura A-coin na adadin N10,000 zuwa wallet daban-daban guda goma (10), transaction value na wannan zai zama N100,000.

Dan kasuwa zai iya bincika yawan kimar mu'amalolin da a ke yi da coin dɪn da ya ke son saye a kowacce rana, sanin hakan zai kara nuna masa haɓɓakar da coin dɪn ke yi ko kuma raguwar da coin dɪn ke yi. Idan transaction value na coin na karuwa, hakan na nuna coin dɪn na haɓɓaka sosai. Idan kuma adadin transaction value dɪn na raguwa, hakan alama ce da ke nuna darajar coin dɪn na raguwa.

Transaction value kamar adadin kuɗɪn da aka tura ne daga asusun banki zuwa wani asusun daban. Adadin transaction value na wani coin kamar adadin jumillar kuɗɪn da aka tura ko aka karɓa ne. Misali: idan ka duba adadin transaction value na A-coin, kamar ka duba adadin jumillar kuɗɪn da aka yi hada-hadarsu a Nas-bank ne. Yawan jumillar kuɗɪn da a ke yin hada-hadarsu a Nas-bank a ko wacce rana zai nuna maka yadda

bankin ke haɓɓaka ko kuma yadda ya ke raguwa. Kamar haka, adadin jumillar transaction value na A-coin shi zai nuna maka yadda A-coin ke haɓaka ko kuma ya ke mutuwa.

Na san dai ba za ka so ka ajiye kuɗinka a bankin da jumillar kuɗin da a ke hada-hadarsu da shi ya ke raguwa ba. Misali, a shekarar da ta wuce sai bincike ya nuna an yi hada-hadar kuɗi da Nas-bank na kimanin biliyan biyar, amma a wannan shekarar kuma bai fi biliyan uku kaɗai aka yi hada-hadar su bankin ba. Ka ga a wannan yanayin za ka fahimci cewa Nas-bank fa karyewa ya ke yi ba haɓɓaka ya ke yi ba. Kamar haka ne, idan transaction value na coin na raguwa to hakan alama ce ta farashin coin ɗin zai dinga yin kasa. Sayen coin ɗin a wannan lokacin zai iya janyo maka asara. Amma idan transaction value na coin yana karuwa, hakan na nuna cewa masu sayen coin ɗin na karuwa sosai, sakamakon haka farashin zai dinga karuwa. Sayen coin ɗin a wannan lokacin zai iya zama abin da ya dace.

Active Addresses

Active addresses na coin na nufin adadin yawan wallet addresses ɗin da aka yi amfani da su wajen turawa (sending) ko karɓa (receiving) cryptocurrency. Address na turawa na wakiltar masu sayarwa ne, yayin da address na karɓa ke wakiltar masu saye. Active addresses na nufin adadin masu saye da masu sayarwar da suka dinga hada-hadar coin ɗin.

Baya ga lissafi yawan mu'amalolin da a ke yi da wani takamaiman coin, Dan kasuwa zai iya duba yawan adadin wallet addresses ɗin da aka yin amfani da su wajen tura coin ɗin ko kuma karɓa domin gane yadda mutane ke mu'amala da coin ɗin. Kasancewar kamfanonin da ke da jabun coins suna tura coin da karɓa da niyyar ha'ntar adadin transaction counts domin yaudarar mai bincike, sanin yawan activate address zai fi taimaka maka ka gane haɗikanin yawan mu'amalolin da a

ke yi da coin dīn. Adadin active address ya dogara ne da adadin address daban-daban da aka yi amfani da su wajen yin mu'amala da coin dīn, ka ga ashe ko da 'yan damfarar sun dinga tura coin zuwa wata wallet da niyyar wasa da hankalinka yayin lissafa transaction count, hakarsu ba za ta cimma ruwa ba domin iya address na wallet dīn da ta tura da wadda aka turawa ne kadai za su shiga lissafin active addresses na coin dīn. Saboda haka, ko da sun tura coin sau dubu ɗaya a cikin wallets ɗaya wannan ba zai bata yawan active addresses na coin dīn ba.

Karuwar yawan active addresses na nuni ne da yadda coin dīn ke kara samun tagomasa a kasuwa, raguwar adadin kuwa na nuni ne da yadda coin dīn ya ke rasa masu saye. Yan kasuwa na amfani da adadin active addresses wajen iya hasasho yadda farashin coin dīn zai kasance: idan adadin active addresses dīn na karuwa alama ce ta farashin zai dinga karuwa, idan kuwa adadin na raguwa hakan alama ce ta farashin zai dinga sauka. Suna sayen coin ne idan suka bincika suka ga active addresses na shi karuwa ya ke ba raguwa ba, amma coin dīn da active addresses na shi ke raguwa suna kauracewa sayensa.

Active Holders

Active holders na coin na nufin adadin yawan wallet addresses dīn da ke ɗauke da wani adadi na coin dīn a cikinsu.

Dan kasuwa zai iya bincikar yawan wallet din da ke ɗauke da coin dīn da ya ke son saye, sanin yawan wallet dīn zai nuna masa farin jinin da coin dīn ke samu ko kuma bakin jinin da coin dīn ke yi. Idan yawan active holders na coin dīn na karuwa hakan alama ce ta coin dīn na samun karbuwa, idan kuma adadin na raguwa hakan alama ce ta mutane na kauracewa coin dīn. Duk wallet dīn da ke ɗauke da wani adadi na coin, to tana wakiltar mutumin da ya mallaki coin dīn ne. Yawan active holders na nuni ne da yawan mutanen da suka gamsu da

coin dɪn, idan adadin na karuwa hakan zai nuna maka mutane na gamsuwa da coin dɪn, idan kuma adadin na raguwa hakan alama ce ta mutane na jan jikinsu da coin dɪn.

Dogaro da yawan active holders domin gane ingancin coin shima yana zuwa da kalubale. Galibin coins ba sa bari a iya tura gaba daya adadin da ke cikin wallet dole sai wani adadi ya ragu, saboda ko da ka sayar da coin dɪnka ya zamana wallet dɪnka na cikin lissafin active holders na coin dɪn. Sannan wasu kamfanonin suna yin air-drop ne da niyar kara yawan active holders na su. Hakan zai iya rikitar da tunanin Dan kasuwa, ya sayi coin saboda ya ga coin dɪn yana da yawan holders, ba tare da ya san cewa yawan holders dɪn na coge ne ba. Domin kaucewa faruwar haka, akwai bukatar Dan kasuwa ya yi la'akari da abubuwa da yawa kafin yanke hukunci, gwargwadon yawan abubuwan da yayi la'akari da su, gwargwadon sahihancin sakamakon da binciken zai samu.

Active holders kamar adadin account numbers da wani banki ke da su ne. Idan banki na da yawan account numbers, haka na nuna yadda mutane suka gamsu da bankin har su ke ajiyar kuɗaɗensu a cikinsa. Kamar haka, yawan active holders ke nuni da yawan mutanen da suka gamsu da ingancin coin dɪn har su ke ajiyarsa a matsayin kadara. Idan yawan masu account a Nas-bank yana raguwa maimakon karuwa, hakan na nuna mutane suna kauracewa bankin saboda rashin nagartarsa ko wani dalili daban. Sannan idan ya kasance yawan active holders na A-coin na raguwa, hakan na nuna mutane suna zare jikinsu daga coin dɪn.

ABIN LURA

A wani lokacin, zai iya kasancewa ka ga coin mai inganci amma ba shi da yawan holders sakamakon coin din bai jima da fita ba ko kuma total supply na coin din babu yawa sosai. Domin gane mizanin yawan holders na coin, akwai bukatar 'Dan kasuwa yayi la'akari da total supply na coin din. za ka iya cin karo da coin wanda ke da holders masu yawa amma yawan holders din ya gaza idan aka yi la'akari da total supply na shi. Sannan za ka iya cin karo da coin wanda ba shi da yawan holders sosai amma adadin yawan holders din ya wadatar, idan aka yi la'akari da karancin yawan total supply na coin din.

Whale Addresses

Whale address na nufin adadin wallets din da su ke dauke da adadi mafi yawa na coin din. Misali, whale addresses na A-coin na nufin wallets din da a cikinsu akwai A-coin da yawa fiye da sauran wallets din.

Yan kasuwa na duba adadin wallet nawa ne su ke dauke da mafi yawan adadin coin din da kuma adadin coin din da su ke dauke da shi. Idan ya kasance wasu tsirarun wallet na dauke da adadin coin din da yawa hakan na nufin za su iya sarrafa farashin coin din yadda suka ga dama. Misali, idan ya kasance akwai wallet din da ke dauke da a kalla 20% na coin din ka ga mai wannan wallet din zai iya rusa farashin coin din idan ya sayar da duka a lokaci daya. Sannan idan ya kasance whale addresses suna dauke da kaso mai yawa daga total circulation na coin din to hakan alama ce ta akwai tsirarun mutanen da za su iya sarrafa farashin coin din a kasuwa.

Ana kauracewa sayen coin idan ya kasance whale addresses na dauke da a kalla 40% na coin din, domin duk ranar da suka bukaci sayarwa to

a ranar farashin coin dɓin zai yi rugu-rugu ya jefa sauran mutane cikin asara.

Hodl Waves

Hodl Waves ma'auni ne da a ke amfani da shi wajen auna yawan jimawar coin a cikin wallet domin fahimtar active holders na coin dɓin suna riƙe coin dɓin sosai ya jima a hannunsu ko kuma suna sayarwa da wuri. Wannan ma'auni yana da matuƙar mahimmanci domin yana ba wa Dan kasuwa damar bin diddigin whale addresses domin gane ko suna yunkurin sayar da coin dɓinsu. Sannan yana taimakawa Dan kasuwa ya gane holders na coin dɓin suna da dɓabi'ar riƙe coin ko kuma suna da dɓabi'ar sayarwa da zarar sun saya. Coin wanda holders na shi ke da dɓabi'ar riƙe coin shi ya fi cancanta da a saya domin farashinsa zai dinga karuwa, amma coin dɓin da holders na shi su ke da dɓabi'ar sayar da coin akai-akai to abin tsoro ne domin ko da yausha za ka iya ganin farashinsa ya yi rugu-rugu.

Project Metrics

Project metrics hanya ce ta gudanar da fundamental analysis na cryptocurrency ta hanyar la'akari da tsare-tsaren da kamfanin da suka samar da shi suka tanadarwa masa. Hikimar yin hakan shi ne: domin a gane ko coin dɓin an ƙirƙire shi da kyakkyawar manufar da zai haɓɓaka ya samu karɓuwa a gurin al'umma ko kuma yana da rauni ta fuskar manufa da nasaba. Galibi wannan binciken an fi gudanar da shi ga sabbin coins waɗanda ba su riga sun shiga kasuwa ba.

Bayan gudanar da fundamental analysis ta hanyar la'akari da bayanan da ke ƙunshe a cikin blockchain, abu na gaba shi ne Dan kasuwa ya binciki tsare-tsaren da coin dɓin ke ɗauke da su domin ko da coin ya mori

kyakkyawar turba daga blockchain dinsa matuƙar bai mori kyakkyawan shiri da kyakkyawan tsari ba to hakan bai wadatar ba. Ta hanyar gudanar da binciken on-chain metrics Dan kasuwa zai fahimci abin da ke faruwa da coin dɪn a karkashin kasa, ta hanyar gudanar da binciken project metrics kuma Dan kasuwa zai fahimci abin da ke faruwa da coin dɪn a zahiri.

On-chain metrics mun ce kamar gane ingancin gini ne ta hanyar la'akari da foundation na ginin da ingancin kayan aikin da aka yi ginin, shi kuma project metrics kamar gane kyawun ginin ne ta hanyar la'akari da zanen fasalin ginin da kwarewar ma'aikatan da suka yi ginin wajen yin komai daidai ko kuma akasin haka. Ta hanyar gudanar da project metrics Dan kasuwa zai iya gane; nasabar coin dɪn, manufar samar da shi, muhimmiyar rawar da zai taka da ma duk tsare-tsaren da coin dɪn ke tattare da su.

Yan kasuwa na samun bayananku tsare-tsaren da cryptocurrency ke ɗauke da su ne a white paper na coin dɪn ko kuma a cryptocurrency communities.

White Paper

White paper rubutaccen kundi ne wanda ke ɗauke da bayananku tsare-tsare da shirye-shiryen da coin ke ɗauke da su, tun daga matakin farawa har zuwa matakin haɓɓaka da samun karɓuwarsa. Idan mu ka kwatanta cryptocurrency da ginin gida, white paper tamkar zanen fasalin ɗakunan gidan ne (building plan). Idan muka kwatanta cryptocurrency da kamfanoni, white paper tamkar takardar da ke ɗauke da bayananku tsare-tsaren kamfanin ne (marketing plan).

Cikakkiyar white paper wajibi ne ta ƙunshi bayanan abokan gasa, ma'ana coins dɪn da aka samar da su domin su magance matsala iri ɗaya da wannan coin dɪn. Idan kuwa white paper ba ta ƙunshi wannan bayanin ba to akwai abin zargi game da coin dɪn ko kuma matsalar da coin dɪn ya zo don ya magance babu wani sanannan coin da aka samar don ya magance ta sai wannan. Idan coin dɪn da kake son saya

white paper na shi ta kunshi wannan bayanin kuma, to akwai buƙatar ka binciko amsoshin waɗannan tambayoyin:

- Menene tasirin abokan gasar coin ɗin? Sanin tasirinsu da karɓuwarsu shi zai nuna maka babban aikin da kamfanin ya ke da shi matuƙar yana son ya samu nasara akansu.
- Menene abu na musamman da coin ɗin ya bambanta ko ya zarce na abokan gasarsa da shi? Idan akwai abu na musamman wanda abokan gasarsa coin ɗin ba su da shi kuma ya kasance wannan coin ɗin ya samar, hakan zai iya zama dalilin da zai sanya mutane su so shi. Idan kuwa abokan gasarsa sun fi wannan coin ɗin kyakkyawan tsare-tsaren magance matsalar, to hakan na nuna coin ɗin zai fuskanci karancin karɓuwa, domin a ɓangaren ɗaukar kaya kowa zai zaɓi amala ne ba jaki ba.

Token Economics

Token economics fayyataccen bayanin coin ɗin ne a karan kansa; adadinsa, amfaninsa, darajarsa harma da kasafinsa. token economics sashi ne a white paper da ya kunshi bayanan da za su janyo hankulan Yan kasuwa su sayi coin ɗin.

Yayin karanta wannan bayanin, Dan kasuwa zai maida hankali ne izuwa abubuwa kamar haka:

- Use case
- Token supply
- Token allocation and distribution

Use Case

Use cases na nufin guraren da coin dīn zai yi amfani, ma'ana guraren da aka samar da coin dīn domin ya taka rawa ta musamman.

ko da coin an samar da shi da kyakkyawar manufar magance wata matsala, hakan ba zai gamsar ba idan ya kasance babu halattun guraren da za'a yi amfani da coin dīn. Misali, BNB nada amfani a gurare kamar haka:

- Biyan chajis a kasuwar Binance, biyan cajis a ilahirin kasuwannin DEX da su ke kan Binance Smart-Chain da biyan cajis yayin tura duk wani token da ke kan BEP20 ko BEP2.
- Idan kana da coins a wallet naka na Binance wanda adadinsu ya yi kafan da ka sayar ko ka tura, za ka iya converting dīnsu zuwa BNB.

Use case na da mahimmanci wajen bawa coin daraja sakamakon duk wanda ya zo yin amfani da coin a guraren da ya ke amfani dole ya bukaci coin dīn. Misali, idan ka zo tura coin dīn da ke kan BEP20 to ko kana so ko ba ka so dole ka yi amfani da BNB-smartchain don biyan chajis. Bayan ka karanta use case na coin dīn da kake son saye akwai bukatar ka yi wa kanka waɗannan tambayoyin:

- Shin use cases na coin dīn na da karfi sosai kuwa? Domin idan ya kasance guraren da coin dīn zai yi aiki ba gurare ba ne da jama'a ke yin mu'amaloli ba to ya zama tamkar yin bara a kufai kenan.
- Shin use cases na coin dīn na da yawa sosai kuwa? Yawan use cases dīn da coin ke da shi zai nuna maka yawan bukatar coin

ɗin da jama'a za su yi, wanda yawan buƙatarsa zai yi tasiri matuka wajen daga darajarsa.

Token Supply

Kasancewar farashin coin a kasuwa ya dogara ne da demand and supply, adadin da masu saye su ke buƙatar saye da adadin da masu sayarwa ke son sayarwa shi ne mizanin farashin kowanne coin a kasuwa. Saboda haka, sanin adadin coin ɗin da aka samar yana da matuƙar amfani wajen fahimtar farashin da coin ɗin zai iya kai wa.

ko da ya kasance coin yana da primary purpose da use case, matuƙar adadinsa ya fi adadin na abokan gasarsa (competitors) yawa to hakan alama ce ta zai yi wuya farashinsa ya kai na abokanan gasarsa. Idan adadin coin ɗin ba shi da yawa kuma ya kasance yana da use cases da yawa hakan alama ce ta coin ɗin zai samu tagomashin farashi a kasuwa. Mutane za su dinga buƙatarsa yayin da adadinsa kuma ba shi da yawa, a dalilin haka sai farashinsa ya dinga ƙaruwa. Amma idan adadin coin na da yawa komai yawan use cases na shi ba zai wadatar sosai ba, saboda Hausawa suna cewa "Dambu idan ya yi yawa ba ya jin mai."

Yayin karanta bayani akan supply na coin ɗin, akwai buƙatar Dan kasuwa ya yi duba izuwa abubuwa kamar haka:

- Total supply
- Total circulation
- Total coin burned

Total Supply

Total supply na coin na nufin adadin yawan fwayoyin coin ɗin da aka ƙirƙira wanda adadin ba zai taɓa wuce haka ba. Misali, idan total supply

na A-coin guda 20,000,000 ne, to iya wannan adadin aka samar ba zai taɓa wuce haka ba. Yana daga abin da ke bawa coin daraja shi ne ya kasance total supply na shi kaɗan ne.

Total Circulation

Total circulation na nufin adadin yawan coin ɗin da ke a hannun mutane. Total supply da total circulation kamar demand ne da supply. Total supply shi ne adadin coin ɗin da masu saye za su iya saye, shi kuma total circulation shi ne adadin da masu saye suka saya.

Total Coin Burned

Wannan na nufin adadin coin ɗin da aka kona daga cikin total supply ko daga cikin total circulation. Galibin cryptocurrencies na yanzu suna zuwa da tsarin kona wani adadi na coin ɗin domin rage yawan supply ko kuma yawan circulation nashi. Ko da coin yana da yawan supply matuƙar adadin da aka kona ko za a kona a cikin supply ɗin yana da yawa to ya wadatar. Misali, da A-coin na da total supply na 20,000,000, idan ya kasance an kona ko za'a kona guda 10,000,000 za'a iya cewa yanzu supply na A-coin ya ragu da 50%.

Token Allocation

Token allocation bayani ne da ke ɗauke da yadda za'a kasafta adadin total supply na coin ɗin.

Sabbin coins da su ke a matakin pre-sale su na zuwa da kasafin adadin total supply, wannan ya ƙunshi; adadin yawan coins ɗin da waɗanda suka ƙirƙiri coin ɗin suka warewa kansu, adadin yawan coin ɗin da za'a sayar, adadin yawan coin ɗin da za'a kona, adadin yawan coin ɗin da aka ware za'a yi amfani da kuɗinsu wajen tallatawa da kai coin ɗin kasuwa.

Nazartar token allocation na da matukar amfani domin zai taimakawa Dan kasuwa ya gane manufar waɗanda suka samar da coins ɗin. Idan ya kasance mafi yawan coin ɗin sun warewa kansu ne, hakan na nuna ba su damu da kashe kuɗi wajen ɗaga darajarsa ba ta hanyar tallatawa da kaishi kasuwanni da yawa ba. Amma idan ya kasance mafi yawan adadin coin ɗin an ware shi ne domin ɗaga darajar coin ɗin hakan zai nuna maka cewa waɗanda suka samar da coin ɗin suna da burin ganin sun ɗaga darajar coin ɗinsu.

Yayin nazartar token allocation akwai bukatar Dan kasuwa ya kula sosai da waɗannan:

- Team token
- Token to be sold
- Marketing and branding
- Team token locked

Team Token

Team token na nufin adadin yawan coin ɗin da waɗanda suka samar da coin ɗin suka warewa kansu a matsayin ladar aikinsu na kirƙirar coin ɗin. Ana ware wannan adadin ne a cikin total supply na coin ɗin a matakin farko.

Token To Be Sold

Token to be sold na nufin adadin coin ɗin da aka ware za'a sayar. Idan coin yana a matakin farko, ana ware adadin da za'a sayar wanda wannan adadin shi ne ya ke zama kamar total circulation a matakin farko.

Marketing And Branding

Wannan kasafi ne na adadin coin dɪn da aka ware za'a yi amfani da kudɪnsu wajen daga darajar coin dɪn ta hanyar tallatawa da kai shi kasuwanni daban-daban. Ana ware wannan adadin ne a cikin kudɪn coin dɪn da aka sayar. Misali, idan coin to be sold guda 10,000,000 to sai a ware kamar guda 2,000,000 wanda za'a yi amfani da kudɪn da aka sayar da su wajen tallata coin dɪn da kai shi kasuwanni.

Team Token Locked

Wannan na nufin adadin coin dɪn da aka kulle. Ana kulle adadin ne daga cikin adadin coin dɪn da aka ware domin waɗanda suka samar da coin dɪn (team token).

Galibi idan coin sabo ne yana a matakin farko, waɗanda suka samar da coin din suna ware wani adadi na coin dɪnsu sai su kulle na tsawon shekaru a matsayin shaidar da mai saye zai gane cewa waɗanda suka samar da coin dɪn ba yan damfara ba ne, tunda ana ware adadin ne daga cikin total supply to ba za su sayar da adadin nasu nan kusa ba ballantana su bata farashin coin dɪn idan ya shiga kasuwa. Akwai buƙatar Ɗan kasuwa ya buƙaci ganin shaidar da ke nuna tabbacin sun kulle adadin da suka faɗa, idan kuwa babu shaida to hakan abin zargi ne. Yana yawan faruwa ka ga coin an samar da shi da kyakkyawar manufa, amma yayin da ya shiga kasuwa sai waɗanda suka samar da shi su sayar da adadin da suka warewa kansu a lokaci ɗaya, wanda hakan zai janyo farashin coin dɪn ya rikito kasa sosai har waɗanda suka saye shi su tafka mummunar asara. Saboda haka, ka tabbatar da ka samu cikakkiyar shaidar da ke nuna sun kulle wani adadi mai yawa daga cikin wanda suka warewa kansu, kuma ka tabbatar da sun kulle ne na tsawon lokaci a kalla shekara ɗaya bayan coin dɪn ya shiga kasuwa.

Road Map

Road map jaddawalin bayanai ne da ke d'auke da jerin aikace-aikacen da aka tsara za'a gudanar na daga darajar coin dīn tare da bayanin lokutan da aka tsara aiwatar da kowanne aiki a cikinsu.

Galibi idan coin yana a matakin farko yana zuwa da road map a matsayin jerin abubuwa da kamfanin ke son gudanarwa da kuma lokacin da ya tsara na gudanarwar. Road map tamkar jerin alkawuran da waɗanda suka samar da coin dīn suka d'aukarwa masu saye ne cewa za su yi abu kaza a lokaci kaza. Dukkanin alkawuran sun shafi daga darajar coin dīn da kuma kasuwancinsa. Yana da kyau Dan kasuwa ya hankalta sosai da wannan, domin anan ne zai gane ƙoƙarin kamfanin da gazawarsa.

Yayin karanta road map na coin dīn da kake son saye, akwai bukatar ka yi wa kanka waɗannan tambayoyin:

- Shin abubuwa nawa teams dīn suka yi alkawarin yi kuma guda nawa suka kammala?
Sannin adadin abubuwan da team dīn suka lissafa a road map nasu da kuma adadin abin da suka samu nasarar kammalawa zai nuna maka ƙoƙarinsu da gaskiyar su. Idan ya kasance sun kammala abubuwan kamar yadda suka tsara kuma a lokacin da suka tsara, hakan na nuna team dīn suna da ƙoƙari sannan akwai alamun gaskiya a tattare da su. Idan kuwa yawancin abin da suka ce za su yi ba su yi ba har lokacin ya wuce to akwai alamun rashin gaskiya a tattare da su.
- So nawa aka canja road map?
Ba laifi ba ne team su canja road map don su ƙara saka muhimman abubuwa a cikin jerin abubuwan da za su aiwatar tare da cire abubuwan da ba su da muhimmanci sosai. Amma

idan ya kasance su na canja road map ne domin su cire abin da suka yi alkawarin aikatawa kuma ba tare da sun aikata ba to akwai alamun rashin gaskiya a tattare da su.

Team and Advisors

Daga cikin abubuwa masu mahimmanci da ya kamata Dan kasuwa ya yi la'akari da su akwai sanin waɗanda suka samar da coin ɗin; kwarewarsu, gaskiyarsu, mu'amalarsu, inda su ke da zama da shaidar da aka yi masu.

Idan muka kwatanta cryptocurrency da gini, to team na nufin ma'aikatan da za su gina gidan. Duk yadda gini ya mori zane da kayan aiki matuƙar maginan da za su gina gidan ba kwararru ba ne to karshe dai gidan ba zai ginu daidai ba. Kamar haka, duk kyawawan tsare-tsaren da aka tsara aiwatarwa ga coin matuƙar waɗanda suka samar da coin ɗin ba kwararru ba ne to ya zama tatsunniyar gizo da koki, da shi da mafarki duk tafiyar su ɗaya. Saboda haka, wajibi ne Dan kasuwa ya kula sosai da wannan sannan ya ganowa kansa waɗannan amsoshin tambayoyin:

- Shin team ɗin da suka samar da coin ɗin sun bayyana kansu ko kuma sun boye? Duk da ya ke ba sharaɗi ba ne dole sai team sun bayyana kansu amma hakan dai na da kyau domin sai idan sun bayyana kansu ne za a gane kwarewarsu da gazawarsu. Da yawa suna boye kansu ne saboda rashin gaskiya, wasu kuma domin suna a kasashen da an haramta ayyukan cryptocurrency, wasu kuma suna boyewa ne domin ba su son bayyanar da kwarewarsu ga mutanen da suka san su, wasu kuma y'an ta'adda ne da a ke nema ruwa a jallo sai su boye kansu don kada a gane su. Yana da kyau Dan kasuwa idan ma zai sayi coin wanda team

din da suka samar da shi sun boye kansu to ya sayi adadi kadan domin komai na iya faruwa.

- Shin team din suna da kwarewa a fannin blockchain, marketing da programming? Komai ilimin wadanda suka samar da coin din matuƙar dai ba su da kwarewa akan blockchain technology, marketing da programming to iliminsu ba zai yi tasiri wajen kai coin din ga samun nasara sosai ba domin duk kwarewar manomi ba zai iya tuka jirgi da garaje ba.
- Shin daga cikin team din akwai wanda ya yi fice wajen damfara da yaudara? Matuƙar team din sun bayyana kansu to ya zama dole Dan kasuwa ya bi su dƙaya bayan dƙaya ya duba kwarewarsu da kuma labarinsu domin komai kwarewarsu matuƙar ba su da gaskiya to ta zama kwarewar banza. Matuƙar a bincikenka ka gano wani daga cikin team din an shaide shi da rashin gaskiya to kada ka sanya kuɗinka domin sanya kuɗin tamkar sanya hannunka a ramin maciji ne kana sane.
- Mutane nawa team din ya kunsu? Sanin yawan mutanen da team din ya kunsu zai nuna maka yadda koƙarinsu zai iya kasancewa, idan suna da yawa akwai alamun aikinsu zai yi sauri, idan ba su da yawa kuma akwai alamun a samu jinkiri wajen cika alƙawari.

Cryptocurrency Communities

Cryptocurrency communities na nufin zaurukan watsa labarai da kafonin sada zumunta na yanar gizo inda masu gudanar da kasuwancin cryptocurrency ke haɗuwa su zanta da juna, su ilimantar da juna, tallata cryptocurrencies tare da watsa muhimmin labarai da suka shafi cryptocurrency.

Kusan kowanne coin wanda suka samar da shi suna buɗe Telegram group, Facebook group/page, Twitter handle, Instagram account, Medium account da dai sauransu. Anan ne Dan kasuwa zai iya tattaunawa da team ɗin da suka samar da coin ɗin domin yi masu tambayayi ko kuma korafi. A nan ne duk waɗanda suka sayi coin ɗin ke shiga domin samun labaran da suka shafi coin ɗin.

Yayin da ka ziyarci zaurukan da aka buɗe su musamman don samun labarai game da coin ɗin da kake gudanar da bincike akansa, to akwai bukatar ka gano amsar wannan tambayar:

- Shin team ɗin suna amsa tambayoyin da aka yi musu? Idan team ɗin na kokari wajen amsa duk tambayar da aka yi masu cikin kwarewa, hakan na nuna suna da kwarewa kuma sun damu da su ji koken masu saye, idan kuwa ba sa amsa tambayoyin to akwai alamun ba su amsawa ne saboda ba su kware ba ko kuma rashin gaskiya ko wani dalili daban.

Bayan zaurukan da aka buɗe musamman domin coin ɗin da kake gudanar da binciken akansa, akwai kuma zauruka da shafukan yanar gizo da za ka iya ziyarta domin samun ilimi da muhimman labaru game da cryptocurrency.

Financial Metrics

Financial metrics hanya ce ta gudanar da fundamental analysis bisa la'akari da bayanar abin da ke faruwa da coin a kasuwa. Idan ya kasance coin din da kake son saya ya shiga kasuwa to za ka yi amfani da financial metrics a matsayin ma'aunin gane darajar coin din da yadda kasuwancinsa ke tafiya a kasuwar.

Yayin gudanar da binciken, Dan kasuwa zai yi duba ne izuwa abubuwa kamar haka:

- ❖ Market capitalization
- ❖ Liquidity
- ❖ Volume

Market Capitalization

Market capitalization ko market cap na nufin adadin jimillar kuɗin total circulation na coin. Sanin market cap na coin din da kake son saya kafin ka saya yana da matuƙar amfani, ta hanyar sanin ne za ka iya sanin haƙikanin darajar coin din da yadda farashinsa ya kamata ya zama idan ba a yi kwange ko an ha'inci farashin ba. Ana gane darajar kowanne coin ne ta hanyar lissafa adadin total circulation na coin din sau adadin farashin coin din a kasuwa.

Misali:

A-coin na da total circulation: 10,000,000

Farashin kowanne A-coin: ₦5

Market cap na A-coin = $5 \times 10,000,000$

Market cap = 50,000,000

Ta hanyar lissafa market cap na coin dīn da kake son saye za ka iya fahimtar an yi overvalued ko devalued na coin dīn.

- **Overvalued:** na nufin coin dīn da aka ha'inci farashinsa sai ya kasance farashinsa ya wuce darajarsa. Idan coin dīn da za ka saye an yi overvalued na shi hakan na nufin za ka saye shi a farashin da ya wuce darajarsa. Duk coin dīn da farashinsa ya wuce darajarsa kuwa, to sayensa akwai haɗari domin babu makawa sai ya dawo farashin da ya cancanta da darajarsa.
- **Devalued:** na nufin coin dīn aka ha'inci farashinsa sai ya kasance farashinsa bai kai darajarsa ba. Idan coin dīn da za ka saye an yi devalued na shi, hakan na nufin za ka saye shi a farashin da bai kai darajarsa ba. Duk coin dīn da kuma farashinsa bai kai darajarsa ba to sayensa alheri ne domin babu makawa zai koma farashin da ya cancanta da darajarsa.

Liquidity

Liquidity kuduɗe ne ko kuma coins da a ke sanyawa a kasuwa da niyyar idan mai son sayen coin ya zo saye ko da babu mai sayarwa yana iya saye daga cikin adadin aka ajiye a matsayin liquidity, ko kuma kuɗi wanda aka ajiye musamman idan wani na buƙatar sayar da coin dīnsa ko da babu mai buƙatar saye a lokacin zai iya sayarwa daga cikin kuɗaɗen da aka ajiye a matsayin liquidity dīn. Misali: ƙaddara kana son ka sayar da A-coin dīnka guda 1000, a lokacin farashin kowanne A-coin ₦1000, sai ya kasance a kasuwar babu masu buƙatar A-coin har guda 1000. A wannan yanayi ka ga dole ka jira masu saye su buƙaci saye sannan ka iya sayar da coin dīnka. Babbar matsalar da za ka fuskanta ita ce: idan mai saye ya zo ba lallai ya yarda ya sayi A-coin a wannan

farashin ba, yana iya sauke farashi ya sanya **limit order** wanda idan ka matsu sai dai ka sayar masa a farashin da ya bukaci saye.

Domin a kawar da wannan matsalar, sai a ke ware wasu adadin kudafe ko adadin coins wanda za a ajiye a kasuwar musamman ga masu son sayar da coin dɪnsu ta yadda za su iya sayarwa ba tare da jiran mai saye ba, su ma masu son saye za su iya saye ba tare da jiran masu sayarwa ba.

Liquidity na da matukar mahimmanci wajen saukaƙe sayen coin da sayarwa a farashin da ya cancanta da shi. Yana daga farashin coin kasancewar masu saye suna samun damar saye ko da babu masu sayarwa, haka ma masu sayarwa suna samun damar sayarwa ko da babu masu saye. Coin dɪn da ba a sanya masa liquidity a kasuwa ba komai ingancinsa farashinsa ba zai dinga karuwa da sauri ba sakamakon babu abin da ke saukaƙe cinikayya a tsakanin masu saye da masu sayarwa. Coin dɪn da ba shi da liquidity kamar motar da babu mai ce, kana ji kana gani kana son yin tafiya amma dole ka jira sai an zuba mata mai kafin ta tashi.

A kasuwar mu ta gargajiya, kadara mai liquidity ita ce wadda ko da cikin dare ka bukaci sayarwa za ka iya kiran mai saye ya saya nan take, kamar; dabbobi, kayan abinci, mota, mashin, wayoyin hannu da sauransu. Kadara mara liquidity ita ce wadda idan ka tashi bukatar sayarwa ba lallai ka samu mai saye a lokacin ba, kamar; gidaje, filaye, kayan sawa da dai sauransu.

Kafin ka sayi coin a matsayinka na 'Dan kasuwa matukar coin dɪn ya shiga kasuwa to ko da ka bincika yana da inganci matuƙar ba shi da liquidity da yawa to kada ka saye shi, saboda farashinsa ba zai yi saurin tashi ba, ko da ya tashi ba zai tashi sosai ba kuma ko da ya tashi sosai dɪn ma, to ba za ka iya sayarwa a lokacin da kake so ba.

Volume

Volume ko trading volume na nufin jumillar kudɓi ko adadin coin ɗin da aka yi cinikinsu a cikin kayyadadden lokaci. Idan kana da shago kana sayar da kaya, trading volume naka na nufin adadin yawan kayan da ka sayar ko adadin kudɓin da kayi ciniki. Misali: idan na sayi A-coin guda 200 akan farashin N100 kowanne ɗaya, trading volume ɗin zai zama N20,000 ko kuma A-coin guda 200. Hakan na nufin trading volume zai iya zama adadin coin ɗin da aka dinga saye da sayarwa ko kuma jimillar adadin kudafɗen aka dinga sayen coin ana sayarwa da su.

Yayin gudanar da fundamental analysis, bincikar adadin trading volume na coin a kasuwa yana da matukar amfani. Idan coin ɗin da kake son saye yana da trading volume sosai hakan na nufin mutane suna sayensa sosai saboda haka farashinsa zai dinga tashi, amma idan ya kasance ba shi da volume sosai hakan na nuna mutane ba su cika sayen shi ba don haka farashinsa zai dinga sauka.

CHAPTER 07

TECHNICAL ANALYSIS

Kasuwancin cryptocurrency na buƙatar cikakkiyar fahimta tare da samun gamsuwa game da coin kafin sayensa, kasancewar kasuwar cike ta ke da ruɗani da haɗarori masu tarin yawa. A baya mun yi bayani game da yadda a ke amfani da fundamental analysis wajen tattara bayanai tare da samun amsoshin tambayoyin da za su taimaka ka fahimci ingancin coin; kimarsa, karɓuwarsa, tasirinsa, darajarsa ko ranuninsa. Ta hanyar gudanar da fundamental analysis 'Dan Crypto zai fahimci turbar da coin ya kafu akanta kamar yadda magini ke gane kafuwar gini tun daga tubalin ginin (foundation).

Bayan ka samu gamsuwa tare da natsuwar cewa coin ɗin da kake son saye an kafa shi bisa kyakkyawar turba sannan ya tsallake duk wasu sharaɗoɗin da ya kamata ya tsallake. Kafin sayansa har ila yau kana buƙatar sanin abubuwa kamar haka:

- Wanne lokaci ya kamata ka saye shi?
- Wanne lokaci ya kamata ka sayar?

Sanin amsoshin tambayoyin zai taimaka maka wajen yanke shawara game da cancantar sayensa duk da ya tsallake gwajin fundamental analysis, idan kuma za ka saya ne za su taimaka maka wajen sanin haƙifanin lokacin da ya dace ka saya da kuma lokacin da ya dace ka sayar domin samun riba da kaucewa asara. Domin sanin amsoshin tambayoyin nan dama wasu da yawa, kana buƙatar gudanar da abin da a ke kira da "Technical analysis"

How Cryptocurrency Market work

Kafin mu yi nitso a cikin kogin bayanin technical analysis, a kwai bukatar mai karatu ya fahimci yadda kasuwar cryptocurrency ke aiki, saboda kacokam technical analysis bincike ne akan yadda farashi ke tafiya a kasuwa, sanin yadda kasuwar ke aiki zai taimakawa mai karatu ya fahimci technical analysis sosai cikin sauki da sauri.

Kasuwar cryptocurrency tana tafiya ne kamar Alimbin wasan yara (seesaw). **Alimbi**: wani abin wasa ne da yara ke yin lilo akansa, yana da bangare biyu, kowanne bangare yaro ɗaya ko biyu ko fiye da haka ne su ke zama akansa.

Bangaren da ke da yara wanda suka fi nauyi shi ne ke rinjayar ɗayan bangaren da yaro ko yaran da ke zaune a gun ba su da nauyi sosai. Yaran suna wasa akansa ne ta hanyar rinjayar junansu; wannan bangaren su rinjayi wannan bangaren saboda bambancin nauyi.

Mu kaddara bangarori biyun da su ke wasa akan Alimbin; bangaren 'A' ne da 'B'. Idan bangaren 'A' suka rinjayi bangaren 'B' sai su daga bangren

'B' dīn su yi sama su kuma su yi kasa, idan bangaren 'B' suka rinjayi bangaren 'A' sai su daga bangare 'B' dīn su yi sama su kuma su yi kasa, Idan ko nauyin bangaren 'A' da 'B' ya zama dāya to sai karfen Alimbin ya tsaya saiti dāya. Kamar haka, kasuwar cryptocurrency ta ke aiki. Tana dāuke da bangarorin mutane biyu watau masu saye da masu sayarwa, kowannen su yana zaune a bangare dāya. Mazaunin da kowanne bangare ya ke zaune akai shi ne farashi (price), idan masu saye suka fi masu sayarwa nauyi sai mazaunin da masu sayarwa su ke akansa ya yi sama su kuma masu saye su yi kasa, idan kuwa masu sayarwa suka fi masu saye nauyi sai mazaunin masu saye ya yi sama su kuma masu sayarwa su yi kasa, amma idan nauyin masu saye da masu sayarwa ya zo dāya sai mazaunansu su daidaita a saiti dāya. Kasuwar crypto tana tafiya ne a yanayi guda uku:

- ❖ **Uptrending market:** na faruwa ne idan masu saye suka fi masu sayarwa nauyi, ma'ana suka bukaci sayen adadin coin dīn da ya fi wanda masu sayarwa ke bukatar su sayar sai farashin coin dīn ya tashi. saboda haka, idan ka ga farashin coin na tashi hakan na nuni ne da masu saye suna ta sayen adadin da ya rinjiyi na masu sayarwa.
- ❖ **Downtrending market:** na faruwa ne idan masu sayarwa suka rinjayi masu saye, ma'ana suka bukaci sayar da coin dīn da ya fi adadin da masu saye su ke bukatar saye, sai farashin coin dīn ya yi kasa. Saboda haka, idan ka ga farashin coin na sauka hakan na nufin masu sayarwa suna ta sayar da adadin da ya rinjayi wanda masu saye su ke bukata.
- ❖ **Sideways market:** na faruwa ne idan aka samu daidaito tsakanin nauyin bukatar bangaren masu saye da masu sayarwa sai farashin coin dīn ya dinga lilo a guri dāya. Saboda haka, idan

ka ga farashi na yawo a guri daya hakan na nufin masu saye suna sayen adadin da masu sayarwa su ke bukatar su sayar.

What Is Technical Analysis (TA)?

Technical analysis hanya ce ta amfani da alamomi (signals) da manunai (indicators) wajen fahimtar tafiyar farashin coin a kasuwa, wanda hakan ke bayar da dama iya hasasho yadda farashin zai kasance zuwa gaba. A takaice, ana iya kiran technical analysis da "Binciken fasaha" a fassarar kalma da kalma.

A kasuwancin zahiri, Dan kasuwar buhu kan iya sayen buhuna da kaka watau lokacin da galibin kayan gona su ke arha, ya ajiye su da niyyar sayarwa da rani ko damuna domin galibi kayan gona sukan yi tsada a wannan lokacin. Dan kasuwar na yin duba ne da cewa da kaka kowanne manomi ya kawo kayan gonarsa gida, don haka zai bukaci sayarwa domin sayen kayan masarufi, saboda haka dole farashi kayan gona ya yi arha sakamakon yawan manoma masu bukatar sayarwa. Yawancin manoma suna sayar da kayan gonansu ne tun a kaka, yayin da rani ya yi sai kayan gona su yi tsada sakamakon yawan masu bukatar abinci da kuma farancin manoman da su ke bukatar sayar da kayan gona.

Amma kasuwar cryptocurrency da ta bambanta da kasuwancin zahiri inda a ke kallon komai kuru-kuru, Dan Crypto zai iya fahimtar yanayin kaka da yanayin daminar cryptocurrency ne ta hanyar amfani da alamomi ko ince manunan da ke bayyana a chart yayin gudanar da technical analysis. Ba iya cryptocurrency kadai ba ma, duk abin da babu shi a zahiri to ana iya fahimtarsa ne ta hanyar amfani da alamomin da ke nuna yanayin da abin ke ciki.

Technical analysis hanya ce ta nazartar motsin farashin cryptocurrency a kasuwa ta hanyar la'akari da abubuwan da suka faru domin fahimtar abin da zai iya faru zuwa gaba. Yayin da fundamental analysis ke bayar da labarin hakikanin darajar coin, shi kuma technical analysis ya dogara ne kacokan wajen bayar da bayanin yadda farashi ke tafiya a kasuwa. Duk da ya ke ta hanyar gudanar da technical analysis ba za'a iya gane hakikanin farashin da coin zai kai a gaba ba, amma za'a iya hasasho kusan yadda farashin zai iya kaiwa sakamakon farashi na da dabi'u guda huɗu:

1. **Markets discount everything:** farashin kowanne coin yana tafiya ne gwargwadon abubuwan da ke wakana da coin ɗin a kasuwa na saye ko sayarwa, tsari, yanayi da sauransu. Duk suna bayyana ne a cikin farashin wannan coin ɗin. Misali, Sai a kasuwar Binance wani ya sayi Bitcoin guda 5, duk da ya saya ne a ɓoye ba tare da kowa ya sani ba, sayen da ya yi sai ya motsa farashin Bitcoin a daidai lokacin. Hatta wanda ya sayi coin guda ɗaya kacal ko ya sayar sai tasirin sayen ya bayyana a cikin farashin coin ɗin.
2. **Price moves in trend:** farashin coin ba tsalle ya ke daga wani adadi zuwa wani adadi, maimakon haka yana motsawa ne a hankali a hankali har ya kai yadda ya ke. Tashin farashin BNB daga \$20 a farkon shekarar 2021, zuwa yanzun da ya ke \$500 ba wai ya faru ne lokaci ɗaya ba, maimakon haka farashin ya dinga tashi ne yana sauka har ya zo \$500 ɗin. Wannan na nufin cewa farashin coin tafiya ya ke kamar tafiyar kwale-kwale: yana tafiya yana tangadi ya ke kaiwa gaba.
3. **The 'how' is more important than 'why:** wannan a takaice na nufin farashin coin na la'akari ne da adadin da aka saya, ko

adadin da aka sayar wajen motsawa. Dalilin sayen coin ba ya cika tasiri wajen motsa farashin coin a kasuwa kamar yadda adadin coin dɓin da aka sayar ke yi. Ko mai lalacewar coin matuƙar adadin da a ke saye zai fi adadin da a ke sayarwa to fa babu makawa farashinsa zai dinga tashi, sannan komai ingancinsa matuƙar adadin da a ke sayarwa ya rinjayi adadin da a ke saye to babu makawa farashin coin dɓin zai dinga raguwa.

4. **History tends to repeat itself:** a tafiyar farashin coin tarihi na iya maimaita kansa. Muddin farashin coin ya kai wani adadi, to ko da ya sauka zai iya zuwa ya sake kaiwa yadda ya taɓa kaiwa har ma ya wuce. Wannan na faruwa ne domin lokacin da coin ya ke tashi mutane sun fi sayensa fiye da lokacin da ya ke sauka. Tunda sun saye shi a wannan farashin babu makawa wasu daga ciki za su yi holding na shi har sai ya sake dawowa wannan farashin. Sannan waɗanda suka sayar ya bayan ya sauka galibi sun sayar ne saboda sun san ya taɓa kaiwa fiye da haka, shi ya sa za su ki sayarwa tare da ingiza farashin coin dɓin har sai ya kai haka. Misali, lokacin da BNB yana \$523 mutane da yawa sun sayar da tunanin zai wuce haka su sayar su ci riba, sai ya gangaro izuwa \$480. Duk da farashin ya gangaro to babu makawa zai zo ya haura \$523 dɓin, saboda waɗanda suka saye shi a \$523 da yawansu za su jira sai ya kai \$523 ko fiye da haka kafin su sayar. Su ma waɗanda suka sayar a \$500 sun sayar ne saboda sun san ya taɓa kaiwa \$523, shi ya sa za su jira ya kai hakan sannan su sayar.

Chart

Chart taswira ce da ke kunshe da bayanai a sigar zane, yana ɗauke da; alamomi, manunai, ma'aunai, lambobi da harufan rubutu wanda ke

bayyanawa mai bincike bayanana da ya ke nema. Galibi ana amfani da chart ne domin nuna yadda bayanai su ke daki-daki tare da zana alamomin da su ke nuni ga bayanana da a ke son bayarwa. A cryptocurrency kuwa, chart majigi ne da ke nuna yadda farashi ke motsawa a kasuwa tare da abubuwan da ke wakana a kasuwar ta sigar lambobi, layuka, ma'aunai da manunai.

Types of Charts

Akwai nau'inkan chart guda uku da aka fi amfani da su a yayin gudanar da technical analysis a kasuwar cryptocurrency; linear chart, bar chart da candlestick chart. Amma za mu taɓkaiya bayanin mu ne akan candlestick chart kasancewar an fi amfani da shi a kasuwar Cryptocurrency.

Candlestick Chart

Candlestick nau'in chart ne mafi shahara da gamsarwa yayin gudanar da technical analysis na cryptocurrency, yana ɗauke da cikakkun manunai da alamomin da su ke nuni game da yadda farashi ke motsawa a kasuwa. Ana masa laƙabi da "Candlestick" ne domin yana ɗauke da kalolin candles daban-daban, kowannen candle na nuni ne da abin da ke faruwa a kasuwa.

Candlestick Anatomy

Anatomy na nufin duk wani bari ko sassa na jikin wani abu. Misali: human anatomy na nufin sassan jikin ɗan'adam; hanci, baki, kunne, kafa, kai, ciki da dai sauransu. Waɗannan sassa su ne suka haɗu suka bayar da fasalin gangar jikin ɗan Adam.

Candlestick chart anatomy na nufin; sassa, sashi, bangare da duk wani abu na alama, lamba ko rubutu da ke kunshe a cikin candlestick chart.

Domin mai karatu ya fahimci yadda a ke amfani da candlestick chart don gudanar da technical analysis, akwai bukatar mu yi bayani game duk abin da ke fita da mai karatu zai gani yayin da ya buɗe candlestick chart domin ya san su ya fahimce su kuma ya san aikinsu da yadda a ke amfani da su. Candlestick na kunshe da abubuwa kamar haka:

- ❖ Time-frames
- ❖ Price
- ❖ Trend
- ❖ Candles
- ❖ Indicators

Time-frames

Time-frame na nufin zaɓaɓɓan lokaci da aka keɓe don gudanar da wani abu. Misali, kana zuwa makaranta kullum, yayin da duk ka je makarantar kana rubuta lokacin da duk wani malami ya shigo ajinku. Bayan shekara ɗaya sai ka buɗe littafinka ka duba a wata rana a daidai wani lokaci wanne malami ne ya shigo ajinku. Wannan ranar da ka zaɓa domin bincika malamin da ya shiga a jikinku a daidai lokacin shi a ke kira da "Time-frame"

Time-frames a candlestick chart jerin lokuta ne da mai gudanar da technical analysis zai zaɓi lokacin da ya ke son gudanar da binciken domin sanin tafiyar da farashi ya yi a wannan lokacin.

Idan ka zaɓi 5m time-frame to kana son ganin yadda farashi ke tafiya a cikin mintuna biyar ne, idan ka zaɓi 15m time-frame to kana son ganin yadda farashi ke tafiya a cikin mintuna sha biyar, idan ka zaɓi 1h time-frame to kana son sanin yanayin motsawar farashi na awa ɗaya, idan ka zaɓi 4h time-frame to kana son ganin yadda farashin ke tafiya na awa huɗu, idan ka zaɓi 1day time-frame to kana son ganin tafiyar da farashi ke yi a kwana ɗaya, idan ka zaɓi 1Week time-frame to kana son kasan tafiyar da farashin ke yi a sati ɗaya, idan ka zaɓi 1M time-frame to kana son ka ga yadda farashin coin ɗin ke tafiya ne a cikin wata ɗaya. Ya dai danganta da irin salon kasuwancin da kake yi da kuma time-frame ɗin da kake son gudanar da bincikenka a kai.

TIME FRAMES	TRADING STYLES
5 minutes	Scalping
15-30 minutes	Short-term Trading
1hr or 4 hrs	Day Trading
Daily or Weekly	Swing Trading
Weakly or Monthly	HODling

Price

Price na nufin adadin kuɗin da ke wakiltar darajar coin wanda galibi yana canjawa lokaci bayan lokaci. A takaice, price na nufin "Farashi" da Hausa. Candlestick na ɗauke da jerin farashi da su ke wakiltar darajar coin a kowanne motsi da farashin ya yi.

Burin kowanne Ɗan kasuwa shi ne ya samu riba ta hanyar sayen coin a lokaci da farashi ya yi kasa sannan ya sayar a lokacin da farashi ya tashi. Chanjawar da farashi ke yi lokaci bayan lokaci shi ne dalilin gudanar da

kasuwanci, hakan ke sanya Yan kasuwa su ke neman damarmaki a hawa da saukar da farashin ke yi. Masu saye na burin su saya a farashi mai sauki, masu sayarwa kuma na burin su sayar a farashi mai tsada. Farashi na canjawa ne saboda dalilai guda uku:

1. Demand
2. Supply
3. Equilibrium

Demand

Demand na nufin adadin coin dīn da masu saye su ke bukatar saye, wanda bukatar nan ce ke kai su kasuwar kuma ita ne za ta sanya su iya sayen coin a duk farashin da ya kama. Nauyin bukatar masu saye tana motsa farashi ne gwargwadon adadin da su ke bukatar saye a cikin adadin da masu sayarwa su ke bukatar su sayar. Ko da masu bukatar saye sun fi masu bukatar sayarwa yawa, matukar adadin da masu sayen ke bukata bai kai adadin da masu sayarwa su ke son su sayar ba, hakan ba zai sanya farashin coin dīn ya tashi ba.

Supply

Supply na nufin adadin coin dīn da masu sayarwa su ke bukatar su sayar, wanda karfin bukatar sayarwar ce ma za ta sanya su iya sayar da coin dīnsu a duk farashin da ya kama. Nauyin bukatar masu sayarwa tana saukar da farashi ne gwargwadon adadin da su ke bukatar sayarwa a cikin adadin da masu saye ke bukatar saye. Ko da masu son sayarwa sun fi masu son saye yawa, matukar adadin coin dīn da masu sayarwar ke son su sayar bai kai adadin coin dīn da masu saye su ke son saya ba, hakan ba zai sanya farashin coin dīn ya sauka ba.

Equilibrium

Equilibrium na nufin samun daidaito tsakanin demand da supply. Idan ya kasance adadin coin dīn da masu saye su ke son saya ya yi daidai da adadin da masu sayarwa su ke son su sayar to an samu daidaito na bukata kenan, a dalilin haka farashi zai dinga yin lilo ne a guri daya. Idan masu saye ba su rinjayi masu sayarwa ba haka masu sayarwa suma ba su rinjayi masu sayen ba, wannan yanayin shi a ke kira da "Equilibrium"

Trend

Trend layi ne da ke nuni da fasalin taswirar nisan motsin farashi daga wani lokaci zuwa wani lokaci. Yana kunshe da siffar yadda farashi ke hawa da sauka a adadin lokacin da mai gudanar da technical analysis ya saita (time-frame).

Na san dai mai karatu ya san abin da a ke kira da "Taswira" ma'ana "Map" da Turanci. Taswira ko map zanannen layi ne da ke nuni da fasalin hanyoyi, gurabe, gurare ko iyakokin da ke tsakanin wani guri da wani guri. Trend kamar map ne na farashi, yana dauke da zanen hawa da saukar da farashi ya yi ko motsin da farashin ke yi a cikin lokacin da aka zaɓa, kamar dai yadda sawun keke ke nuni da inda tayar keken ta bi.

Ana auna map ne ta hanyar la'akari da nisan da ke tsakanin wani guri zuwa guri, misali daga Katsina zuwa Kano. Da ya ke farashi ba tafiya ya ke daga wani guri zuwa wani guri ba, yana dai faruwa ne daga wani lokaci zuwa wani lokaci. Saboda haka, ana auna shi ne ta hanyar kaddara lokaci (Time-frame). Misali, a bincika hawa da saukar farashi daga jiya zuwa yau.

A saukake, za'a iya fassara 'trend' da "Tafiyar farashi, kadawar farashi, motsin farashi ko kuma sawun tafiyar farashi." A candlestick chart kuwa, trend na nufin Jerin kyandirori da ke bayyana a duk lokacin da farashi ke motsawa, wanda yawan kyandirorin ya ta'allaka ne da yawan time-frame din da mai gudanar da technical analysis ya zaba.

Trend shi ne ginshikin technical analysis, domin gaba daya technical analysis ana gudanar da bincike ne akan farashi; inda farashin ya fito da kuma inda farashin ke fuskanta. Duk wasu alamomi da manunai da a ke amfani da su wajen gudanar da technical analysis ana yi ne domin a fahimci alkiblar da farashi ke fuskanta, domin masu saye da sayarwa su gane lokacin da ya kamata su saya da lokacin da ya kamata su sayar. Duk Dan Crypto din da ya kware wajen gane inda farashi ya baro da inda

farashi ya dosa to ya gama dacewa da alherin da ke cikin kasuwar cryptocurrency.

Types of Trends

Kamar yadda muka ambata, ana lissafawa ko kaddara tafiyar farashi ne ta hanyar la'akari da tsawon lokaci da a ke son gane hawa da saukar farashin. Saboda haka, tafiyar farashi ya kasu kashi uku bisa la'akari da tsawon lokaci:

- ❖ **Primary trend:** na nufin tafiyar da farashi ya yi na tsawon zango, a kalla daga wata uku zuwa shekara ɗaya. Hakan na nufin idan mai gudanar da technical analysis ya saita time-frame na shi akan 3M zuwa 1y, to fasalin tafiyar farashin da ya fito shi ne "Primary or main trend" galibi masu yin long-term trading su suka fi gudanar da technical analysis ɗinsu akan tafiyar farashi na tsawon lokaci.
- ❖ **Secondary trend:** na nufin tafiyar da farashi ya yi na matsakaicin zango, a kalla daga kwana bakwai zuwa wata uku. Hakan na nufin idan mai gudanar da technical analysis ya saita time-frame na shi akan 1w zuwa zuwa 3M to fasalin tafiyar trend ɗin da ya bayyana a chart shi ne "Secondary or medium trend" shi ma wannan galibi masu yin matsakaicin long-term trading ne suka fi amfani da shi.
- ❖ **Tertiary trend:** na nufin tafiyar da farashi ya yi na karamin zango a kalla daga kwana uku zuwa kwana bakwai. Idan mai gudanar da technical analysis ya saita time-frame na shi daga 5m zuwa 1w, fasalin tafiyar farashin da ya bayyana shi ne "Tertiary or short trend" galibi masu yin short-term trading su ne su ke gudanar da technical analysis ɗinsu akan wannan.

Trend Directions

Trend direction na nufin alkiblar da farashi ke fuskanta yayin da ya ke motsawa a kasuwa. Bisa al'ada, farashi na tafiya ne irin tafiyar da mai hawa tsauni ko bene ya ke yi. Yayin da za ka hau tsauni ko bene kana farawa ne da mafi kankantar tsayin tsaunin ko benan, kana tafiya kana kara yin sama har ka kai kololuwar tsayin tsaunin. Idan za ka sauko kuma gangarawa kake a hankali, kana tafiya kana kara gangarawa har ka iso kasa. Kamar haka, farashin coin ke tafiya a kasuwa, yana tashi ne a hankali a hankali har ya kai mafi tashinsa, yana sauka ne a hankali a hankali har ya kai mafi saukarsa. Farashi na tafiya ne a yanayi guda uku:

1. Uptrend
2. Downtrend
3. Sideways

Uptrend

Uptrend na nufin lokacin da farashi ke yin sama. Galibi farashi na yin sama ne a lokacin da farashi ke daɗuwa, farashi na daɗuwa ne yayin da masu saye su ke sayen adadin da ya fi wanda masu sayarwa ke buƙatar su sayar. Farashi ya dinga haurawa sama daga karamin mataki zuwa babban mataki shi a ke kira da "Uptrend"

Downtrend

Downtrend na nufin lokacin da farashin coin ke gangarawa kasa. Galibi farashi na gangarawa ne idan yana raguwa, raguwar farashi na faruwa ne a lokacin da masu sayarwa su ke sayar da adadin coin din da ya fi adadin da masu saye su ke bukatar su saya. Farashi ya dinga gangarowa daga sama zuwa kasa irin gangarowar da mai saukowa daga kan tsauni ya ke yi, wanda hakan a ke kira da "Downtrend"

Sideways Trend

Sideways na nufin lokacin da farashi ke yin tafiyar zigzag, ya dinga hawa yana sauka a guri daya. Hakan na faruwa ne sakamakon daidaiton karfin masu saye da masu sayarwa. Idan masu saye suna sayen wani adadi na coin sai farashin coin din ya motsawa sama, idan masu sayarwa suka sayar da adin da masu saye suka bukata sai farashin ya koma inda ya baro. Farashi ya dinga lilo a guri daya shi a ke kira da "Sideways or range trend"

Trend Actions

Trend action na nufin matakan da farashi ke bi a lokacin da ya ke motsa. Farashi na tafiya ne ta hanyar fuskantar alkiblolli guda uku (uptrend, sideways da downtrend), yayin fuskantar wadannan alkiblolli ya kan taka matakai biyu.

Tun da tafiyar farashi ya ta'allaka ne ga masu saye da masu sayarwa; wani lokacin masu saye za su rinjayi masu sayarwa sai farashin ya tashi, wani lokacin masu sayarwa ne za su rinjayi masu saye sai farashin ya sauka, wani lokacin kuma a samu daidaiton karfi a tsakaninsu sai farashin ya dinga lilo a guri daya. Farashi na bin matakai ne guda biyu yayin da ya ke tafiya:

1. Trend continuation
2. Trend reversal

Trend Continuation

Trend continuation na faruwa ne yayin da farashi ya bar alkiblar da ya ke fuskanta na wucin gadi daga baya ya dawo ya bi alkiblar. Misali; farashi na tafiya uptrend daga baya sai farashin ya tsaya guri daya, jim

kadan sai ya ci gaba da tafiya a uptrend dinsa. Galibi hakan na faruwa ne a dalilin Yan kasuwa na sayar da coins dinsu idan ya dan sauko sai su sake sayar. Trend continuation ya kasu kashi biyu:

1. **Bullish continuation:** na faruwa ne yayin da farashi ke tafiya a uptrend, sai ya koma yana tafiya a sideways kafin daga bisani ya koma tafiya a uptrend dinsa. Hakan na faruwa ne sakamakon masu saye sun fizgi farashin ya yi sama, da farashin ya kai wani mataki sai ya cije, amma masu sayarwa ba su iya sauko da shi ba, jim kadan kuma sai farashin ya ci gaba da tashi.
2. **Bearish continuation:** na faruwa ne a lokacin da farashi ke tafiya a downtrend, daga nan ya koma yana tafiya sideways daga baya sai farashin ya ci gaba da tafiya a downtrend dinsa. Hakan na faruwa ne yayin da masu sayarwa suka fizgi farashi ya yi kasa, da farashin ya kai wani mataki na sauka sai ya cije, bayan wani lokaci kuma ya ci gaba da sauka.

Trend Reversal

Trend reversal na faruwa ne yayin da farashi ya canja alkibla daga baya ya dawo kan alkiblar da ya bari. Misali, farashi na tafiya a uptrend daga baya ya koma ya na tafiya a downtrend sannan ya sake komawa uptrend. Hakan na faruwa ne sakamakon masu saye sun rinjayi masu sayarwa sai farashin ya tashi, daga baya kuma masu sayarwar su ma suka yunkura suka rinjayi masu saye sai farashin ya koma yadda ya ke. Shima trend reversal ya kasu kashi biyu:

1. **Bullish reversal:** na faruwa ne idan farashi ya sauka daga baya kuma ya dawo yadda ya ke. Farashi na sauka ne sakamakon rinjayen masu sayarwa sannan yana dawowa yadda ya ke ne

sakamakon masu saye sun yi amfani da saukar da farashin ya yi wajen sake sayen adadi mai yawa a farashi mai sauki.

2. **Bearish reversal:** na faruwa ne idan farashi ya tashi daga baya ya dawo yadda ya ke. Farashi na tashi ne sakamakon rinjayen masu saye, yana kuma sake sauka ne sakamakon masu sayarwa sun yi amfani da tashin da farashin ya yi wajen sayar da adadi mai yawa na coin dɓin a farashi mai tsada.

Swing

Swing na nufin karfin kaɗawar da farashi ke yi sakamakon tasirin karfin masu saye da sayarwa. Hawa da saukar farashi na faruwa ne sakamakon jani-in-jaka da ke faruwa tsakanin masu saye da sayarwa, idan masu saye suka rinjayi masu sayarwa sai su fizgi farashi ya yi sama, haka idan masu sayarwa suka rinjayi masu saye sai su fizgi farashin ya yi kasa.

Candlestick chart na ɗauke da jajayen candles ne da kuma korayen candles, jan candle dɓin shi ne ke wakiltar galabar masu sayarwa yayin da koren candle kuma ke wakiltar galabar masu saye. Candle

Candlestick chart na ɗauke da jerin candles, kowanne candle na bayyana ne a matsayin alamar da ke yin nuni da faruwar wani abu game da tafiya farashi a kasuwa. kowanne candle na bayyana ne gwargwadon yadda farashi ya motsa, shi ya sa bayyanar kowanne candle ke nuni da alkiblar da farashin ke shirin fuskanta. Kowanne candle na ginuwa ne akan motsawar farashi gudu huɗu; opening price, closing price, lower price da higher price.

Candle Anatomy

Candle a candlestick chart yana kama da siffar kyandir da muke amfani da shi a matsayin fitilar haska muhalli. Kyandir ɗin mu na zahiri a cikinsa akwai; wata igiyar zare wadda a jikinta ne ma a ke kunna wuta, sannan yana da jiki ma'ana gurin da ke konewa ya tsiyaye a kasa. Kamar haka, candle a candlestick ya ke da sassan jiki kuma kowanne sashi na ɗauke da bayani na farashi.

1. **Opening price:** wannan na nufin farashin farko da candle ke fara bayyana da shi. Yayin da farashi ke tafiya bayan wani candle ɗin ya gama bayyana candle na gaba da zai bayyana zai fara

bayyana ne da opening price. Misalin opening price a jikin kyandir dinmu na zahiri shi ne farkon jikin candle din.

2. **Closing price:** daga opening price kowanne candle ke fara bayyana, farashi na motsawa candle na ci gaba da hada jikinsa, closing price shi ne farashin karshe da candle ke gama hada jikinsa da shi. Misalin closing price a jikin kyandir din mu na zahiri shi ne karshen jikin kyandir din ta sama.
3. **Lower price:** na nufin mafi kankantar farashin coin a lokacin da candle ya gama bayyana kafin wani candle din ya fara bayyana daga kasa a downtrend. Misalin lower price a jikin kyandir din mu na zahiri shi ne karshen igiyar da ke cikin kyandir din ta kasa, galibi shi ne gurin da kyandir din ke gama konewa daga shi.
4. **Higher price:** na nufin farashi mafi yawa da candle ya gama bayyana da shi kafin wani candle din ya fara bayyana daga sama a lokacin da farashi ke hawa. Misalin higher price a jikin kyandir din mu na zahiri shi ne farkon igiyar kyandir din ta sama inda a ke fara kunnawa wuta.
5. **Upper shadow:** na nufin igiyar candle daga sama wadda ta hada gangar jikin candle din da kuma higher price. Muna iya kiran upper shadow da "Wuyan kyandir" domin mai karatu ya fi fahimta.
6. **Lower shadow:** na nufin igiyar candle din daga kasa wadda ta hada jikin candle din da lower price. Muna iya kiran lower shadow da "Wutsiya kyandir" domin mai karatu ya fi gane abin da a ke nufi.

Types of Candles

Kyandir dīn mu na zahiri yana nan kala-kala; akwai fari, ja, kore, baki, ruwan omo, ruwan dōrawa da dai sauransu. Amma candle a candlestick chart yana bayyana ne kore ko kuma ja, duk da a kan samu wani candlestick chart dīn ya zo da farin candle a madadin koren candle da bakin candle a madadin jan candle. Candle ya kasu kashi biyu:

1. **Bullish candle:** candle ne da ke bayyana kore, yana bayyana ne idan farashi ya karu.
2. **Bearish candle:** candle ne da ke bayyana a kalar ja, yana bayyana ne idan farashi ya ragu.

Types of Candlestick Patterns

Yayin gudanar da technical analysis Yan kasuwa suna fahimta tafiyar farashi ne ta hanyar duba da irin candle din da ya bayyana a trend, yadda ya bayyana da kuma jeruwar candles din a trend. Masu gudanar da technical analysis suna yin duba da salon fitar candles ta siffodi guda uku uku:

1. Single candlestick patterns
2. Double candlestick patterns
3. Triple candlestick patterns

Single Candlestick Patterns

Single candlestick patterns salo ne na gane alkiblar da farashi ke fuskanta ta hanyar la'akari da alamar da candle daya ya zo da ita. Akwai nau'inkan candles da idan suka bayyana suna nuni ne da wata alama

kuma akan fahimci alamar ta hanyar yin duba da bayyanar su. A zahirin gaskiya, kowanne candle a candlestick na bayyana ne yayin da wani abu ya faru ko kuma zai faru. Babu candle din da ke bayyana gaba dayansa a lokaci daya, maimakon haka candle na ginuwa ne gwargwadon tafiyar da farashi ke yi. Duk wani motsi da farashi ke yi, yana gina wani bangare ne na jikin candle ko kuma yana rusa wani bangare na jikin candle. Kafin candle ya gama ginuwa, ma'ana kafin siffarsa ta gama bayyana zai iya daukar wani sakon daban, sannan bayan ya gama bayyana kuma ya nuna wani sakon daban.

Best Single Candlestick Patterns

Akwai nau'inkan single candlestick pattern da dama, amma za mu yi bayani ne akan wadanda suka fi shahara kuma aka fi amfani da su a kasuwar cryptocurrency:

- ❖ Doji candlestick pattern
- ❖ Spinning top candlestick pattern
- ❖ Marubozu candlestick pattern
- ❖ Hammer candlestick pattern
- ❖ Shooting star candlestick pattern

Doji Candlestick Pattern

Kalmar "Doji" an samo ta ne daga yaren Japanese wanda ke nufin "daidaito" ma'ana abubuwa biyu su daidaita da juna kan mizani ba tare da wani ya rinjayi wani ba. Ana kiransa ne da "Doji candlestick pattern" kasancewar yana bayyana ne a lokacin da farashi bai hau ba kuma bai sauka ba. Galibi, yana fita ne a lokacin da opening price da close price ya ke kusan daya. Kila farashin ya hau amma daga baya sai ya sauko kusan saitin opening price, sai ya kasance adadin coin din da a ke son sayarwa da adadin coin din da a ke son saye ya kusa zuwa daya, masu saye ba su

rinjayi masu sayarwa ba ballantana farashin ya sauka sannan masu sayarwa ma ba su rinjaye masu saye ba ballantana farashin ya tashi.

Yayin da farashi ke tafiya candles kuma ke bayyana a matsayin alamar da ke nuna yadda farashin ke tafiya. Idan aka ce bayyanar candle to ana nufin farkon fitarsa a trend da kuma yadda ya ke gama fita kafin candle na gaba shi ma ya bayyana. Igiyar candle ita ke fara bayyana daga nan kuma sai jikin candle din ya fara bayyana, bayan jikin ya gama bayyana ne ya ke bayar da siffar da a ke la'akari da ita a matsayin alkiblar da farashi zai fuskanta a gaba. Idan siffar Doji ta bayyana a tafiyar farashi, Yan kasuwa suna jinkirta saye ko kuma sayarwa har sai wata alamar ta bayyana da ke nuni da su saya ko kuma su sayar.

How To Identify Doji Candlestick Pattern

Domin gane Doji candlestick pattern Dan kasuwa zai yi duba ne izuwa waɗannan siffofin:

- Yana fita da siririn jiki ko kuma ya fita babu jiki sai igiya (Shadow).
- Open price = close price.
- Igiyar jikinsa (shadow) tana iya fita a kowanne yanayi na tsayi.
- Ya kan iya zama jan candle idan ya fito a bearish candle, sannan ya kan iya zama koren candle idan ya fito a bullish candle.

Spinning Top Candlestick Pattern

Spinning top candle ne da ke bayyana a ko ina cikin tafiyar farashi; yana iya bayyana a farko, tsakiya ko a kasan tafiyar farashi. Bayyanar spinning top na nuni ne da rashin tabbaci a kasuwa, ma'ana babu takamaiman inda farashi zai nufa a daidai wannan lokacin. Galibi Yan Crypto ba sa amfani da shi wajen fahimtar tafiyar farashi, suna dai daukarsa ne a matsayin alamar da ke nuna rashin rinjaye tsakanin masu saye da masu sayarwa.

How To Identify Spinning Top Candlestick Pattern

- Yana da ɗan karamin jiki (body) sosai.
- Shadow ɗinsa ya fi body tsayi.
- Tsayin upper shadow da lower shadow ɗinsa kusan ɗaya ne.
- Yana fita a ja ko kuma kore.

Idan spinning top ya bayyana a lokacin Yan kasuwa ke tara hankulansu guri ɗaya don ganin inda farashi zai dosa. Wanda bai sayi coin ba sai ya

jinkirta sannan wanda ya saya sai ya jinkirta sayarwa har sai wata alamar ta bayyana a gaba. Ko kuma su yi amfani da technical indicators wajen yanke hukuncin saye ko sayarwa. Amma bayyanar spinning top baya nuni da faɗuwar farashi ko kuma tashin farashi, yana nuni ne da cewa Yan kasuwa su dakaci abin da zai faru gaba.

Marubozu Candlesticks Pattern

Kalmar "Marubozu" itama an samo ta ne daga yaren Japanese, wanda ke nufin "Malu" ma'ana kan da babu gashi. Ana kiransa da "Marubozu candlestick pattern" ne domin yana bayyana ba tare da wuya (upper shadow) ko wutsiya (lower shadow) ba, sai dai gangar jiki (body) kawai.

Types of Marubozu

Marubozu na bayyana ne jan candle ko kuma koren candle, watau bullish Marubozu ko kuma bearish Marubozu.

Bullish Marubozu

Bullish Marubozu na bayyana ne a matsayin alama mai karfi da ke nuni da farashi zai tashi sakamakon masu saye sun rinjayi masu sayarwa.

Kuma masu sayen suna jin dadin sayen coin din, don haka a shirye su ke su saye shi ba tare da la'akari da tsadarsa ba.

Idan bullish Marubozu ya bayyana a uptrend, yana nuni ne da cewa farashi zai ci gaba da tashi domin masu saye sun shigo kasuwa da yawa. Mafi yawan lokaci bullish Marubozu na bayyana ne lokacin overbought, ma'ana lokacin da a ke sayen coin fiye da kima.

Idan Kuma bullish Marubozu ya bayyana a downtrend to yana nuni ne da bullish reversal, watau farashi zai tashi ya koma yadda ya ke kafin ya sauka.

Kasancewar Marabuzu ba shi da igiya sai gangar jiki, don haka yana da saukin ganewa idan ya fara bayyana. Da zarar Yan kasuwa suka ga bullish Marubozu na bayyana a uptrend to ko da suna da niyyar sayar da coin dinsu sukan jinkirta domin bayyanarsa bishara ce da cewa farashi fa bai gama tashi ba. Idan kuma bullish Marubozu ya fara bayyana a downtrend, Yan kasuwa suna sauri su sayi coin a daidai lokacin da suka gansa, domin fara bayyanarsa din nan bishara ce ya ke masu da farashin coin din zai koma yadda ya ke kafin ya sauko. Don

haka, sai su sayi coin din idan ya koma yadda ya ke ko kuma ya tashi sosai sai su sayar.

Bearish Marubozu

Bearish Marubozu na bayyana a matsayin alama mai karfi da ke nuni da saukar farashi. Bayyanarsa na nuni da Yan kasuwa na cikin fargaba da tsoro matuka, hakan ya sa su ke ta sayar da coin dinsu ba tare da la'akari da saukar da farashin ke yi ba.

Idan bearish Marubozu ya bayyana a uptrend, yana nuni ne da cewa farashi zai rikito kasa sosai domin Yan kasuwa sun tsorata, idanunsu a rufe ya ke, so kawai su ke su sayar su fice daga kasuwar. Mafi yawan lokaci bearish Marubozu na bayyana a uptrend lokacin oversold, ma'ana lokacin da a ke sayar da coin fiye da kima, babu mamaki bayan an gama pumping na coin sannan aka fara dumping. Idan Kuma bearish Marubozu ya bayyana a downtrend to yana nuni ne da cewa farashi zai ci gaba da sauka kamar babu gobe.

Da zarar Yan kasuwa suka ga bearish Marubozu ya fara bayyana a uptrend, ko da suna da niyyar sayen coin, to sukan jinkirta sayen saboda bayyanarsa bishara ce da farashi zai matuƙar sauka. Sakamakon haka,

sai su bari sai ya gama saukar sannan su saya. Idan kuma sun riga sun saya ne sai kuma suka ga bearish Marubozu ya fara bayyana, to sukan yi sauri su sayar kafin ma farashin ya kara sauka don su taikaita asara. Idan bearish Marubozu ya bayyana a downtrend kuma, Yan kasuwa waɗanda su ke da coin suna saurin sayarwa daga lokacin da suka ga ya fara bayyana kafin ma ya gama bayyanar. Waɗanda kuma ba su riga sun sayi coin ɗin ba to suna saurarawa sai ya gama sauka sannan su saya.

Bullish Hammer Candlestick Pattern

Kalmar "Hammer" kalma ce ta Turanci wadda ke nufin "Guduma" a Hausance. Ana kiran wannan nau'in candle ɗin ne da "Hammer candlestick pattern" sakamakon yana bayyana da siffa irinta guduma; Igiyar jikinsa doguwa ce daga kasa, yayin da jikinsa kuma ɗan karami ne. Ya fi bayyana babu wuya (upper shadow), duk da a kan samu wani lokacin kuma ya bayyana da ɗan karamin wuya. A gani na ido, yana kama da gudumar zahiri sannan yana kama da harafin "T" idan bai bayyana da wuya ba.

Bayan hammer na da siffa irinta guduma, yana aiki ma irin na gudumar. Me ya sa na ce yana aiki irin na guduma? Ana amfani da guduma ne domin a buga kusa ko wani abu, ana buga kusa ne a jikin wani abu domin

manne abin ta yadda abin ba zai faɗi ba. Kamar haka, hammer ke bugawa faɗuwar farashi kusa sai farashin ya daina sauka.

Hammer nau'in candle ne da ke nuni da canjawa tafiya farashi. Yana bayyana ne a lokacin da farashin coin ke sauka (downtrend), a matsayin alamar da ke nuna farashin ya gama sauka daga nan zai fara tashi. Ya kan iya bayyana a jan candle ko kuma kore candle, matuƙar dai ya bayyana a lokacin da farashi ke sauka to ya tabbata hammer ne kuma yana nuni ne da tashin farashi.

Ƴan kasuwa na amfani da bayyanar hammer ne a matsayin lokacin da ya kamata su sayi coin. Idan farashi na sauka sai kuma hammer ta bayyana, to albishir ta ke yiwa Ƴan kasuwa cewa farashin ya zo makurar saukar da zai yi, daga nan kuma zai fara tashi ne kawai. Saboda haka, sai su sayi coin daidai bayyanar hammer ɗin sannan su jira farashin ya tashi sai su sayar su samu riba. Idan kuma Ƴan kasuwar sun riga sun sayi coin sai farashinsa ya dinga sauka amma ba su sayar ba sai kuma hammer ta bayyana, bayyanar ta gargadi ne da kada su sayar su jira farashin zai tashi ya koma yadda suka sayar ko fiye da hakan ma.

Inverted Hammer Candlestick Pattern

A yaren Turanci idan aka ce "Inverted" to ana nufin abin da aka juya kansa ya kalli kasa. Ana kiran wannan nau'in candle din da "Inverted hammer" ne domin yana kama da siffar gudumar da aka juya kanta ta kalli kasa. inverted hammer a siffa ta gani tana kama ne da bullish hammer ta kowanne ɓangare, bambancinsu kawai shi ne yanayin tsayuwarsu: bullish hammer kanta a sama ya ke wutsiyarta kuma a kasa ta ke, inverted hammer kuma kanta a kasa ya ke wutsiyarta kuma a sama ta ke. Gaba ɗayansu suna nuni ne da canjawa tafiyar farashi, daga saukar farashi zuwa tashin farashi (bullish reversal).

Inverted hammer na bayyana ne a lokacin da farashi ke sauka (downtrend), a matsayin alamar da ke nuna saukar farashi ya kare daga nan farashin zai fara tashi. Yan kasuwa suna amfani da bayyanar inverted hammer a downtrend a matsayin lokacin da ya kamata su sayi coin musamman ma masu yin trading. Yayin da farashin coin ke sauka suna jira inverted hammer ta bayyana, da zarar sun ga ta bayyana kuwa, za su yi sauri su sayi coin sannan su jira sai farashin ya tashi sannan su sayar.

Har ila yau, masu yin trading idan sun sayi coin suka ga yana faduwa har kusa da opening price kuma ba su ga inverted hammer ta bayyana ba, to suna sayar da coin din kafin farashinsa ya sauka zuwa opening price. Rashin bayyanar inverted hammer na nuna farashi zai iya ci gaba da faduwa, don haka sai su takaita asara ta hanyar sayarwa ko kuma su duba wata alamar a jikin wani candle din domin yanke hukunci akan abin da zai iya faruwa gaba.

Abin da nake nufi da cewa inverted hammer na bayyana lokacin da farashin ke gangara izuwa opening price shi ne: misali, sai ka ga SHIBA INU farashinsa ya tashi da **+20%**, daga baya kuma sai ya dinga sauka har **+5%** idan inverted hammer ta bayyana a daidai wannan lokacin tana nuni da cewa farashin ba zai ci gaba da faduwa har ya koma **-1%** ba, maimakon haka zai koma tashi ne daga **+5%** din nan zuwa sama.

Shooting Star Candlestick Pattern

Hausawa sun jima suna amfani da fassarar shooting star, ko ka san mai Hausawa ke cewa shooting star? Idan dare ya yi, wani lokaci kana zaune za ka ga wani abu kamar mashi ja ya gifta, wannan abin shi ne misalin shooting star.

Kafin zuwan addinin Musulunci watau zamanin Jahiliyya, mutanen wancen karnin sun camfa wannan abin suna cewa idan ya gifta alama ce ta an haifi wani babban mutum ko kuma wani babban mutum zai mutu. Wasu kuma suna cewa idan wannan abin ya gifta to wani abu mara dadi ne zai faru. Sannan idan kai Bahausha ne ko kuma kana zama cikin Hausawa za ka ji suna yawan yin wata karin magana suna cewa "Tauraruwa mai wutsiya ganinki ba alheri ba." Shooting star candlestick pattern kamar tauraruwa mai wutsiya ta ke domin itama ganinta ba alheri ba ne. Tana bayyana ne a lokacin da farashi ke yin sama (uptrend), bayyanar ta alama ce ta farashi ya gama tashi, don haka zai fara rikitowa kasa.

Shooting star a siffa tana kama da inverted hammer ta ko wanne bangare, amma suna da bambanci ta fuskar sakon da su ke isarwa. Inverted hammer na fitowa ne a lokacin da farashi ke sauka (downtrend) yayin da ita kuma shooting star tana fitowa ne a lokacin da farashi ke tashi (uptrend). Inverted hammer na nuni ne da alheri cewa akwai yiyuwar farashi ya daina faduwa ya koma yana tashi. Ita kuwa shooting star tauraruwa ce mai wutsiya bayyanar ta ba alheri ba ne domin tana nuni ne da cewa farashi zai koma sauka.

Galibi shooting star tana fitowa ne jar kala, amma wani lokacin tana fitowa a koriya. Idan ta fito jar kala ta fi bayar da alama mai karfi cewa farashi zai rikito kasa sosai, idan kuma ta fito a koriya tana bayar da

bayani ne akan farashi zai sauka sai da alamar ba ta da karfi sosai, ma'ana ko da farashi ya sauka to ba lallai ya sauka har opening price ba.

Yan kasuwa suna amfani da bayyanar shooting star a matsayin alamar da ke nuna masu lokacin da ya kamata su sayar da coin idan sun riga sun saya. Idan kuma ba su riga sun saya ba to suna jinkirta saye idan shooting star ta bayyana a uptrend har sai farashin ya sauka. Da zarar Dan kasuwa ya sayi coin kuma ya ga farashin coin din na karuwa zuwa cen kuma ya ga shooting star ta bayyana, to yana yin sauri ya sayar da coin din domin ya sani bayyanar ta alamu ne na farashin ya gama hawan da zai yi yanzu kuma zai fara sauka. Kafin Dan kasuwa kuma ya sayi coin idan shooting star ta bayyana, tana yi masa gargaɗi ne da ya dakatar da saye domin farashi na gaf da fara rikitowa kasa.

Dragonfly Doji Candlestick Pattern

A yaren Turanci idan an ce "Dragonfly" ana nufin wani kwaro wanda Hausawa ke kiransa da "Mazari" yana da fuka-fukai guda huɗu, fuffuke biyu a ɓangaren dama yayin da fuffuke biyu a ɓangaren hagu. Idan aka zana dragonfly a jikin wani abu alama ce ta soyayya, ci gaba, farin ciki ko samun alheri. Ana kiran nau'in wannan candle ne da "Dragonfly Doji" saboda yana zuwa da albishirin cewa farashi zai tashi.

Dragonfly Doji a siffar gani yana kama da bullish hammer, bambancinsu ita hammer jikinta na da ɗan girma, ma'ana tana da kundulu akanta kamar dai yadda guduma ta ke, amma shi dragonfly ya fi kama da harafin 'T' domin jikinsa sirri ne. Galibi ya fi bayyana a Koren candle duk da a kan samu wani lokaci ya fito jan candle, a duk kalar da ya fito da ita dai yana nuni ne da tashin farashi.

Idan dragonfly Doji ya fito yayin da farashi ke hawa, yana yi wa Yan kasuwa bishara ne da cewa farashi zai ci gaba da hawa na ɗan lokaci. Idan kuma ya bayyana a lokacin da farashi ke sauka to yana nuni ne da farashi zai tsaya da saukar sannan zai ci gaba da hawa. Yan kasuwa na sayen coin idan suka ga dragonfly ya bayyana a downtrend domin babbar alama ce a gare su cewa farashi zai tashi. Idan kuma ya fito a uptrend to Yan kasuwa suna jinkirta sayar da coin ɗinsu domin yana nuni da cewa farashi na da ƙarfin ci gaba da karuwa.

Gravestone Doji Candlestick Pattern

Kalmar "Gravestone" a yaren Turanci tana nufin "Dutsen kabari" ma'ana dutsen da za ka ga ana goge shi a rubuta sunan mammaci akansa sannan a kafa dutsen akan kabarin. Galibi a maƙabartun kiristoci musamman Turawa sun fi amfani da shi, duk inda ka ga wannan dutsen to alama ce ta kabari.

Daga jin fassarar kalmar 'Gravestone' za ka fahimci sakon da ya ke dauke da shi ba mai daɗi ba ne. Ana kiransa da "gravestone Doji" ne domin yana nuni ne da saukar farashi. Yana fitowa ne a lokacin da farashi ke hawa (uptrend), da zazar ya bayyana to ƙarshen hawan farashin kenan daga nan kuma farashi zai fara sauka.

A siffar gani gravestone Doji yana kama ne da inverted hammer, bambancinsu ita invented hammer tana da jiki kaɗan amma shi kuwa gravestone Doji ya fi kama da harafin 'T' idan an juya kansa kasa. Sannan gravestone yana kama sosai da dragonfly, bambancinsu shi dragonfly wutsiyarsa a kasa ta ke yayin da jikinsa kuma na sama, shi kuwa gravestone Doji jikinsa ne a kasa yayin da wutsiyarsa kuma ke sama.

Yan kasuwa suna amfani da gravestone Doji a matsayin alamar da su ke gane lokacin da ya kamata su sayar da coin dɪnsu. Yayin da farashin coin ke tashi sai gravestone Doji ya fito a ƙarshen trend, to Yan kasuwa na sayar da coin dɪnsu su yi taking profit domin sun sani gaba kaɗan farashin zai fara sauka. Idan kuma ba su riga sun sayi coin ba sai

gravestone ya bayyana, to yana masu gargadi ne da su dakata domin faduwar farashi na zuwa.

Hanging Man Candlestick Pattern

A yaren Turanci idan aka ce "Hanging man" ana nufin "Mutumin da aka rataye wuyansa" Domin ka fahimci hakikanin sakon da hanging man pattern ke isarwa ga Yan kasuwa, akwai bukatar ka yi nazari akan halin da mutumin da aka rataye ya ke ciki. Idan za'a rataye mutum ana d'orasa akan wani abu mai tsayi, sannan a rataye wuyansa da igiya sai a cire abin da aka dora mutumin a kai, kafarsa zata dinga lilo yayin da wuyansa na daure, a cikin fankanan lokaci mutumin zai mutu sakamakon rikewar numfashi.

Kamar haka ya ke faruwa a kasuwa, Yan kasuwa za su dinga pumping dɪn coin domin farashinsa ya dinga tashi sosai, idan sun ga farashin ya tashi sosai to sai su yi sauri su dinga sayarwa, nan take sai farashin ya rikito. A lokacin da farashin nan ke tashi, wasu za su dinga sayen coin dɪn domin dama mutane sun fi sayen coin lokacin da ya ke tashi. Bayan mutane da yawa sun saye, sai Yan kasuwar su koma dumping dɪn wanda suka saye a lokacin farashi bai tashi sosai ba. A wannan yanayin, Yan kasuwa za su tashi da riba yayin da mutane da yawa kuma an ɗaure wuyansu, idan sun sayar sun yi asara sannan idan ba su sayar ba farashi ya ci gaba da sauka.

A siffa ta gani, hanging man na kama da bullish hammer, bambancinsu ita bullish hammer na bayyana ne a downtrend, bayan ta bayyana sai farashi ya ɗaga sama. Shi kuwa hanging man yana bayyana ne a uptrend, bayan ya bayyana sai farashi ya fara rikitowa.

Yan kasuwa na amfani da bayyanar hanging man a matsayin lokacin da ya kamata su sayar da coin dɓinsu. Idan kuma ba su saya ba to bayyanar hanging man na yi masu gargadi ne da kada su saya domin rikitowar farashi na gab da faruwa.

Double Candlestick Patterns

Double candlestick patterns salo ne na gudanar da technical analysis ta hanyar yin la'akari da bayyanar candles guda biyu a farshen tafiyar farashi. kowanne candle a karan kansa yana dauke da muhimmin sako na alama da Yan kasuwa ke amfani da ita domin fahimtar alkiblar da farashin ke fuskanta. Yayin da candle ya gama bayyana wani candle din ma ya bayyana suka zama guda biyu, Yan kasuwa na sake amfani da candles biyun wajen fahimtar alkiblar farashi wanda hakan a ke kira da "Double candlestick pattern"

Best Double Candlestick Patterns

A kwai nau'inkan double candlestick patterns da dama, amma za mu yi bayani ne akan waɗanda aka fi amfani da su a kasuwar cryptocurrency. Ga su kamar haka:

- ❖ Engulfing candlestick pattern
- ❖ Tweezer candlestick pattern
- ❖ Harami candlestick pattern
- ❖ Dark cloud cover candlestick pattern
- ❖ Piercing candlestick pattern

Engulfing Candlestick Pattern

A yaren Turanci kalmar "Engulfing" na nufin "Fin karfi, yin galaba ko rinjaye" Ana kiran wannan nau'in candles din da "Engulfing candlestick pattern" ne domin suna nuni da rinjayen masu saye akan masu sayarwa ko kuma rinjayen masu sayarwa akan masu saye.

Idan engulfing suka bayyana a tafiyar farashi alama ce ta sauyawar tafiyar farashin. Idan farashi sama ya ke yi to bayyanar engulfing na ishara ne da cewa farashin zai fara sauka. Haka nan idan sun bayyana a lokacin da farashi ya ke sauka, bayyanarsu ishara su ke da cewa farashin zai tashi.

Engulfing candlestick tagwayen candles ne guda biyu; daya babba, daya kuma karami. Idan karamin ya bayyana a jan candle, za ka samu babban kuma ya bayyana a koren candle, idan kuma karamin ya bayyana kore to za ka samu babban kuma ya fito a jan candle.

Types Of Engulfing Candlestick-Pattern

Engulfing candlestick pattern ya kasu kashi biyu:

1. Bullish engulfing
2. Bearish engulfing

Bullish Engulfing

Bullish engulfing tagwayen candles ne babba da karami, suna bayyana ne a lokacin da farashi ke sauka (downtrend), bayyanarsu alama ce ta farashi zai canja alkibla daga faduwa kasa zuwa tashi sama. Suna zama sahihai ne idan suka fito a downtrend, karamin candle din ya zama ja sannan babban ya zama kore.

Kalmar "Engulfing" tana nufin "Rinjaye" bullish engulfing na nufin babban candle din ya rinjaya karamin. Karamin na nuni ne da nauyin masu sayarwa yayin da babban ke nuni da nauyin masu saye.

A lokacin da farashi ke sauka sakamakon masu sayarwa suna ta sayar da coin dinsu har farashin ya kai adadin da ya kayatar da Yan kasuwa suka ga idan sun saye shi a wannan farashin to za su samu riba sosai, sai su dinga saye har adadin wanda Yan kasuwar ke saye ya fi adadin waɗanda masu sayarwa suka dinga sayarwa, a daidai wannan lokacin ne engulfing ke bayyana a matsayin alamar da ke nuna cewa farashin ya samu karfin da ya ke bukata na tashi sosai.

Yan kasuwa su kan yi la'akari da bayyanar bullish engulfing a downtrend wajen saita lokacin da ya dace da sayen coin. waɗanda kuma suka riga suka sayi coin idan bullish engulfing sun fito to ko da sun yi

niyyar sayarwa duk da faɗuwar da farashin coin ɗin ke yi, nan take sai su bar sayarwar domin sun sani bayyanarsa ishara ce da tashin farashi.

Bearish Engulfing

Bearish engulfing tagwayen candles ne babba da karami, suna bayyana a lokacin da farashi ke tashi (uptrend) a matsayin alamar da ke nuna saukar farashi sosai na zuwa. A bearish engulfing, karamin candle ɗin shi ne kore (bullish) yayin da babban kuma shi ne ja (bearish), sabanin bullish engulfing da babban ne koren candle shi kuma karamin ja.

Kalmar "Engulfing" tana nufin "Rinjaye" bearish engulfing na nufin babban candle ɗin ya rinjaya karamin, karamin na nuni ne da nauyin masu saye yayin da babban ke nuni da nauyin masu sayarwa.

A lokacin da masu saye su ke ta sayen adadin coin mai yawa sai farashi ya ci gaba da tashi har farashin ya kai adadin da ya kayatar da masu sayarwa suka ga idan sun sayar sun ci riba, ai kuwa sai su dinga sayarwa har adadin wanda su ke sayarwar ya fi wanda a ke saye, a daidai wannan lokacin sai bearish engulfing su bayyana a matsayin alamar da ke nuni da saukar farashi na zuwa.

Yan kasuwa na amfani da bayyanar bearish engulfing a matsayin lokacin da ya kamata su sayar da coin dɓinsu idan sun riga sun saya, idan kuma ba su saya ba to sai su jinkirta sayen har sai farashin ya gama sauka.

Tweezer Candlestick Pattern

Tweezer pattern tagwayen candles da ke bayyana a matsayin alamar da ke nuni da canjawa tafiyar farashi. Suna bayyana ne a saman tafiyar farashi (uptrend) ko kuma a kasan tafiyar farashi (downtrend). Idan sun bayyana a saman tafiyar farashi ana kiran su da "Tweezer top" yayin da idan sun bayyana a kasan tafiyar farashi kuma ana kiran su da "Tweezer bottom"

Tweezer Top

Tweezer top tagwayen candles ne *daya* ja *daya* kuma kore, suna bayyana ne a *karshen* tafiya farashi yayin da farashin ke tashi (uptrend). Galibi, candle na farko koren candle (bullish) yana fin jan candle *din* girma da kaɗan, gaba *dayansu* suna fita babu wuya a saman jikinsu amma suna da wutsiya a *kasansu* (lower shadow). Bayyanarsu guda biyun a lokacin da farashi ke tafiya sama alama ce ta canjawa tafiya farashi, daga tashin farashi zuwa saukar farashi (bearish reversal).

Yan kasuwa na amfani da bayyanar tweezer top a matsayin alamar da ke nuna masu lokacin da ya kamata su sayar da coin *dinsu* kafin farashi ya fara rikita. Idan kuma ba su riga sun sayi coin *din* ba, to suna jinkirta saye domin bayyanar tweezer top sako ne mai *karfi* na saukar farashi, don haka za su bari sai farashin ya sauka sannan su sayar.

Tweezer Bottom

Su ma tweezer bottom kamar tweezer top su ke, sai dai tweezer bottom suna fita ne a karshen tafiyar farashi a lokacin da farashi ke sauka (downtrend). A tweezer top pattern koren candle shi ne ke a farko, yayin da a tweezer bottom kuma jan candle shi ne a farko kuma yana fin koren candle din da ke bin sa girma. Idan sun bayyana a downtrend suna dauke da sako mai karfi na tashin farashi.

Yan kasuwa na amfani da bayyanar tweezer bottom a matsayin alamar da ke nuna masu lokacin da ya kamata su sayi coin kafin farashi ya fara karuwa. Idan kuma sun riga sun sayi coin din to suna jinkirta sayarwa domin bayyanar tweezer bottom sako ne mai karfi na tashin farashi, don haka za su bari sai farashin ya tashi sannan su sayar.

Harami Candlestick Pattern

Harami candlestick pattern tagwayen candles ne guda biyu da ke fitowa a karshen tafiyar farashi a matsayin alamar da ke nuni da canjawa tafiyar farashi. Kalmar "Harami" kalma ce ta yaren Japanese wanda ke nufin "Mace mai ciki" ko me ya sa aka kira waɗannan tagwayen candles ɗin da mace mai ciki? Saboda siffarsu na yin kama da mace mai cikin sakamakon candle na farko dogon candle ne sannan candle na biyu kuma gajeren candle ne, idan ka kalle su za ka ga sun yi kama siffar mace mai ciki.

Bullish Harami

Bearish Harami

Harami pattern suna bayyana ne a karshen tafiyar farashi a lokacin da farashin ke tashi ko kuma lokacin da farashi ke sauka. Idan sun bayyana a lokacin da farashi ke tashi to ana kiransu da "Bearish Harami" idan

kuma sun bayyana a lokacin da farashi ke sauka kuma ana kiransu da "Bullish Harami"

Bullish Harami

Bullish Harami suna bayyana ne a lokacin da farashin coin ke faɗuwa a matsayin alamar da ke nuni da canjawa tafiyar farashi daga faɗuwa zuwa tashi (bullish reversal). Bullish Harami na kunshe da babban candle ja (bearish) da kuma guntun koren candle (bullish).

Yan kasuwa na amfani da bayyanar bullish Harami a matsayin alamar da ke nuna masu farashi zai canja alkibla daga faɗuwa kasa zuwa tashi sama, don haka sai su yi sauri su sayi coin. Idan kuma sun riga sun sayi coin ɗin, bayyanar bullish Harami na yi masu bishara ne da samun karuwa.

Bearish Harami

Bearish Harami tagwayen candles ne guda biyu; ɗaya babban koren candle, ɗaya kuma karamin candle ja. Suna bayyana ne yayin da farashi ke yin sama a matsayin alamar da ke nuni da canjawa tafiyar farashin daga tashi ya koma sauka (bearish reversal).

Yan kasuwa na amfani da bayyanar bearish Harami a uptrend a matsayin alamar da ke nuna masu farashi zai canja alkibla daga tashi sama zuwa sauka kasa, don haka sai su yi sauri su sayar da coin dīnsu. Idan kuma ba su riga sun sayi coin dīn ba, bayyanar bearish Harami gargadi ne akan kada su saya domin farashin na gab da rikitowa.

Dark Cloud Cover Candlestick Pattern

Dark cloud cover tagwayen candles ne da ke bayyana lokacin da farashi ke yin sama (uptrend), bayyanarsu bishara ce ta saukar farashi. Yayin da suka bayyana suna nuni da cewa masu saye sun rinjayi masu sayarwa a farko, sakamakon masu yin trading suna ta sayen coin dīn. Matakin da farashin ya kai ya gamsar da Yan kasuwa sai suka yanke hukuncin sayarwa domin su yi taking profit, adadin coin dīn da Yan kasuwa suka dinga sayarwa sai ya rinjayi adadin da masu saye su ke saye, a dalilin haka farashin zai rikito.

Dark cloud cover na kunshe da candles guda biyu dogaye, na farkon koren candle yayin da na biyu kuma jan candle. Suna fitowa ne daya a kasa daya a sama kamar dai yadda zaku gani a hoton da ke kasa.

Yan kasuwa na amfani da bayyanar dark cloud cover a matsayin alamar da ke nuna masu saukar farashi na nan zuwa. Saboda haka, idan suka ga dark cloud cover sun bayyana a karshen tafiyar farashi lokacin da farashi ke hawa suna gaggauta sayar da coin dɪnsu domin sun sani bayyanar su alama ce ta farashi zai rikito kasa sosai. Idan kuma ba su riga sun sayi coin dɪn ba to suna jinkirta saye har sai faɗuwar farashin ta faru sannan su saya a farashi mai sauki.

Piercing Candlestick Pattern

Piercing tagwayen candles ne da ke bayyana a karshen tafiyar farashi a lokacin da farashin ke sauka, bayyanar su alama ce ta canjawa tafiyar farashi daga faɗuwa ya koma tashi.

Piercing candlestick patterns na kunshe da candles guda biyu; bullish candle da kuma bearish candle kamar dai yadda dark cloud cover su ke. Bambancin su piercing suna bayyana ne a downtrend yayin da dark cloud cover kuma suna fitowa ne a uptrend, piercing na nuni ne da tashin farashi yayin da dark cloud cover na nuni ne da saukar farashi. Bugu da kari, a dark cloud cover pattern koren candle shi ne a farko yayin da a piercing kuma jan candle shi ne a farko.

Kamar yadda Yan kasuwa ke amfani da bayyanar dark cloud cover a wajen fahimtar lokacin da ya kamata su sayar da coin, haka kuma suna amfani da piercing wajen fahimtar lokacin da ya kamata su sayi coin. Lokacin da farashin coin ke sauka sai kuma piercing candlestick suka bayyana a farshen tafiyar farashin, to suna nuni ne da cewa gugun masu saye sun shigo kasuwa kuma suna ta saye har adadin da su ke saye ya rinjayi adadin da a ke sayarwa, saboda haka farashin zai tashi sosai kamar babu gobe.

Triple Candlestick Patterns

Triple candlestick patterns salo ne na yin amfani da bayyanar candles guda uku a tafiyar farashi domin fahimtar sakon da su ke isarwa. Masu gudanar da technical analysis su kan yi duba izuwa bayyanar candle daya kuma su fahimci alamar da ya ke nunawa, idan candle din ya wuce wani candle din kuma ya bayyana su kan iya fahimtar alamar inda farashi ya karkata ta hanyar kallo izuwa candles din guda biyu. Haka zalika, su kan iya fahimtar farashi ta hanyar yin duba izuwa candle guda uku wadanda idan sun bayyana a jere to suna nuni ne da wata alama, wannan shi a ke kira da "Triple candlestick patterns"

Best Triple Candlestick Patterns

A kwai nau'inkan triple candlestick da dama, sai dai za mu yi bayani ne kawai akan guda biyu da suka fi shahara kuma aka fi amfani da su a kasuwar cryptocurrency. Ga su kamar haka:

- Morning star pattern
- Evening star pattern

Morning Star Candlestick Pattern

Morning star candles ne guda uku da su ke bayyana a karshen tafiyar farashi a lokacin da farashin ke sauka (downtrend), bayyanarsu na nuni ne da tashin farashi.

Yayin da farashi ke sauka a hankali a hankali, Yan kasuwa na rasa tabbaci akan mai zai faru, kasancewar farashin bai sauka da yawa ba, sai su ki sayar da coin din su, da yawan su ma suna ficewa daga kasuwar, a dalilin haka adadin masu sayarwa zai ragu yayin da masu saye dama suna jiran su ga farashin ya sauka sosai domin su saya, amma ganin yadda farashin ke sauka a hankali sai su yanke hukuncin saye. A lokacin da su ke saye ne morning star ke bayyana a matsayin alamar tashin farashi.

morning stars na kunshe da candles guda uku; manya biyu da dan karami a tsakiya, galibi candle din farko ya kan zama jan candle, candle na biyu ma ya kan zama jan candle yayin da candle na uku ya kan zama koren candle (bullish).

Bayyanar morning stars na yi wa Yan kasuwa ishara da tashin farashi sosai. A lokacin da farashi ke sauka Yan kasuwa musamman masu yin short-term trading za su fara neman inda za su sai ta Stop Loss na su domin rage yin asara da yawa, kafin su sayar idan sun ga morning star sun bayyana to suna samun karfin gwiwar cewa farashi zai tashi sosai

su samu riba. Yan kasuwa kuma waɗanda ba su riga sun sayi coin ɗin ba, idan sun ga morning star to suna amfani da karin maganar nan ta Hausawa "Da safe a ke kama fara" ai kuwa sai su yi sauri su sayi coin ɗin domin ya daga su sayar su samu riba.

Evening Star Candlestick Pattern

Evening star candles ne guda uku da ke bayyana a lokacin da farashi ke tashi, bayyanarsu alama ce ta faɗuwa farashi na zuwa.

Bayyanar evening star na faruwa ne a lokacin da masu saye suka rinjayi masu sayarwa sai farashin coin ɗin ya dinga karuwa gwargwadon tasirin adadin da a ke saye. Lokacin da masu saye kuma suka gama sayen adadin da su ke buƙata sai adadin da a ke saye ya ragu yayin da su kuma masu sayarwa suna ci gaba da sayarwa har adadin da su ke sayarwa ya kamo adadin da a ke saye, a wannan yanayi sai Doji ya bayyana (ɗan karamin candle ɗin da ke tsakiya). Bayyanar wannan candle ɗin gargadi ne ga Yan kasuwa, daga nan sai babban Jan candle ya fara bayyana, da zarar ya bayyana kuwa to evening star ya pattern ya gama tabbata daga nan abin da zai biyo baya shi ne saukar farashi.

Evening star na kunshe da candles guda uku kamar morning star, bambancin su evening star suna bayyana ne a uptrend yayin da morning star su ke bayyana a downtrend. Evening star na nuni ne da farashi zai sauka yayin da morning star kuma suna nuni da tashin farashi. A evening star candle na farko bullish ne, ɗan karamin candle din tsakiya da candle na uku dukkaninsu bearish candles ne.

Idan farashi na karuwa a hankali, Yan kasuwa na sakankancewa tare da jiran farashin ya ci gaba da hawa ta yadda za su samu riba sosai, da zarar sun kalli evening star pattern ya bayyana to yana masu gargadi ne da su sayar kafin farashi ya ci gaba da sauka. Yan kasuwa na amfani da evening star a matsayin alamar da ke nuna masu lokacin da ya kamata su sayar da coin ɗin su. Idan kuma ba su saya ba, yana nuna masu kada

su saya domin farashinsa zai sauka ta yadda za su iya saye a farashi mai sauki.

Technical Indicators

Domin mai karatu ya fahimci wannan bayanin a fayyace, akwai bukatar mu yi fashin baki akan ma'anonin kalmomin guda biyu (technical da indicators) domin su fara haskakawa mai karatu hanyar fahimtar cikakkiyar ma'anarsu.

- **Technical:** na nufin wani abu na hikima wanda aka sarrafa shi domin saukake fahimtarsa ko aikinsa. Misali: calculator. Maimakon amfani da formular lissafi domin gano amsar lissafin da a ke son ganowa, sai aka kirkiri calculator domin ta ba ka irin amsar da za ka samu idan ka yi amfani da formular ganowa cikin sauki ba tare da ka wahala sosai ba. Amsar da za ka samu idan ka yi aiki da formula iri daya ce da wadda calculator zata ba ka. A wannan yanayi, calculator masarrafi ce ta gano amsar lissafi domin saukake maka shan wahalar amfani da formula.
- **Indicators:** wannan jami'i ne na kalmar "Indicator" wadda ke nufin "Manuni" watau abin da ke nuna maka sakon da baya a bayyane. Duk abin da kallonsa zai sanya ka fahimci wani sako ba tare da an fada maka cikakken sakon ba, to ana iya kiransa da "Indicator"

Technical indicators manunai ne na fasaha da su ke taimakawa mai bincike wajen fahimtar kowanne motsi da farashi ke yi tare da yin nuni ga alamomin alkiblar da farashin ke fuskanta. technical indicators tamkar; fatanya ce ga Manomi, alkami ga Marubuci, madubi ga Direba sannan rariya ga mai yin tankade. Duk Dan kasuwar da ke son gudanar da binciken fasaha to technical indicators su ne kayan aikin da za su taimaka masa wajen gudanar da bincikensa cikin nasara.

Types of Technical Indicators

Candlestick chart na dauke da technical indicators da a ke amfani da su wajen kara fahimtar tafiyar farashi tare da tantance alamomi domin samun ingantaccen bayani kuma sahihi wanda idan aka yanke hukunci da shi ba za'a samu cikas ba. technical indicators sun kasu gida biyu:

1. Lagging indicators
2. Leading indicators

Lagging Indicators

Lagging indicators nau'inkan indicators ne da ke yin nuni game da yadda farashin coin ya kasance a baya. Hakan na nufin ba sa bayar da labarin nawa coin zai kai a gaba, maimakon haka suna nuni ne da bayanana da suka gabata na tafiyar farashin coin da yanayin tafiyar da ya yi.

Tsarin rayuwa ne cewa wani abu na faruwa ne sanadiyyar faruwar wani abu a wani guri ko kuma a wani lokaci. Shi ya sa lagging indicators ke nuna mana abin da ya faru wanda sanin abin da ya farun ne zai sanya mu fahimci abin da zai iya faruwa a gaba. Ta hanyar amfani da lagging

indicators mai bincike zai iya gane farashin da coin ya kai a baya da yadda ya dinga hawa da sauka.

Leading Indicators

Leading Indicators nau'inkan indicators ne da ke nuni da alamar faruwar motsin farashin coin kafin ya wakana ko a lokacin da ya ke wakana. Hakan na nufin suna mana nuni ne game da yadda farashin coin ke tafiya. Ta hanyar amfani da leading indicators mai bincike zai iya fahimtar farashin coin zai ci gaba da hawa ne ko kuma zai sauko.

Different Between Lagging And Leading Indicators

Domin mai karatu ya fahimci bambancin da ke tsakanin lagging da Leading indicators, bari mu bayar da wani sassaukan misali.

Yayin da kake tafiya kana amfani da kafafi ne guda biyu watau kafar dama da kafar hagu. Idan ka sauke kafar dama to babu makawa za ka daga kafar hagu matuƙar dai tafiya kake yi ba tsayawa chak ka yi guri daya ba, to dole ka sauke kafa daya sannan ka daga kafa daya. Kafar da ka sauke ita ce a bayan kafar da za ka daga. Kafar da ka daga ita ke nuna inda za ka dosa, yayin da kafar da ka aje ita ke nuna inda ka fito. Kafar da ka ajiye ita ce "Lagging" yayin da kafar da ka daga domin saukewa gaba ita ce "Leading"

Bugu da kari, idan ka yi duban tsanaki ga me tuki keke za ka ga: idan ya taka feda domin tafiya, tayar baya ce ke fara motsawa kafin tayar gaba ta motsa, amma tayar gaba ita ke nuna inda mai keken zai nufa. Kamar haka, lagging indicators su ke nuna yadda farashin coin ya kasance, yayin da leading indicators kuma ke nuna inda farashin ke fuskanta.

Best Technical Indicators

A kwai nau'inkan technical indicators daban-daban da a ke amfani da su wajen gudanar da technical analysis. Za mu yi bayani ne akan indicators biyar masu saukin fahimta da shahara wanda aka fi amfani da su wajen gudanar da technical analysis a kasuwar cryptocurrency:

- ❖ Moving averages
- ❖ Bollinger bands
- ❖ Volume indicator
- ❖ Moving average convergence/divergence (MACD)
- ❖ Relative strength index (RSI)

Moving Averages

Moving average indicator ne da a ke amfani da shi wajen gane matsakaiciyar tafiyar da farashi ya yi a lokutan da suka gabata don auna alkiblar da farashin ke fuskanta a yanzu. Yana daya daga cikin rukunnin lagging indicators da ke nuni da motsin da farashi ya yi a baya domin fahimtar alkiblar da farashin ke fuskanta a yanzu.

Moving average layi ne da ke dauke da siffar tafiyar farashi na hawa da sauka domin saukakewa. Yan kasuwa fahimtar yadda farashin ke tafiya, kasancewar gane taswirar tafiyar farashi ta hanyar yin duba da bayyanar candles yana da ɗan rikitarwa. Galibi moving average suna bayyana ne a kasan tafiyar farashi kamar yadda ya ke a hoton da ke kasa.

Layukan moving averages suna bayar da fasalin tafiyar farashi ne cikin matsakaiciyar siffa ta yadda mai bincike zai fahimci hawa da saukar farashin cikin sauki ba tare da rikitarwa ba.

Misali: Na fito daga gidana na nufi kasuwa, yayin da na ke tafiyar ina shan kwana a duk inda na haɗu da kwana, ina kuma tsayawa wasu gurare akan hanya har na isa kasuwar. Ana buƙatar ɗaukar taswira tafiyar da na yi daga gidana zuwa kasuwa. Idan aka ce za a dauki duk inda kafata ta taka har zuwa kasuwar to za'a ga zanen akwai rikitarwa sakamakon; kwane-kwane, juye-juye tare da biye-biyen da na dinga yi kafin na isa kasuwar. Maimakon zana yanayin tafiyata sak, sai a zana matsakaiciyar tafiyar da nayi. Zanen matsakaiciyar tafiyar da nayi kuwa, zai bayar da siffar tafiyata a yanayi mara rikitarwa, wannan shi a ke kira da "Moving averages"

Moving average tamkar inuwa ne ga trend, suna bin duk motsin da farashi ya ke yi kamar yadda inuwa ke binka idan kana tafiya da rana. Galibin mutanen karnin baya suna amfani da inuwa wajen auna tafiyar lokaci da lokutan sallah. Misali: idan rana ta zo tsakiya (Istawa), tsayin inuwar mutum zai yi dai-dai da tsayinsa, hakan ke nuna mukutarin Azahar ya shiga. Kamar haka a ke amfani da moving averages wajen gane alkibloli da hawa da saukar farashi: idan trend ya wuce moving

average hakan na nufin bullish, idan kuma trend ya yi kasa da moving averages hakan na nufin bearish.

Types of Moving Average

Moving averages sun kasu kashi biyu:

1. Simple moving average (SMA) or moving average (MA)
2. Exponential moving average (EMA)

Simple Moving Average

Wannan nau'in moving average ne da ke lissafa adadin closing arice na kowanne candle sannan ya bayar da siffar matsakaiciyar tafiyar da farashin ya yi a lokacin da aka zaba.

Farashi na tafiya ne bisa la'akari da opening price, closing price, lower price da kuma higher price. Shi kuma simple moving average na daukar closing price na kowane candle ne sai ya bayar da lissafin matsakaiciyar tafiyar da farashin ya yi.

How To Calculate A Simple Moving Average

Kafin fara lissafa simple moving average na farashin coin, Dan kasuwa zai zaɓi adadin kwanaki a matsayin ma'aunin da ya ke son gane moving average na farashin coin ɗin.

Yayin lissafin SMA, ana haɗe lissafin adadin farashin kwanakin da aka zaɓa sai a tara su sannan a raba su da adadin yawan kwanakan.

$$SMA = \frac{A1 + A2 + + An}{n}$$

Misali:

Za mu lissafa moving average ɗin A-coin na kwana biyar. Za mu tara adadin closing price na A-coin na tsawon kwana biyar ɗin sannan mu raba shi gida 5:

$$A1 = 12$$

$$A2 = 13$$

$$A3 = 13$$

$$A4 = 14$$

$$A5 = 13$$

A1 na wakiltar closing price na kwana ɗaya haka ma ragowar kowacce na wakiltar closing price na ranakunsu.

$$\begin{aligned} SMA &= \frac{12 + 13 + 13 + 14 + 13}{5} \\ SMA &= \frac{65}{5} \\ SMA &= 13 \end{aligned}$$

Wannan fah sai idan mutum zai lissafa da kansa ne zai yi amfani da wannan formula dīn, amma ta hanyar amfani da chart da ke a kasuwannin cryptocurrency babu bukatar ka lissafa da kanka domin layin moving average dīn na tafiya ne a lissafe, abin da kawai kake bukata shi ne; ka zaɓi adadin kwanakin da kake son amfani da shi a matsayin time-frame naka kamar yadda ya ke a teburin da ke kasa:

MOVING AVERAGE PERIOD	TRADING STYLES
5-8-13 days	Scalping
20-21 days	Short-term Trading
9-10 days	Day Trading
20-21 days	Swing Trading
50-100-200 days	HODling

Exponential Moving Average (EMA)

Bambanci da ke tsakanin SMA da EMA sauri ne kawai. EMA ya fi SMA saurin nuna canjawar tafiyar farashi, hakan na nufin da zarar farashi ya fara sauka EMA ne ya ke fara nunawa, shi kuma SMA ya kan yi jinkirin nuna canjawar tafiyar farashin da ya faru yanzu.

Yan Crypto na amfani da moving averages domin samun alamomi da yawa akan chart. Suna amfani da alamomin wajen yanke shawarar akan lokaci da ya kamata su sa yi coin (entry) da lokacin da ya kamata su sayar (exit). Akwai alamomi da yawa da Yan Crypto ke samu ta hanyar amfani da moving averages ga wasu daga ciki:

- Support and resistance levels

- Moving average crossovers
- Price breakouts

Support Level

Support level mataki ne na tafiyar farashi da ke nuna farashin coin ya tsaya ba zai ci gaba da faɗuwa ba. Idan farashi ya sauko zuwa matakin support, yana nuni ne da cewa farashin ya kai makurar faɗuwarsa a wannan lokacin, daga nan kuma sai dai ya tashi.

Resistance Level

Resistance level mataki ne na tafiyar farashi wanda ke nuna farashin coin ya kai makurar tashinsa a wannan lokacin, daga nan sai dai ya fara saukowa kasa. Idan farashi ya motsa sama har zuwa resistance level to alama ce ta farashin zai iya gangarowa.

Akwai hanyoyi da dama da a ke bi wajen gane support and resistance, hanya mafi sauƙi ita ce: ta hanyar amfani da moving averages. Idan moving average ya tsaya a kasan trend, hakan na nufin farashin coin ɗin yana a matakin support level. Idan kuma moving average ya tsaya a saman trend, hakan alama ce ta farashin yana a matakin resistance level.

Support and resistance alamomi ne da Yan kasuwa suka fi amfani da su wajen yanke shawara akan lokacin sayen cryptocurrency da lokacin sayarwa. Idan suka ga farashi ya kai resistance level, sun sani farashin zai gangaro ne daga nan, to sai su sayar da coin dɓinsu tun kafin ma farashin ya fara gangarowa. Idan kuwa suka ga farashi ya sauka zuwa support level, sai su sayi coin a lokacin tunda sun sani farashin coin ɗin ya gama saukar da zai yi, daga nan kuma sai dai ya fara tashi, saboda haka sai su saya kafin ma farashin ya fara tashi .

Price Breakout

Breakout na faruwa ne idan moving average ya yanka trend, hakan yana nuni ne da cewa farashin zai ci gaba da tafiya a yadda ya ke. Idan moving average ya yanka trend a lokacin da farashi ke sauka, to hakan alama ce ta farashin zai ci gaba da sauk. Idan kuma moving average ya yanka trend a lokacin da farashi ke hawa, to hakan alama ce ta farashin zai ci gaba da hawa.

Moving Average Crossovers

Crossover na ɗaya daga cikin shaharrun karɓaɓɓun alamomi da Yan kasuwa ke amfani da su musamman wajen gane lokacin da ya dace su sayi coin da lokacin da ya dace su sayar da coin dɓinsu.

1: Idan Short-term moving average ya tsallaka long-term moving average yana nuni ne da tashin farashi. Misali, Dan kasuwa ya saita moving average guda biyu a chart dinsa; na farko ya sanya 50-day MA, na biyu ya sanya 200-day MA. Idan 50-day MA (short-term) ya tsallaka 200-day (long-term) hakan alama ce ta farashi zai tashi.

Short-term moving average ya kasance shi ne a saman long-term moving average kamar yadda ya ke a hoton da ke kasa.

2: Idan long-term moving average ya tsallaka short-term moving average kuma, hakan na nuni ne da saukar farashi. Misali, Dan kasuwa ya saita moving average guda biyu a chart dinsa; Na farko ya sanya 50-day MA, na biyu ya sanya 200-day MA. Idan 200-day MA (short-term) ya tsallaka 50-day (long-term) hakan alama ce ta farashi zai sauka.

Long-term moving average ya kasance shi ne a saman short-term moving average kamar yadda ya ke a hoton da ke kasa.

Bollinger Bands

Bollinger band indicator ne da a ke amfani da shi wajen fahimtar halin da kasuwa ke ciki domin gane farashin coin ya daidaita ko kuma ya yi tashin gwauron zabi sakamakon **volatility**.

- **Volatility:** idan kadara na cikin volatility hakan na nufin tana a yanayi na rashin tabbacin tsayayyen farashi, a kowanne lokaci farashinta na iya tashin gwauron zabi, kuma a kowanne lokaci farashinta na iya faduwa kasa warwas.

Kamar yadda kumfa ke kumbura a lokaci ɗaya sannan kuma ta dinga bajewa a hankali har ta koma babu ita, haka kadarar da ke da higher volatility ta kan yi tashin gwauron zabi lokaci ɗaya, daga baya kuma ta dinga sauka har ta daidaita a farashin da ta cancanta da shi.

Idan coin yana cikin volatility hakan na nufin farashin coin ɗin ya tashi fiye da kima don haka zai iya saukowa fiye da kima a kowanne lokaci, ko kuma coin ɗin ya sauka fiye da kima don haka zai iya tashi fiye da kima. Volatility yanayi ne da ke nuna cewa kasuwa na cikin ruɗani domin komai na iya faruwa, za ka iya sayen coin a farashi mai tsada cikin

ƙanƙanan lokaci kuma ka tafka asara sakamakon ya sauko fiye da kima. Volatility na faruwa ne a dalilin overbought ko oversold.

- **Overbought:** na faruwa ne lokacin da farashin coin ya yi mahaukacin tashi lokaci ɗaya ba tare da ya dinga tashi a hankali a hankali har ya kai wannan matakin ba, hakan na faruwa ne sakamakon sayen adadi mai yawa na coin ɗin da wani ko wasu suka yi. Misali: manyan investors su kan iya sayen adadi mai yawa na coin nan take sai farashinsa ya yi mahaukaciyar hawa, bayan wani lokaci kuma sai farashin coin ɗin ya dinga sauka a hankali a hankali. Sannan Yan kasuwa ma su kan haɗa kai su sayi adadi mai yawa na coin a lokaci ɗaya domin su ɗaga farashinsa, bayan wani ɗan lokaci kuma sai su sayar su ci riba, waɗanda kuma suka sayi coin ɗin a lokacin da farashinsa ya tashi idan ba su sayar ba su kuma su yi asara.
- **Oversold:** na faruwa ne idan farashin coin ya yi mahaukaciyar sauka a lokaci ɗaya ba tare da ya dinga sauka a hankali har ya kai wannan matakin ba, hakan na faruwa ne sakamakon sayar da adadi mai yawa na coin ɗin da wani ko wasu suka yi. A kan samu babban investor wanda ya ke da adadi mai yawa na coin sai ya sayar da adadin a lokaci ɗaya, hakan sai ya janyo mummunar faɗuwar farashin coin ɗin a lokaci ɗaya.

Bollinger bands na ɗaya daga cikin nau'ikan lagging indicators: yana amfani da yadda farashi ya kasance a baya wajen auna halin da farashin ya ke yanzu. Hakan na nufin yana kimanta yanayin da farashi ya kasance a baya ne domin gane farashin na a halin overbought ko a oversold. Bollinger bands na ƙunshe da layuka guda uku:

1. Upper band

2. Middle band
3. Lower band

Ta hanyar amfani da bollinger bands mai gudanar da technical analysis zai iya gane cewa kasuwa tana cikin volatility ko kuma ba ta ciki. Bayan haka, Yan Crypto na amfani da bollinger bands wajen gane abubuwa da dama, a ciki akwai:

- Overbought and oversold
- Support and resistance
- Bollinger band squeeze

Overbought And Oversold

Bollinger band na ɗauke da layuka guda uku; ɗaya a sama, ɗaya a tsakiya sai kuma ɗaya kasa. Layin tsakiya simple moving average ne wanda mu ka yi bayaninsa a baya, yayin da layin sama da layin kasa su ne ke bayar da alamar overbought da oversold.

Idan uptrend ya taɓa upper band hakan na nufin overbought. Idan kuma downtrend ya taɓa lower band to hakan na nufin oversold, kamar yadda ya ke a hoton da ke kasa.

Hoton da ke sama idan ka lura za ka ga tafiyar farashi ya taɓa layin upper band wanda hakan na nuni ne da cewa farashin yana a halin overbought. Kamar haka, da tafiyar farashi daga kasa zai taɓa lower band kuma, to shi kuma na nuni ne da cewa farashin na a halin oversold. Amma idan tafiyar farashi bai taɓa upper band daga sama ba, sannan bai taɓa lower band daga kasa ba to hakan na nufin babu volatility.

Support And Resistance

Yan kasuwa na amfani da bollinger bands wajen gane support level da kuma resistance level: Idan farashi ya taɓa upper band hakan na nufin farashin yana a matakin resistance level, yayin da idan farashin ya taɓa lower band kuma, yana nuna farashin yana a matakin support level kamar yadda zaku gani a hoton da ke kasa.

Yan kasuwa na amfani da wannan wajen saita lokacin saye da kuma lokacin sayar da coin: Idan suka ga trend ya taba lower band, Yan kasuwar na sayen coin a daidai lokacin saboda sun san farashin yana a support level. Idan kuma suka ga trend ya taba upper band, to suna sauri su sayar da coin dɪnsu saboda sun sani farashin na a matakin resistance level.

Bollinger Squeeze

Bollinger squeeze na faruwa ne yayin da farashin coin ya ke a halin low volatility, sai upper band da lower band su matse middle band. Idan hakan ta faru, to alama ce ta cewa farashin coin dɪn yana a cikin yanayin tsafta sakamakon baya cikin volatility.

Yan kasuwa na amfani da bollinger squeeze a matsayin lokacin da ya fi dacewa da a sayi coin. Dan kasuwar da ya sayi coin a wannan yanayin to ya sayi coin dɪn ne a farashin da ya fi chanchanta da kimar coin dɪn.

Moving Average Convergence /Divergences (MACD)

Moving average convergence/divergence (MACD) manuni da a ke amfani da shi wajen gane chanje-chanje game da yadda farashi ke tafiya

a kasuwa. MACD na tattaro bayanai ne daga simple moving average da exponential moving average sannan ya yi nuni da yadda farashin ke tafiya a halin yanzu.

Domin mai karatu ya fahimci yadda abin ya ke, bari mu yi fashin bakin kalmomin guda biyu, hakan zai taimakawa mai karatu wajen kara fahimtar MACD a fayyace.

- **Convergence:** na nufin kamanceceniya tsakanin abubuwa guda biyu ko fiye da haka ta fuskar; yanayi, yawa, girma, karfi, inganci da dai sauransu. Idan abubuwa guda biyu ko fiye da haka mabambanta, aka samu sun yi kama da juna ta wani guri, hakan a ke kira da "Convergence"
- **Divergence:** na nufin bambancin da ke tsakanin abu biyu ko fiye da haka ta fuskar; yawa, yanayi, halayya, sauri, karfi da dai sauransu. Abubuwa iri daya amma su bambanta da juna ta wani guri, wannan shi a ke kira da "Divergence"

Bisa la'akari da ma'anonin kalmomin biyu za mu iya fahimtar cewa moving average convergence/divergence manuni ne da ke la'akari da kamanceceniya da bambancin da ke tsakanin simple moving average da exponential moving average sannan ya yi nuni da hakikanin yadda farashin ke tafiya a yanzu.

A baya mun yi bayani cewa bambancin da ke tsakanin simple moving average da exponential moving average sauri ne kawai: simple moving average yana nuna fasalin tafiyar farashi ta hanyar la'akari da closing price kadai, yayin da exponential moving average ya ke bayar da taswirar tafiyar farashi ta hanyar la'akari da opening price, lower price, closing price da higher price. Hakan na nufin exponential moving

average na fara nuna yadda farashi ke motsawa a yanzu kafin shi kuma simple moving average ya yi nuni da motsawar tafiyar farashin daga baya. Shi kuwa MACD na nuni ne da inda moving averages dɓin guda biyu suka bayar da sako iri ɗaya da kuma inda suka bambanta wajen nuni da tafiyar farashin. Idan exponential ya nuna alamar tashin farashi kuma simple average ma ya nuna alamar tashin farashi shi ma, hakan na nufin alamar tashin farashin ta na da ƙarfi tunda averages dɓin guda biyu duka sun yi nuni da hakan. To amma da ya ke exponential shi ke fara nuna motsawar farashi daga baya Simple shi ma ya nuna, kuma babu mamaki daidai lokacin da simple ke nunawa shi kuma exponential ya sake nuna alama ta gaba, kun ga kenan mai bincike ba zai iya gane cewa averages dɓin guda biyu sun nuna abu ɗaya ba. Amfanin MACD ke nan ya yi amfani da alamar da exponential ya bayar da alamar da simple moving average ya bayar idan ta zo ɗaya sai ya nuna idan kuma alamomin suka sabawa juna ma sai ya nuna.

Yayin gudanar da technical analysis ta hanyar amfani da simple moving average matsalar da za ka fuskanta shi ne: simple moving average baya nuna yadda farashin ke tafiya yanzu sai bayan farashin ya tafi sannan ya nuna yadda ya tafi, don haka ba za ka iya gane alamun farashi zai sauka ko zai tashi yanzu ba.

Shi kuma exponential moving average matsalar da za ka fuskanta yayin amfani da shi ne: yana nuna duk motsin da farashi ke yi. Yayin da farashi ke tafiya sama zai nuna maka kai kuma za ka sayi coin da tunanin farashin zai ci gaba da tafiya saman, sai bayan ka saya farashin ya canja cikin kankanan lokaci ya sauka. Duka waɗannan matsalolin MACD ya kawar da su, domin yana la'akari da alamar tafiyar farashin da simple moving average ya nuna da kuma wadda exponential moving average ya nuna, sai shi kuma ya bayar da alamun cewa farashi na tafiya da

ƙarfin da zai iya ci gaba da hawa sama ko kuma yana da raunin da zai faɗo nan kusa.

MACD kacokan na nuni ne da ƙarfin da tafiyar farashi ya ke da shi wajen ci gaba da tafiyar a yadda ya ke ba tare da faɗuwa nan kusa ba, da kuma raunin da tafiyar farashin ke da shi ta yadda duk da yana tafiya sama yanzu amma zai iya faɗowa ƙasa nan kusa. Idan farashi na yin sama kuma ya kasance duka moving average ɗin sun yi nuni da hawan farashi to MACD zai nuna cewa alamar hawan farashin na da ƙarfi, idan kuma moving average ɗaya ya nuna hawan farashi ɗayan kuma ya nuna saukar farashi to ko da farashin na hawa MACD zai nuna alamar tafiyar tashin farashin mai rauni ce, saboda haka komai zai iya faruwa. MACD na kunshe da abubuwa guda uku:

1. **MACD line:** layi ne wanda ke nuna nisan da ke tsakanin averages ɗin guda biyu (SMA da EMA).
2. **Signal line:** layi ne da ke nuni da da canjawar tafiyar farashi, yana kuma bayar da alamar a sayi coin ko kuma a sayar.
3. **Histogram:** na yin nuni ne da bambancin da ke tsakanin MACD line da signal line.

Yayin gudanar da technical analysis da MACD, MACD Line da kuma signal line su ne a ke la'akari da su wajen gane alkiblar da farashin ke fuskanta, yayin da Histogram kuma ana amfani da shi ne a matsayin ma'aunin gane karfin tafiyar.

Yan kasuwa na amfani da MACD domin gane lokacin da ya kamata su sayi coin da lokacin da ya kamata su sayar: idan MACD line ya tsallaka signal line ta sama, to hakan alama ce ta a sayi coin din domin farashinsa zai tashi. Idan kuma MACD line ya tsallaka signal line ta kasa, to hakan na nuni ne da a sayar da coin din domin farashinsa zai fara sauka.

Histogram kuma yana nuni ne da karfin tafiyar farashin: idan farashi na sauka kaƙan zai nuna yanka kaƙan, idan kuma yana sauka sosai to zai nuna babban yanka. yana nuna karfin alamar tafiyar farashin ne kamar yadda batiri ke nuna karfin caji ta hanyar nuna yanka-yanka, kowanne yankan batir na nuna karfin caji da ke cikin batarin.

MACD na daga cikin indicators din da Yan kasuwa suka fi amfani da shi wajen samun alamar saye ko sayarwa (signal), saboda yana fayyace tafiyar farashi ta hanyar nuna karfin tafiyar farashin ko kuma rauninta.

MACD na ɗaya daga cikin nau'ikan leading indicators da su ke nuni da yadda farashi ke tafiya yanzun da bayar da alamar da za'a iya amfani da ita a kintato abin da zai iya faruwa gaba. Masu yin short-term trading su

ne suka fi amfani da MACD saboda yana nuni ne da abin da ke faruwa yanzu, amma masu yin long-term trading ba su cika amfani da shi ba.

Relative Strength Index (RSI)

Relative strength index manuni ne da ke la'akari da tafiyar farashi wajen gano mizanin girman overbought da oversold.

Kamar yadda muka yi bayani a baya, overbought yanayi ne da ke sanya farashi yai mahaukacin tashi a cikin kanƙanan lokaci sakamakon sayen adadin mai yawa na coin dīn da aka yi, yayin da oversold kuma yanayi ne da ke sanya farashi ya sauka fiye da kima sakamakon sayar da adadin coin dīn da aka yi fiye da kima cikin kanƙanan lokaci.

A matsayinka na 'Dan kasuwa, farashi shi ne alkiblarƙa a ko da yausha. Domin ka samu nasara a kasuwancinka, akwai buƙatar ka dinga bincikar haƙikanin dalilin da farashi ya ƙaru sosai ko ya sauka sosai musamman ƙaruwa ko saukar da ta wuce kima. Ko a kasuwar zahiri, idan ka je sayen kaya ka iske kayan sun ƙaru fiye da kima dole ka tambayi dalilin ƙaruwar domin fahimtar ko dalilin ƙaruwar farashin dalili ne mai dorewa ko kuma dalili ne na wucin gadi. Idan farashin kayan ya ƙaru ne bisa dalili na wucin gadi, to za ka sayi adadin da ka san za ka iya sayarwa ne cikin lokaci kafin kayan su dawo yadda su ke. Sannan idan farashin kayan sun sauka sosai ne bisa wani dalili na wucin gadi, hakan zai ba ka damar sayen kayan da yawa domin ka san farashin kayan zai koma yadda ya ke ba da jimawa ba.

Duk da al'adar farashi ne ya hau a wani lokaci sannan ya sauka a wani lokacin, amma ta ya za ka gane cewa wannan hawan da farashin ya yi **overbought** ne ko kuma saukar da farashin ya yi **oversold** ne?

A kasuwar cryptocurrency Yan kasuwa suna amfani da RSI wajen gane overbought da oversold da kuma mizanin girman kowanne daga cikin su. RSI na auna matakin motsin farashi tun daga 0% harzuwa 100%, sannan ya iyakance matakin da idan farashi ya kai a lokacin to ya kai ne saboda overbought ko saboda oversold. Sannan yana bawa Yan kasuwa damar sanin matakin da oversold ɗin ko overbought ya ke: idan farashi ya wuce RSI 70, to hakan na nuna farashin na cikin yanayin overbought. Daga 70 zuwa 100 kowacce lambar RSI ya tsaya yana nuna matakin overbought ɗin ne. Idan farashi ya sauka kasa da RSI 30 kuma, hakan na nufin saukar farashin na da nasaba da oversold, daga 30 zuwa 0 duk inda RSI ya tsaya, to yana nuni ne da matakin da oversold ɗin ya ke.

Hoton da ke sama: chart ne na BTC /BUSD a kasuwar Binance. Hoton ya nuna cewa farashin BTC ya tashi +3.5% wanda tashin farashin yana da nasaba ne da overbought, girman overbought ɗin har ya kai RSI-74.97. A wannan yanayin sayen LTO kan iya zama ganganci saboda daga nan zuwa kowanne lokaci farashinsa zai iya faɗuwa sosai.

Hoton da ke sama: chart ne na BTC/BUSD a kasuwar Binance. Chart ɗin na nuni da BTC ya sauka **-2.12%** wanda saukar farashin na da nasaba ne da oversold, matakin oversold ɗin har ya kai RSI-28.77. A wannan yanayin sayen OMG na iya zama abin da ya dace domin daga nan zuwa kowanne lokaci farashin nasa zai iya tashi.

ABIN LURA

Mafi yawan Yan kasuwa sun fi sayen coin lokacin da farashinsa ke hawa fiye da lokacin da farashinsa ke sauka. Hakan na jaza masu mummunar asara sakamakon saukar farashin coin ɗin jim kadan bayan sun saya. Idan ka shiga kasuwa da niyyar sayen coin, akwai buƙatar ka fahimci halin da farashin coin ɗin ya ke ciki: idan farashin coin ɗin karuwa ya yi maye dalilin karuwar farashin? Idan kuma sauka ya yi ka san dalilin saukarsa. Ta hanyar amfani da RSI za ka iya fahimtar abin da ke da nasaba da tashin farashi ko saukarsa. Idan farashin coin ɗin ya tashi ne sanadiyyar overbought to ka sani nan da kowanne lokaci farashin zai iya riketowa kasa, idan kuma farashin ya sauko ne sanadiyyar oversold to hakan ishara ce a gare ka cewa farashin coin ɗin zai iya tashi nan da kowanne lokaci. Tashin farashin coin sanadiyyar overbought kamar tashin kumfa ne yayin da aka kaɗa omo a ruwa, zata tashi sannan zata lafa cikin kankanan lokaci.

Volume

Volume na nufin jumillar kuɗi ko adadin coin ɗin da aka yi cinikinsu a cikin kayyadadden lokaci. Idan kana da shagon da kake sayar da kaya, volume naka na nufin adadin yawan kayan da ka sayar ko adadin cinikin da ka yi. Misali: idan na sayi Dogecoin guda 200 akan farashin N100 kowanne ɗaya, volume ɗina zai zama N20,000 ko kuma Dogecoin 200. Hakan na nufin, volume zai iya zama adadin coin ɗin da aka dinga saye da sayarwa ko kuma jimillar adadin kuɗaɗen da aka sayi coin ɗin da su.

Volume ma'auni ne da ke nuna yawan coin ɗin da aka dinga saye da sayarwa a kasuwa da adadin yawan kuɗin da aka dinga amfani da su ana sayen coin ɗin ko sayarwa.

Kamar yadda muka yi bayani a baya, farashin coins a kasuwa ya ta'allaka ne akan demand and supply. Idan farashin coin ya yi sama hakan na nufin masu saye sun rinjayi masu sayarwa, idan kuma farashin coin ya yi kasa hakan na nufin masu sayarwa sun rinjayi masu saye. Amfani volume indicator shi ne: ya nuna mana adadin coin ɗin da aka saya da kuma adadin coin ɗin da aka sayar maimakon nuna mana adadin masu saye da adadin masu sayarwa.

Adadin masu saye ko adadin masu sayarwa baya wani tasiri wajen daga farashi ko saukar da farashin coin. Misali, a kasuwa akwai mutane 1000

masu son sayen Dogecoin guda 10,000, sai ya kasance kuma a kasuwar akwai mutum ɗaya mai son sayar da Dogecoin guda 10,000 ɗin, a wannan yanayin mutane 1000 ɗin ba su rinjayi mutum ɗayan ba. Ka ga ashe yawan masu saye ko yawan masu sayarwa ba shi ne ke da tasirin wajen canja farashi coin ba, abin da ke da tasiri shi ne adadin coin ɗin da a ke son saye ko kuma a ke son sayarwa. Ashe samun ma'aunin da zai nuna maka adadin coin ɗin da a ke son saye da adadin coin ɗin da a ke son sayarwa zai taimaka maka wajen sanin farashi zai tashi ne ko kuma zai sauka.

Volume ma kadai Dan Crypto zai iya amfani da shi a matsayin ma'aunin da zai auna kasuwa kafin ya yi yunkurin sayen coin. A kasuwar zahiri, kafin Dan kasuwa ya saro kaya sai ya duba kayan da aka fi nema ko kuma aka fi saye idan ya kawo. Kamar haka, kafin Dan Crypto ya sayi coin ya kamata a ce ya duba yawan volume ɗinsa, hakan zai nuna masa ana sayen coin ɗin sosai ko ba a saya.

Types of Volume

Volume ya kasu kashi biyu:

1. High volume
2. Low volume

High Volume

High volume na nufin lokacin aka yi cinikin coin sosai a kasuwa, watau lokacin da masu saye da masu sayarwa ke ta tururuwar saye da sayarwa na coin ɗin.

Yan kasuwa na amfani da High volume a matsayin ma'aunin da su ke gane tashin farashi: idan coin na da High volume to babbar alama ce ta

cewa farashinsa zai dinga tashi gwargwadon yawan adadin volume dɪn da ya ke da shi, sannan idan farashin coin ya sauka amma volume na shi na karuwa to hakan babbar alama ce ta cewa farashin ma zai zo ya tashi. Yan kasuwar kan sayi coin idan sun ga farashin coin dɪn ya sauka amma kuma volume na coin dɪn yana karuwa, domin hakan alama ce ta cewa farashin zai tashi. Idan coin yana da higher volume hakan na nuna cewa mutane suna son coin dɪn sosai, don haka a shirye su ke su saye shi akan kowanne farashi.

Low Volume

Low volume na nuna karancin cinikin coin dɪn a kasuwa, ma'ana lokacin da coin dɪn ke fuskantar karancin masu saye.

Yan kasuwa na amfani da low volume a matsayin ma'aunin da su ke auna cewa farashin coin ya sauko ko kuma zai sauka: idan farashin coin ya tashi amma volume na coin dɪn na raguwa to hakan babbar alama ce da ke nuna farashin coin dɪn shi ma zai zo ya sauka.

Galibin Yan kasuwa na amfani da low volume a matsayin lokacin da ya kamata su sayar da coin dɪnsu: idan farashin coin ya tashi amma kuma suka ga volume nashi na raguwa to suna sayar da coin dɪn domin hakan alama ce ta saukar farashi na nan zuwa. Idan coin na da low volume hakan na nuna mutane ba sa sayensa sosai, don haka za'a samu karancin masu saye da yawaitar masu sayarwa wanda hakan alama ce ta saukar farashi.

Volume Indicators

Akwai indicators da yawa da a ke amfani da su wajen binciken fasaha akan yadda volume dɪn wani takamaiman coin ya ke a kasuwa. Amma

za mu yi bayani ne akan indicator mafi shahara da kuma sauki wajen fayyace halin da volume ke ciki a kasuwa.

Volume Weighted Average Price (VWAP)

Volume weighted average price (VWAP) indicator ne da ke nuna volume bisa la'akari da yawan coin ɗin da aka sayar da kuma farashin da aka sayi coin ɗin da shi a lokacin da aka gudanar da cinikayyar. Akan kowanne time-frame da mai gudanar da technical analysis ya zaɓa, VWAP zai nuna masa motsin da volume ɗin ya ke yi a duk lokacin da aka sayi coin ko aka sayar.

Volume weighted average price (VWAP) yana fita ne a chart da sigar layi kamar dai yadda moving average ya ke. moving average na nuna matsakaiciyar tafiyar farashi ne, yayin da shi kuma VWAP ke nuna matsakaiciyar tafiyar volume bisa la'akari da farashin.

Hoton da ke sama: chart ne na Polkadot/USD a kasuwar Kraken, yana nuni ne da yadda volume ɗin Polkadot/USD ya ke a wannan rana.

Yan kasuwa na amfani da VWAP domin gane low volume da high volume, suna kuma amfani da shi wajen gane lokacin da ya kamata su sayi coin ko kuma su sayar. Idan VWAP line ya taɓa trend ta sama hakan na nuni ne da low volume, sakamakon hakan farashi zai sauka. Yan

kasuwa na saurin sayar da coin dɪnsu da zarar suka ga candle dɪn karshe na tafiyar farashi ya taɓa VWAP line ta sama.

Idan VWAP line ya taɓa trend ta kasa hakan na nuni ne da high volume, sakamakon haka farashi zai karu. Yan kasuwa na saurin sayen coin da zarar suka ga candle dɪn karshe na tafiyar farashi ya taɓa VWAP line ta kasa.

Charts Patterns

Chart pattern salo ne na gudanar da technical analysis ta hanyar la'akari da siffar fasalin tafiyar farashi domin gane alƙiblar da farashin ke fuskanta tare da iya hasasho yadda farashin zai kasance a gaba.

Bayan amfani da salon bayyanar nau'ikan candles wajen fahimtar halin da farashi ke ciki wanda a ke kira da "Candlestick patterns"

Yan kasuwa sukan kalli kyandirorin da suka bayyana a chart din gaba daya su ga siffar da jerin kyandirorin suka fitar, sai su yi amfani da wannan siffar wajen gane inda farashin ke fuskanta, hakan a ke kira da "Chart pattern"

A candlestick pattern, duk motsin da farashi ya yi to yana ginawa ko rusa wani bangare na jikin candle ne, kowanne mataki na ginuwar candle na bayar da wani fasali da masu gudanar da technical analysis ke amfani da shi wajen fahimtar motsin da farashin zai yi a gaba. Idan candle ya gama ginuwa kuma, su na amfani da fasalin da ya bayyana domin su gane alkiblar da farashin ke fuskanta. Ta hanyar amfani da chart pattern kuwa, maimakon yin duba izuwa karshen motsin tafiyar farashi, Yan kasuwa na yin duba ne izuwa yanayin zaman kyandirorin da suka bayyana a cikin trend domin gane hawan farashin da saukarsa.

Types of Chart Patterns

Chart pattern sun rabu rukuni-rukuni har rukunnai biyu:

- Reversal chart patterns
- Continuation chart patterns

Reversal Chart Patterns

Reversal chart patterns rukunnai ne da ke nuni da canjawa alkiblar tafiyar farashi: a lokacin da farashi ke sauka suna yi wa Dan kasuwa nuni da farashi zai daina sauka ya koma tashi, yayin da kuma farashin ke tashi to suna yin nuni ne da cewa ba da jimawa ba farashin zai fara

sauka. Nau'inkan reversal chart pattern suna ankarar da Dan kasuwa ne ya gane farashi zai canja alkiblar da ya ke fuskanta a yanzu.

Reversal chart patterns tamkar alamomin kan hanya ne da ke nunawa Direba cewa a gabansa akwai kwana domin ya san matakin da zai dauka tun kafin ya isa kwanar. Su na nunawa Yan kasuwa cewa farashi zai yi gardama, ma'ana zai canja alkiblar da ya ke fuskanta, idan yana yin sama ne to zai dawo kasa. Hakan zai taimakawa Yan kasuwa su yanke hukunci mai kyau da za su kaucewa hadari sannan su dace da samun riba.

Reversal chart patterns tamkar signonin fitilun mota ne, idan Direba zai sha kwana ko zai yi ribas sai ya kunna su domin yi wa na baya alama. A kasuwarmu ta crypto farashi shi ne direbanmu, idan zai juya ya na kunna mana fitulun signoni (reversal chart patterns) wanda za mu kalla mu gane cewa farashin na so ya yi ribas. Daga cikin rukunin reversal chart pattern akwai:

- ❖ Head and shoulders chart pattern
- ❖ Inverted head and shoulders chart pattern

Head And Shoulders Chart Pattern

Head and shoulders a yaren Turanci na nufin "Kai da kafaɗu" Ana kiran wannan nau'in pattern din da "head and shoulders" ne domin yana faruwa ne idan tafiyar farashi ya zana siffar kai da kafaɗu a uptrend. Faruwar hakan na nuni ne da farashi zai rikito kasa nan ba da jimawa ba.

Idan ka yi duba izuwa siffar kai da kafadu za ka ga sun kunshi abubuwa uku; Kai wanda shi ne mafi tsayi, kafadar hannun dama da kafadar hannun hagu wanda su kuma tsayinsu guda. Kamar haka, head and shoulders pattern ya ke. Farashi na kaiwa kololuwa (shoulder) kafin ya sake yin kasa, sai ya sake tashi a karo na biyu ya wuce kololuwar farko (head) daga bisani ya sake sauka, sannan ya sake tashi a karo na uku ya kai tsayin kololuwar farko (shoulder). Idan ka dubi siffar za ka ga ya bayar da siffar tsayuwar Kai da kafadu biyu.

Da zarar siffar head and shoulders ta bayyana a zanen tafiyar farashi hakan alama ce mai karfi cewa farashi zai rikito kasa sosai. Yan kasuwa na amfani da head and shoulders pattern wajen yanke shawarar lokacin da ya fi cancanta su sayi coin da lokacin da fi cancanta su sayar da coin:

idan farashi ya zana head and shoulders Yan kasuwa na gaggauta sayar da coin dinsu kafin farashin ya rikito.

Inverted Head And Shoulders Chart Pattern

Kalmar "Inverted" a Turanci tana nufin "Abin da aka juyar da kansa ya kalli kasa" Ana kiran wannan nau'in pattern din ne da "Inverted head and shoulders" domin siffar kai da kafadunsa suna fita ne a juye. Hakan na nufin, maimakon siffar ta fita a saman chart sai ta fita a kasan chart. inverted head and shoulders na bayyana ne a downtrend kuma yana nuni ne da farashi zai tashi nan ba da jimawa ba.

Inverted da head and shoulders dukkanin su siffarsu daya ne, amma su na da bambanci a mahallin da su ke bayyana da kuma sakon da su ke dauke da shi. inverted na bayyana ne a downtrend kuma yana nuni ne da tashin farashi. Yayin da head and shoulders kuma na bayyana ne a uptrend sannan yana nuni ne da alamun saukar farashi.

Yan kasuwa na amfani da bayyanar siffar inverted head and shoulders a matsayin lokacin da ya kamata su sayi coin: suna gaggauta sayen coin da zarar suka ga wannan siffar ta bayyana. Su na saita **Buy Order** nasu a karshen candle na right shoulder.

Double Tops Chart Pattern

Double tops shi ma nau'in pattern ne da ke nuni da chanjawa tafiyar farashi. Yana bayyana ne a uptrend a lokacin da farashi ya kai kololuwar farko, daga baya farashin ya dinga sauka har zuwa neckline, daga bisani farashin ya sake tashi har zuwa saitin kololuwar farkon nan. Ana kiransa da "double tops" ne domin siffarsa na bayyana ne idan farashi ya kai koluwa biyu, bayyanarsa na nuni ne da farashi zai rikito nan ba da jimawa ba.

Idan mai karatu na fahimta zai gane bambanci da ke tsakanin double tops da head and shoulders shi ne: head and shoulders na ɗauke da kololuwar farashi uku ne; ɗaya a hagu, ɗaya a tsakiya, sannan ɗaya a dama. Koluwar tsakiya ita ce "Head" kuma tana fin sauran guda biyun tsayi. Shi kuwa double tops, na ɗauke da kololuwa guda biyu ne masu kusan matakin tsayi ɗaya kamar yadda ya ke a hoton da ke kasa.

Yan kasuwa na amfani da bayyanar double tops a matsayin lokacin da ya kamata su sayar da coin ɗinsu. Idan farashi ya kai koluwar farko (top1) daga nan ya sauko saitin neckline, sannan ya sake kai wa wata kololuwar (top2), to daga nan siffar double tops ta gama tabbata. Saboda haka, sun samu tabbacin daga nan farashi ba lallai ya ci gaba da tashi ba saboda akwai alamun zai iya riketowa ma, don haka sai su sayar da coin ɗinsu a daidai saman ƙarshen candle na top 2.

Double Bottoms Chart Pattern

Double bottoms kishiyar double tops ne, yana bayyana ne a downtrend, a lokacin da farashi ya sauka koluwar kasa sannan ya sake tashi zuwa neckline, daga nan ya sake sauka zuwa kololuwar kasa a karo na biyu. Ana kiransa da "Double bottoms" ne domin yana dauke da kololuwar saukar farashi guda biyu (2 bottoms), bayyanarsa na nuni ne da farashi zai tashi nan ba da jimawa ba.

Double bottoms na kama da inverted head and shoulders ta fuskar sakon da su ke isarwa, dukkaninsu suna nuni ne da tashin farashi.

Bambancinsu shi ne: inverted head and shoulders yana ɗauke da kololuwar saukar farashi guda uku; ɗaya a dama, ɗaya a tsakiya, sannan ɗaya a hagu. Na tsakiyar shi ne head, kuma yana fin sauran sauka. Shi kuwa double bottoms na ɗauke da kololuwar saukar farashi guda biyu ne; ɗaya a farko (bottom 1), sannan ɗaya a karshe (bottom 2), kuma dukkaninsu matakin saukarsu ɗaya.

Ƴan kasuwa na amfani da bayyanar siffar double bottoms a matsayin lokacin da ya kamata su sayi coin, suna gaggauta sayen coin da zarar suka ga wannan siffar ta bayyana. Suna saita **Buy Order** na su a karshe candle na bottom 2.

Triple Tops Chart Pattern

Triple tops nau'in chart pattern ne da ke nuni da canjawa tafiyar farashi daga tashin farashi zuwa saukar farashi. Yana bayyana ne a uptrend a lokacin da farashi ya kai kololuwa ta farko, daga baya farashin ya dinga sauka har zuwa neckline, daga bisani farashin ya sake tashi har zuwa saitin kololuwar farko, sannan ya sake sauka zuwa neckline, daga nan ya sake tashi ya kai saitin kololuwa ta biyu. Ana kiransa da triple tops ne domin yana ɗauke da kololuwar farashi guda uku. Bayyanarsa alama ce ta farashi zai chanja alkibla daga tashin farashi zuwa saukar farashi.

Triple tops na yin kama da head and shoulders domin dukkaninsu suna ɗauke ne da kololuwar farashi guda uku sannan suna nuni ne da saukar farashi. Bambancinsu kawai shi ne: head and shoulders kololuwar farashi biyu ne su ke matakin tsayi ɗaya yayin da kololuwar tsakiya ta fi sauran biyun tsayi, amma shi triple tops duka kololuwar farashin matakin tsayinsu ɗaya.

Duk da ya ke wani lokacin a kan samu triple tops ya fito kololuwa ukun ba matakin tsayinsu ɗaya ba, sai dai a kan samu kololuwa guda biyu cikin ukun su zama tsayinsu ɗaya, ko dai kololuwar farko da ta tsakiya ya zama tsayinsu ɗaya ko kuma kololuwar tsakiya da ta ukun ya zama matakin tsayinsu ɗaya. Haka zalika triple tops na kama da double tops ta fuskar sakon da su ke ɗauke da shi, bambancinsu shi ne: double tops

yana ɗauke da kololuwar farashi guda biyu yayin da shi kuma triple tops ke ɗauke da guda uku.

Yan kasuwa na amfani da bayyanar triple tops a matsayin lokacin da ya kamata su sayar da coin ɗinsu. Idan farashi ya kai koluwar farko (top 1), daga nan ya sauka saitin neckline, sannan ya sake kaiwa wata kololuwar (top 2), ya sake sauka zuwa neckline, kuma ya sake tashi har zuwa saitin wata kololuwar (top 3), to daga nan siffar triple tops ta gama tabbata. Saboda haka, sun samu tabbacin daga nan fa farashin ya gama tashi don ba da jimawa ba zai soma rikitowa, sai su sayar da coin ɗinsu a daidai saman karshen candle na top 3.

Triple Bottoms Chart Pattern

Triple bottoms kishiyar triple tops ne, yana bayyana ne a downtrend a lokacin da farashi ya sauka kololuwar kasa, sannan ya sake tashi zuwa neckline, daga nan ya sake sauka kololuwar kasa a karo na biyu, sannan ya sake tashi zuwa neckline, daga bisani ya sake sauka kololuwar kasa a karo na uku. Yana ɗauke da kololuwar saukar farashi guda uku, bayyanarsa alama ce ta farashi ya gama sauka daga nan sai tashi.

Sabanin triple tops da kololuwarsa ke fita a saman neckline a matsayin alamar da ke nuna saukar farashi, shi kuwa triple bottoms kololuwarsa na bayyana ne a kasan neckline a matsayin alamar tashin farashi. A triple tops neckline shi ne a matsayin support level, yayin da a triple bottoms kuma neckline na zaman resistance level ne.

Yan kasuwa na amfani da bayyanar triple bottoms a matsayin lokacin da ya kamata su sayi coin. Suna saita **Buy Order** na su a karshen candle dɓɓin da ke a bottom 3.

Wedges Chart Pattern

Kalmar "Wedge" a yaren Turanci ta nufin "Waigi" a Hausance, watau abin da a ke amfani da shi domin tsayar da abin da ya ke tafiya. Ana kiran wannan nau'in pattern dɪn ne da "wedge pattern" saboda dabi'arsa ta yi wa tafiyar farashi waigi yayin da farashi ke hawa ko kuma sauka. Yiwa tafiyar farashi waigi na nufin tsayar da tafiyar farashin; idan farashin na tashi ne to sai ya tsayar da tashin ta yadda farashin zai fara sauka, idan kuma farashin na sauka ne sai ya yi masa waigi ta yadda zai daina sauka ya koma tashi.

A zahiri, mukan yi amfani da dutse wajen yi wa tayar mota waigi don hana ta motsawa. Amma asalin Waigi ba iya dutse ba ne kadai, akwai; karfe, katako, ko kuma roba wadda a ke sarrafawa a matsayin wedge kamar yadda ya ke a hoton da ke kasa.

Idan mai karatu ka fahimta, za ka ga bayan waigin ya fi gaban waigin tsayi, bayan na da tsayi yayin da gaban kuma ya tsuke domin ya iya shiga karkashin taya. Kamar yadda siffar wannan waigin ya ke haka siffar wedge pattern ya ke bayyana a tafiyar farashi.

Ana fitar da siffar wedge pattern ne ta hanyar shata trend line a swing high da swing low dɪn tafiyar farashi, idan tafiyar farashin ta bayar da siffar wedge to wedge pattern ya bayyana kenan.

Types of Wedge Patterns

Kamar yadda ya ke a zahiri, ana amfani da waigin mota ne domin hana mota yin baya ta hanyar sanya waigin a tayar baya, ko hana mota yin gaba ta hanyar sanya waigin a tayar gaba. Kamar haka, wedge pattern ma ya kasu kashi biyu:

1. Rising wedge
2. Falling wedge

Rising Wedge

Rising wedge nau'in wedge pattern ne da ke yiwa tafiyar farashi waigi a gaba domin tsayar da karuwar farashin ta yadda farashin zai koma yana sauka. Rising wedge na bayyana ne a uptrend lokacin da farashi ke hawa, idan ya bayyana alama ce mai karfi cewa farashin zai rikito kasa sosai.

Ana gane rising wedge ne ta hanyar yin duba da siffar tafiyar farashin, idan farashin na tafiya da fadi a hankali a hankali yana tsukewa kamar dai yadda siffar wedge ya ke. Dan kasuwa zai zana trend lines guda biyu; daya a resistance level na tafiyar farashin, daya kuma a support

level. Idan siffar wedge ta bayyana to hakan na nufin farashin zai rikito kasa ba da jimawa ba.

Akwai wata ka'ida da a ke amfani da ita wajen gane sahihin rising wedge: wajibi kafin rising wedge ya fara bayyana ya kasance trend din da ke bayansa uptrend ne.

Yan kasuwa na amfani da bayyanar rising wedge a matsayin lokacin da ya kamata su sayar da coin dɪnsu. Da zarar rising wedge ya bayyana Yan kasuwa na sayar da coin dɪnsu domin sun sani farashin coin dɪn zai rikito nan ba da jimawa ba. Saboda haka sai su sayar kafin ya rikito dɪn sannan su jira sai ya rikito sannan su sake saye.

Falling Wedge

Falling wedge nau'in wedge pattern ne da ke yi wa tafiyar farashi waigi ta baya domin tsayar da saukar farashin ta yadda farashin zai koma yana tashi. Falling wedge na bayyana ne a downtrend lokacin da farashi ke sauka, idan ya bayyana alama ce mai karfi cewa farashin zai tashi sosai nan ba da jimawa ba.

Ana gane failing wedge ne ta hanyar yin duba da siffar tafiyar farashin, idan farashin na tafiya da fadɓi a hankali a hankali yana tsukewa kamar dai yadda siffar wedge ya ke. Dan kasuwa zai zana trend lines guda biyu; ɗaya a resistance level na tafiyar farashin, ɗaya kuma a support level. Idan siffar wedge ta bayyana to hakan na nufin farashin zai fara tashi sosai.

Akwai ka'idar da a ke amfani da ita wajen gane sahihin failing wedge: wajibi kafin failing wedge ya bayyana ya kasance trend ɗin da ke bayansa downtrend ne.

Yan kasuwa na amfani da bayyanar failing wedge a matsayin lokacin da ya kamata su sayi coin. Da zarar failing wedge ya bayyana Yan kasuwa na saurin sayen coin domin sun sani farashin coin ɗin zai tashi sosai nan ba da jimawa ba.

Continuation Chart Patterns

Continuation chart patterns rukunin chart patterns ne da ke nuni da ci gaban tafiyar farashi a yadda ya ke tafiya. Ba sa nuni da cewa farashi zai tashi ko zai sauka, maimakon haka suna nuni ne cewa farashin zai ci gaba da yin sama a lokacin da dama saman ya ke yi, ko kuma farashi zai ci gaba da sauka kasa a lokacin da dama saukar ya ke yi.

Babban makasudin amfani da su shi ne: suna alamtar da 'Dan kasuwa cewa kada ya sayar da coin dinsa domin farashin bai gama kaiwa kololuwar tashinsa ba, ko kada ya saya saboda farashin bai gama kaiwa kololuwar saukarsa ba. 'Dan kasuwar da ya sayi coin kuma coin din ya fara sauka, continuation pattern suna yi masa gargadi ne da ya taikaita asara ta hanyar sayar da coin dinsa tun bai gama sauka ba domin babu makawa zai ci gaba da sauka.

Continuation pattern tamkar alamomin kan hanya ne da ke yiwa Direba nuni da sauran tafiyar da ke gabansa kafin ya isa garin da ke gaba. A wannan fannin, farashi ne Direbanmu yayin da mu Yan kasuwa kuma fasinjoji ne. continuation pattern na nuna mana cewa farashi zai ci gaba

da tafiya kafin ya kai makurar tsayawarsa. Daga cikin nau'ikan continuation chart pattern akwai:

Rectangle Chart Pattern

A Yaren Turanci kalmar "Rectangle" na nufin "Duk wani abu mai kusurwa huɗu" wanda kusurwar tsayinsa ta fi kusurwar faɗinsa girma. Misali; tabarma , darduma da dai sauransu.

Rectangle patterns na bayyana ne a sideways trend a lokacin da farashi ke hawa da sauka guri ɗaya. Ana gane sa ne idan siffar rectangle ta bayyana a tafiyar farashi. Ya kasance Ɗan kasuwa ya shata trend lines guda biyu tsakanin resistance level da support level, farashi na sauka ya tsaya iya support level sannan idan ya tashi ma ba ya wuce resistance sai ya sake sauka.

Types of Rectangle Pattern

Bullish Rectangle

Bullish rectangle nau'in rectangle pattern ne da ke bayyana a lokacin da farashi ke tashi (uptrend), daga baya sai farashin ya koma yana tafiya a sideways ta yadda hawan farashin ba ya wuce resistance level sannan idan ya sauka ma ba ya wuce support level. Bayyanar bullish rectangle alama ce ta farashin zai ci gaba da tashi duk da tsayawar da ya yi.

Bullish rectangle na faruwa ne a lokacin da masu saye suka dinga sayen adadin coin da yawa, hakan sai ya fizgi farashin yai sama, daga nan sai farashin ya dinga tafiya a sideways na dɗan lokaci wanda hakan alamun bayyanar bullish rectangle ne. Da zarar ya gama bayyana farashin zai daina tafiya a sideways ya ci gaba da tafiya a uptrend kamar yadda ya fara.

»

A hoton da ke sama idan mai karatu ya lura zai ga kafin bullish rectangle ya fara bayyana farashin na tafiya ne a uptrend, sai farashin ya fara tafiya a sideways ya bayar da siffar rectangle, bayyanar siffar ke da wuya sai farashin ya ci gaba da tafiya a uptrend kamar yadda ya ke kafin bayyanar rectangle din.

Idan bullish rectangle ya bayyana, yana yiwa Yan kasuwa bisharar cewa da akwai sauran kallo gaba, farashin bai gama tashi ba, saboda haka kada su yi gaggawar sayar da coin dīnsu. Idan kuma ba su riga sun saya ba amma suna jin tsoron su sayi coin dīn a wannan matakin da farashin ya tashi sosai ba, bayyanar bullish rectangle yana karfafawa Yan kasuwar gwiwa ne cewa su saya kawai kada su ji tsoro domin farashin bai gama tashi ba. Idan sun saya ba da jimawa ba farashin zai ci gaba da tashi ta yadda za su iya sayarwa su samu riba.

Bearish Rectangle

Bearish rectangle nau'in rectangle chart pattern ne da ke bayyana a lokacin da farashi ke sauka (downtrend), sai ya kasance daga baya farashin ya koma yana tafiya a sideways ta yadda hawan farashin baya wuce resistance level sannan idan ya sauka ma baya wuce support level. Bayyanar bearish rectangle alama ce ta farashin zai ci gaba da tafiya a downtrend kamar yadda ya ke kafin bayyanar rectangle.

Bearish rectangle na faruwa ne a lokacin da masu sayarwa suka dinga sayar da adadi mai yawa na coin dɪnsu, a dalilin hakan sai farashin ya dinga sauka, daga nan sai ya fara tashi kaɗan sai ya sake sauka, ya ci gaba da tafiya a sideways na ɗan karamin lokaci wanda hakan alamu ne na bayyanar bearish rectangle. Da zarar ya gama bayyana farashin zai daina tafiya a sideways ya ci gaba da sauka kamar yadda ya fara kafin bayyanar bearish rectangle ɗin.

Bayyanar bearish rectangle gargadi ne ga Yan kasuwa cewa kada su sakankance da ɗan karamin tashin da coin ɗin ya yi a lokacin da ya ke tafiya a sideways ɗin nan, domin babu makawa farashin zai ci gaba da sauka. Waɗanda suka riga suka sayi coin ɗin, da zarar bearish rectangle ya fito su hanzarta sayarwa a haka idan farashin ya gama sauka sai su sake saye. Waɗanda ko ba su riga sun saya ba, to bishara ya ke masu da cewa kada su saya a wannan farashin, su jinkirta sayen domin zuwa gaba kaɗan farashin zai rikito kasa sosai sai su saya a cikin farashi mai sauki.

Flag Chart Pattern

Kalmar "Flag" a yaren Turanci tana nufin "Tuta" misali; tutar Nigeria, tutar yellow FIFA da dai sauransu. Ana kiran wannan nau'in pattern din ne da "Flag pattern" domin yana bayyana da siffar tuta a tsakiyar tafiyar farashi. flag pattern na fitowa ne bayan farashin coin ya yi bala'in tashi ko bala'in sauka cikin kankanan lokaci. Yayin da farashin ke tashi sosai maimakon ya sauka gaba daya, sai ya kirkiri wani trend din ya dinga tafiya a sideways, a lokacin siffar tuta ke fita a cikin tafiyar farashin. Bayyanar flag pattern alama ce ta cewa farashin zai daina tafiya a sideways ya ci gaba da tashi kamar yadda ya fara kafin bayyanar flag din.

A duniyar mu ta zahiri, jami'an kula da hanya kan yi amfani da tuta a matsayin alamar da ke nunawa Direba cewa ya wuce. A lokacin wasan tsere kuma, akan dagawa y'an wasan tuta a matsayin alamar da ke nuna cewa su fara tseren. Kamar haka, a technical analysis yayin da siffar tuta ta bayyana a trend tana nuni ne da cewa tseran tafiyar farashi zai ci gaba da yadda ya fara.

Types of Flag Pattern

Flag Pattern ya kasu kashi biyu:

Bullish Flag

Bullish flag na bayyana ne a lokacin da farashi ke tafiya a uptrend sakamakon tashin da ya yi na karamin lokaci. Da farashin ya kai wani mataki a tashinsa, sai ya koma yana tafiya a sideways tare da bayyanar da siffar tuta. Bayyanar bullish flag na nufin farashin zai ci gaba da tafiya a uptrend nan ba da jimawa ba.

Yan kasuwa na amfani da bayyanar flag pattern a matsayin alamar da ke nuna masu cewa tseren farashin bai kare ba, akwai sauran kallo a gaba. Idan sun riga sun sayi coin, bayyanar bullish flag na yi masu albishiri da akwai sauran tashin farashi don haka kada su yi gaggawar sayarwa. Idan kuma ba su riga sun sayi coin din ba ma, watakila saboda tsoron tashin da farashin ya yi kuma su ke ganin kada su saya ya zo ya sauko su yi mummunar faduwa. Bayyanar bullish flag na karfafa masu gwiwa ne cewa su sayi coin din babu damuwa domin akwai sauran tashin farashi a gaba.

Bearish Flag

Bearish flag na bayyana ne a lokacin da farashi ke tafiya a downtrend sakamakon mummunar saukar da ya yi na karamin lokaci. Daga nan sai farashin ya cije ya ki ci gaba da sauka, ya koma yana tafiya a sideways har ya fitar da siffar tuta. Bayyanar bearish flag na nuni ne da cewa saukar da farashin ya ke yi bai kare ba, saboda haka farashin zai ci gaba da sauka nan ba da jimawa ba.

Yan kasuwa na amfani da bayyanar bearish flag yayin da farashi ke sauka a matsayin alamar da ke nuna masu akwai sauran saukar farashin a gaba. Waɗanda suka riga suka sayi coin to su sayar da coin ɗin a lokacin da farashin ke tafiya a sideways, domin bayyanar bearish flag ya nuna farashin zai ci gaba da sauka. Waɗanda kuwa ba su riga sun sayi coin ɗin ba amma suna so su saya domin ganin farashin ya koma yana tafiya a sideways, bayyanar bearish flag na yi masu hannunka mai sanda ne akan cewa su jinkirta saye domin a kwai sauran rikitowar farashi nan gaba kaɗan.

Pennant Chart Pattern

Kalmar "Pennant" a yaren Turanci tana nufin "Yar karamar tuta mai kusura uku" wadda galibi akan makala su da yawa a kewaye gurin da za'a yi wani taro. Misali, kananun kyallayen da a ke yayyankawa a jona su, ana ratayawa domin kewaye gurin da za'a yi mauldin ko wani taro. Ana kiran wannan nau'in pattern ɗin da "Pennant pattern" domin yana bayyana ne a siffar yar karamar tuta a tsakiyar tafiyar farashi.

Penant pattern na fitowa ne bayan farashin coin ya yi bala'in tashi ko bala'in sauka cikin kanƙanan lokaci. Idan farashin ya tashi sosai na ɗan

karamin lokaci maimakon ya sauko sai ya kirkiri wani trend din ya dinga tafiya a sideways amma karshensa na tsukewa yana bayar da siffar triangle, a lokacin siffar pennant ke fita a cikin tafiyar farashin. Bayyanar pennant pattern din alama ce ta cewa farashin zai daina tafiya a sideways ya ci gaba da tashi kamar yadda ya fara kafin bayyanar pennant din.

Flag pattern da pennant pattern dukkaninsu tuta ne, bambancinsu: ita flag tuta ce mai kusurwa huɗu (rectangle ko square), yayin da ita kuma pennant tuta ce mai kusurwa uku (triangle). Amma dukkanin su suna isar da sakon cewa farashi zai ci gaba da tafiya yadda ya ke (continuation).

Types of Pennant Pattern

Pennant pattern ya kasu kashi biyu:

Bullish Pennant

Bullish pennant na bayyana ne a lokacin da farashi ya yi babban tashi a cikin karamin lokaci. Bayan farashin ya kai wani mataki sai ya koma yana tafiya a sideways ba tare da farashin ya rikito sosai ko ya tashi sosai ba. Amma tafiyar da ya ke yi a sideways din yana tafiya ne yana tsukewa har ya bayar da siffar triangle, idan aka haɗa da farkon tashin farashin da kuma tafiyar da ya ke a sideways za'a ga ya bayar da siffar

pennant. Bayyanar pennant na nuni da cewa farashin bai gama tashi ba, zai ci gaba da tashi nan ba da jimawa ba.

Yan kasuwa na amfani da bayyanar pennant a matsayin alamar da ke masu nuni da su jinkirta sayar da coin dɓinsu domin akwai sauran tashin farashi a gaba. waɗanda suka shigo kasuwa suka ga siffar pennant ya bayyana a tafiyar farashi kuwa, hakan na ba su karfin gwiwa ne cewa su ma su sayi coin dɓin domin akwai alamun zai ci gaba da tashi gaba kaɗan.

Bearish Pennant

Bearish pennant na bayyana downtrend lokacin da farashin coin ya yi babbar sauka cikin kankanan lokaci, da farashin ya kai wani mataki na saukarsa sai ya koma ya na tafiya a sideways. Sai dai tafiyarsa a sideways dɓin yana tafiya ne yana tsukewa yana bayar da siffar triangle

maimakon rectangle, idan aka kalli siffar trend dɓin tun daga lokacin da ya fara sauka zuwa lokacin da ya ke tafiya a sideways dɓin za'a ga ya bayar da siffar pennant. Bayyanar pennant alama ce ta cewa farashin zai ci gaba da sauka kamar yadda ya fara kafin farashin ya fara tafiya a sideways.

Yan kasuwa na amfani da bayyanar bearish pennant a matsayin alamar da ke nuna masu cewa downtrend bai kare ba, idan sun riga sun sayi coin to su sayar da coin dɓin kafin ya ci gaba da saukar. Idan ba su riga sun saya ba kuma to su jinkirta sayen har sai farashin ya gama sauka.

Cup And Handle Chart Pattern

Cup and handle nau'in chart pattern ne da ya ke bayyana a uptrend, bayyanarsa alama ce ta farashi zai ci gaba da tafiya a uptrend. Cup and handle a yaren Turanci na nufin "Kofi da mariki" ana kiransa da "Cup and handle pattern" ne saboda yana bayyana a siffar kofin shayi ko kuma babban harafin "U" a tafiyar farashi.

Cup and handle pattern na bayyana ne a lokacin da farashi ke tashi sama, daga baya ya fara sauka a hankali yana gangarawa sannan ya sake tashi sama, saukarsa da tashinsa ta bayyana a siffar kofi. Bayan siffar kofi ta bayyana sai kuma farashin ya sake sauka a hankali yana gangarawa. Idan mai gudanar da technical analysis ya dubi siffar tafiyar farashin tun daga lokacin da farashin ya fara sauka har zuwa lokacin da farashin ya sake tashi sannan ya sake sauka zai ga ya fitar da siffar kofi da marikinsa. Bayyanar hakan alama ce ta cewa farashin zai zo ya ci gaba da tafiya a uptrend duk da saukar da ya dinga yi yana tashi.

Cup and handle bai cika gama bayyana a time-frame kaɗan ba, galibi ya fi bayyana a monthly ko yearly time-frame. Saboda haka, masu yin long-term trading su suka fi amfani da shi wajen gane ci gaban tafiyar farashi.

Mafi yawan lokacin za ka sayi coin a farashi mai tsada da niyyar ka ajiye zuwa shekara ɗaya ka sayar, amma sai ka ga tunda ka saye shi sauka kawai ya ke yi. Bayan tsawon lokaci sai ya dinga hawa har ya koma yadda ka saye shi, a lokacin sai ka yanke shawarar kada ka sayar da shi har sai ya ba ka riba. Maimakon coin ɗin ya ci gaba da tashi sai ka sake ganin yana sauka. To a wannan lokacin idan ka nazarci chart ɗin ka ga tafiyar farashin ya bayyana a siffar kofi da mariki, hakan alama ce ta kada ka yi gaggawar sayar da coin ɗin domin farashinsa zai ci gaba da tashi sosai.

Inverted Cup And Handle Chart Pattern

Inverted cup and handle nau'in chart pattern ne da ya ke bayyana a downtrend, bayyanarsa alama ce ta farashi zai ci gaba da sauka. Inverted cup and handle a yaren Turanci na nufin "Kofi mai mariki da aka kifar da kansa kasa" ana kiransa da "Inverted cup and handle" ne saboda bayyanar da ya ke yi a siffar kofin shayin da aka kifar da kansa, ko a siffar karamin harafin 'n'.

Inverted cup and handle na bayyana ne a lokacin da farashi ke sauka kasa, da ya zo wani mataki a saukarsa sai kuma ya fara tashi a hankali a hankali kuma yana fara sauka, saukarsa da tashinsa sai ya bayar da siffar kofin da aka kifar da kansa ko kuma harafin 'n', daga bisani kuma sai farashin ya fara dagawa. Bayyanar hakan na nufin farashin zai ci gaba da sauka ne duk da tashin da ya yi.

Shi ma inverted cup and handle bai cika bayyana a time-frame kadan ba, galibi ya fi bayyana a monthly ko yearly time-frame.

Kwararrun y'an Crypton suna kasafta tsarin dokokin nasu izuwa bangarori guda biyar:

- ❖ Entry trigger
- ❖ Exit trigger
- ❖ Daily target
- ❖ Daily loss
- ❖ Money management

Entry Trigger

Entry trigger tsari ne na keɓance lokaci, yanayi ko alamomi da Kwararrun y'an Crypto ke tsarawa a matsayin ladubbansu na shiga kasuwa su sayi coin, wanda in ba lokacin ba, in ba yanayin ba sannan in ba alamomin sun bayyana ba, to ba za su sayi coin ba.

Kwararrun y'an Crypto ba sa shiga kasuwa kawai su kama sayen coin don suna da kuɗi ko don coin dɓin na da inganci, maimakon haka suna da tsararrun lokutan da su ke sayen coin wanda in ba lokacin ya yi ba, to ba za su sayi coin ba. Suna da tsararrun alamomi da su ke la'akari da bayyanar su wanda in ba alamomin sun bayyana ba, to ba za su sayi coin ba. Suna da zaɓaɓɓun mataakai na tafiyar farashi wanda in ba farashi yana a matakin ba, to ba za su sayi coin ba. Idan kai Ɗan kasuwa ne wataƙila kana da tsayayyen lokacin da ka ke buɗe shago a kowacce rana. Kamar haka, ya kamata ace kana da tsayayyun ladubban shiga kasuwa ka sa yi coin, ba wai kawai ka dinga sayen coins babu ka'ida ba. A wajen samar da ladubbanka na entries, kana buƙatar amfani da alamomin da su ke bullewa, ma'ana alamomin da an sha gwadawa suna ba da sakamako mai kyau. Kafin ka gama samun natsuwa akan alamomin kai kanka akwai buƙatar ka dinga gwadawa tare da lura da sakamakon da gwajin ke ba ka, ta haka ne za ka zaɓawa kanka ingantuttun alamomi na

entry. Daga cikin shaharru kuma ingantuttun alamomin entries da Kwararrun y'an Crypto ke amfani da su akwai:

1. Support level
2. Oversold
3. MACD bullish crossover
4. MA golden crossover

Support Level

Support level mataki ne na tafiyar farashi wanda idan farashi ya sauko kasa zuwa matakin to ya kai makurar saukarsa, hakan na nufin daga wannan matakin akwai yuyuwar farashi ya gama saukarsa a wannan lokaci, saboda haka zai fara tashi ba da jimawa ba.

Kwararrun y'an Crypto da dama suna sayen coin ne idan farashin coin din ya zo matakin support level, domin sun sani hakan alama ce da ke nuna farashin ya gama taƙo kasa, nan da kowanne lokaci kuma zai iya tashi. suna amfani da hanyoyi da dama wajen gane matakin support level na faɗuwar farashi, hanya mafi sauki da su ke amfani da ita ce: ta hanyar amfani da moving average (MA). Suna saita moving average na 50-days ko 200-days time-frame (MA-50 ko MA-200), yayin da farashin coin ke sauka idan wutsiyar jan candle din karshe na tafiyar farashin ya taɓa layin moving average hakan na nufin farashin coin din yana a matakin support level kamar yadda za ku gani a hoton da ke kasa.

Oversold

Oversold na faruwa ne idan farashin coin ya yi mahaukaciyar sauka a lokaci dɓaya ba tare da ya dinga sauka a hankali a hankali har ya kai wannan matakin ba, hakan na faruwa ne sakamakon sayar da adadi mai yawa na coin dɓin da wani ko wasu suka yi wanda galibi farashin baya jimawa ya ke dawowa yadda ya ke, shi ya sa Kwararrun y'an Crypto ke sayen coin a lokacin da niyyar sayarwa idan farashin ya dawo yadda ya ke ko ya tashi kaɗan. Akwai hanyoyi masu yawa na gane oversold, hanya mafi sauƙi ita ce: ta hanyar amfani da RSI indicator. Idan farashi ya sauka kasa da RSI 30 hakan na nufin saukar farashin na da nasaba da oversold, daga 30 zuwa 0 duk inda RIS ya tsaya to yana nuni ne da matakin oversold.

MACD Bullish Crossover

Daga cikin shararrun alamomin da y'an crypto su ke amfani da su a matsayin entry na su akwai "MACD bullish crossover"

Ta hanyar amfani da moving average convergence/divergence, crossover na faruwa ne idan MACD line ya tsallaka signal line ta sama, faruwar hakan ingantacciyar alama ce ta tashin farashi na zuwa. Masu amfani da MACD crossover ba sa taɓa sayen coin sai idan sun ga MACD line ya tsallaka signal line, hakan na faruwa sai su yi sauri su sayi coin.

Hoton da ke sama na nuna: farashi na sauka sai MACD crossover ya faru, jim kadan da faruwar hakan sai farashin ya tashi sosai.

MA Golden Crossover

MA golden crossover na ɗaya daga cikin shaharrun alamomi da Kwararrun y'an Crypto ke amfani da su a matsayin tsarin entry triggers na su. Crossover ɗin na faruwa ne idan short-term moving average ya tsallaka long-term moving average.

Suna saita moving average guda biyu a chart ɗinsu; na farko su sanya 50-days MA, na biyu su sanya 200-days MA. Idan 50-days MA (Short-term) ya tsallaka 200-days (long-term) hakan ingantacciyar alama ce ta

farashi zai tashi. Masu amfani da golden crossover ba sa taɓa sayen coin sai lokacin da suka ga short-term MA ya tsallaka long-term MA, hakan na faruwa sai su yi sauri su sayi coin.

ABIN LURA

Dan kasuwa zai iya saita duk time-frame ɗin da ya ke so ba lallai sai 50 ko 200 days ba, abin da ya zama wajibi dai shi ne: short-term moving average ya kasance shi ne a saman long-term moving average kamar yadda ya ke a hoton da ke kasa.

Exit Triggers

Exit triggers keɓaɓɓun alamomin tafiyar farashi ne da Kwararrun y'an Crypto ke amfani da su a matsayin ladubban sayar da coin wanda idan sun sayi coin to ba za su sayar ba sai a alamomin sun bayyana. Kamar yadda su ke amfani da alamomin entry triggers a matsayin lokacin sayen coin, haka su ke amfani da exit triggers a matsayin lokacin sayar da coin. Rashin samar da ladubban saye da sayarwa na sanya wa ka sayi coin a lokacin da bai dace ba kuma ka sayar a lokacin da bai dace ba. Idan ka sayi coin a lokaci da bai dace ba kuwa, kana iya ganin ya sauka sosai bayan ka saya, haka idan ka sayar a lokacin da bai dace ba, kana iya ganin ya tashi bayan ka sayar. Kwararrun y'an Crypto musamman

Scalping traders, ba sa yarda su shiga kasuwa su sayi coin don kawai yana da inganci, komai ingancinsa za su saye sa ne kawai idan akwai alamar da ta bayyana wadda ta nuna masu farashinsa na gab da tashi, sai su sayar kafin farashin ya tashi sannan su sayar idan farashin ya gama tashi. Sannan ba sa sayar da coin dīnsu haka kawai, sai akwai alamar da suka dogara da bayyanar ta wadda ke nuna masu cewa farashi na gab da fara sauka, sai su sayar kafin farashin ya sauka. Daga cikin shaharru kuma ingantattun ladubban exit triggers da Kwararrun yān Crypto su ke amfani da su akwai:

- Resistance level
- Overbought
- MACD bearish crossover
- MA death crossover

Resistance Level

Resistance level wani mataki ne na tafiyar farashi wanda idan farashi ya tashi zuwa wannan matakin akwai yuyuwar ya gama kai wa makurar tashinsa daga nan kuma zai sauka. Support da resistance kamar bangon sama da bangon kasa ne, idan farashi ya taba bangon sama to daga nan kasa zai yi, idan kuma ya fado zuwa bangon kasa to daga nan sama zai yi. Shi ya sa Kwararrun yān Crypto ke amfani da resistance level a matsayin matakin da idan farashin coin ya kai to za su sayar da coin dīnsu. Akwai hanyoyi da yawa da yān crypto ke amfani da su don gane resistance level a tafiyar farashi, hanya mafi sauki ita ce: ta hanyar amfani da moving average.

Yayin da farashin coin ke tashi, idan wuyan koren candle dīn karshe na tafiyar farashin ya tokare da layin moving average daga sama, hakan na nufin farashin coin dīn yana a resistance level don haka akwai yuyuwar farashin zai fara sauka ba da jimawa ba kamar yadda ya ke a hoton da ke kasa.

Overbought

Overbought na faruwa ne lokacin da farashin coin ya yi mahaukacin tashi a lokaci ɗaya ba tare da ya ɗauki tsawon lokaci yana tashi a hankali a hankali har ya kai wannan matakin ba, hakan na faruwa ne sakamakon sayen adadi mai yawa na coin ɗin da wani ko wasu suka yi. Misali: manyan investors su kan iya sayen adadi mai yawa na coin nan take sai farashinsa ya tashi sosai. Bugu da ƙari, a kan samu wasu taron ƴan crypto su haɗa kai su sayi adadi mai yawa na wani coin a lokaci ɗaya da niyyar yin pumping na coin ɗin, bayan wani ɗan lokaci kuma su sayar su ci riba sosai. Waɗanda suka sayi coin ɗin a wannan hali idan ba su sayar kafin ƴan crypton su fara dumping ɗinsa ba to za su tafka mummunar asara. Domin kaucewa yin asarar, ƴan crypto na amfani da overbought wajen yanke hukuncin sayar da coin ɗinsu da zarar hakan ta faru.

Akwai hanyoyi da yawa na gane lokacin da farashin coin ya ke a overbought, hanya mafi sauƙi ita ce: ta hanyar amfani da relative strength index (RSI). A RSI, idan farashi ya wuce RSI-70 hakan na nuna farashin na cikin yanayin overbought, daga 70 zuwa 100 duk lambar da RIS ya tsaya to yana nuna matakin ƙarfin girman overbought ɗin ne.

Overbought na daga cikin alamomin da y'an crypto suka fi amfani da su a matsayin tsarin exit, da zarar coin ya wuce RSI 70 su ke fara shirin sayar da coin dinsu domin farashinsa yana a mataki na rashin tabbaci, komai zai iya faruwa ba tare da tsammani ba.

MACD Bearish Crossover

Bayan Kwararrun y'an Crypto na amfani da MACD bullish crossover a matsayin tsarin entry na su, suna kuma amfani da MACD bearish crossover a matsayin tsarin exit na su. MACD bearish crossover na faruwa ne idan MACD line ya tsallaka signal line ta kasa, faruwar hakan ingantacciyar alama ce ta saukar farashi na zuwa ba da jimawa ba. Wasu daga cikin y'an crypto suna gudanar da kasuwancinsu ne ma kacokan ta hanyar la'akari da MACD crossovers. MACD line na tsallaka signal line ta sama sai su sayi coin, idan kuma ya tsallaka signal line ta kasa sai su sayar da coin.

MA Death Crossover

MA death crossover na daga cikin shaharrun alamomi da y'an crypto ke amfani da su a matsayin ladubban exit triggers na su. Yana faruwa ne idan long-term moving average ya tsallaka short-term moving average.

Kwararrun y'an Crypto suna saita moving averages guda biyu a chart d'insu; na farko su sanya 50-days MA, na biyu su sanya 200-days MA. Idan 200-days MA (Short-term) ya tsallaka 50-days MA (long-term) hakan alama ce ta saukar farashi na zuwa.

ABIN LURA

Wajibi long-term moving average ya kasance shi ne a saman short-term moving average kamar yadda ya ke a hoton da ke kasa.

Daily Target

Yana daga abubuwa mafi mahimmanci a matsayinka na trader ya kasance a kullum kana da tsayayyen adadin ribar da ka ke harin samu, hakan zai taimaka maka wajen samun riba a mafi yawan trading din da ka yi. Wasu daga cikin Kwararrun y'an Crypto su na amfani da daily target ne a matsayin market exit trigger na su, hakan na nufin duk tashin da coin zai yi matukar sun samu riba da su ke hari a wannan rana to za su sayar su fita daga kasuwar. Duk da wannan mataki na sanyawa su yi asarar riba mai yawa a gaba, to amma yana taimaka masu wajen kiyaye tafka mummunar asara.

Duk coin din da Kwararrun y'an Crypto suka saya suna lissafa nawa suka saye shi sannan nawa ne ribar da su ke harin samu a jikinsa wanda idan suka samu za su sayar da coin din, ba wai zuba ido su ke suna kallon coin na hawa har ya sauka ba tare da sun sayar ba. Wannan matakin na janyowa wasu traders din asara, musamman wanda su ke sanya dogon buri na adadin ribar da su ke burin samu a kowacce rana. Idan ka sanya dogon buri har coin zai zo ya ba ka riba amma dogon burinka ya hana ka sayarwa, a karshe coin ya zo ya sauka ka tafka asara. Duk da haka su masu yin long-term trading su kan saita ribar da su ke burin samu, ko

da farashin coin dīn zai zo ya sauka to ba za su damu ba sakamakon ba su tsara sayar da coin dīn nan kusa ba, kenan har zai zo ya ba su ribar da su ke hari ma.

Daily Loss

Daily loss tsari ne da Kwararrun y'an Crypto ke amfani da shi na keɓe tsayayyen mizanin asarar da za su iya daukar kaddarar yin ta a kowacce rana. Daily loss shi ma yana daga cikin ladubban kasuwanci wanda dukrintsi Yan kasuwa ba sa ketarewa, suna iya baƙin ƙoƙarinsu na ganin ba su yi asarar da ya wuce wannan mizanin ba a kowacce rana.

Kwararrun y'an Crypto da zarar sun sayi coin su ke lissafa iya adadin kuɗin da za su iya daukar kaddarar yin asararsu a jikin coin dīn, suna saita hakan ne ta hanyar saita stop-loss order a duk coin dīn da suka saya. Misali, idan suka sayi BNB akan \$500 sai su saita sell-stop order na su a \$497, da zarar farashin bnb ya sauko zuwa \$497 zai sayar da kansa, zai zama sun rugumi kaddarar yin asarar \$3 kenan. Samun tsari mai kyau game da asarar da za ka iya jure yin ta zai taimaka maka wajen taikaita yin babbar asara domin ba ka buƙatar jiran coin har sai ya ta shi bayan saukar da ya yi kafin ka sayar, da zarar ya sauka zuwa wani mataki kawai za ka sayar don gudun ka da ka faɗa tekun asara, musamman ma idan binciken fasaharka ya nuna maka akwai yuyuwar farashin ya ci gaba da sauka.

Bugu da kari, saita stop-loss order zai taimaka maka wajen kaucewa haɗarin dip da kasuwar cryptocurrency ta ke yawan shiga. Idan ya kasance a duk coin dīn da ka saya kana yanke hukuncin ribar da ka ke burin samu ta hanyar saita sell-limit order, sannan kana yanke hukunci akan asarar da za ka iya dauka ta hanyar saita stop-loss order to dip ba zai taɓa mamayar ka ba ballantana ka yi babbar asara, sakamakon kana

da daily loss wanda ba za ka taba bari ka kwanƙa bacci ba tare da ka sayar ko ka saita stop loss ba, idan kasuwa ta fara shiga dip a sanadiyyar haka farashi ya fara sauka to yana zuwa inda ka saita stop-loss naka coin din zai sayar da kansa.

Money Management

Money management tsari ne da Kwararrun y'an Crypto ke yi wanda ya kunshi yadda za su sarrafa kudadensu yadda ya dace don bunkasa yawan kudaden tare da gujewa yin mummunar asara, tsarin ya kuma kunshi dabarun tattala kuɗi da salon sarrafa su ta yadda Dan Crypto zai iya dawo da kuɗin da ya yi asara tare da haɓɓaka yawan kuɗinsa ta hanyar yawaita hanyoyin samun riba.

Masana kasuwancin cryptocurrency su na cewa "Dan kasuwa mai wayau shi ne wanda ya fi damuwa da tattala kudadensa fiye da damuwa akan ribar da zai samu."

ba shakka haka batun ya ke domin a kasuwar cryptocurrency abu mai sauƙi ne mutum ya rasa gaba ɗaya kudadensa ta yadda zai zama babu riba sannan babu uwar jari. Domin tattalin kuɗi da kiyaye yin asara Kwararrun y'an Crypto na amfani da hanyoyi da dama, daga cikinsu akwai:

- Diversification
- Gann's 10-percent rule
- Martingale system

Diversification

Diversification tsari ne da y'an crypto ke amfani da shi wajen kauƙewa asara tare da yawaita hanyoyin samun riba. Maimakon sanya kudadensu gaba ɗaya akan coin guda ɗaya, Kwararrun y'an Crypto suna

rarraba kafa ta hanyar sayen nau'ikan coins daban-daban ta yadda idan wani ya ba su faduwa to wani zai ba su riba.

Sanya karfinka gaba daya akan coin guda daya yana da matuka hadari domin kasuwar cryptocurrency ba ta da tabbas, coin mai kyau yana iya yin mummunar sauka yayin da coin mara kyau kuma sai ka ga ya yi hawan ba zata, ta hanyar rarraba kafa ne za ka iya kaucewa mutuwar kasko tare da dacewa da samun riba ta bangarori da yawa. Misali: maimakon ka sayi A-coin na N100,000 da ka ke da su a matsayin jarin kasuwancinka sai; ka sayi A-coin na N25,000 kacal, ka sayi B-coin na N25,000, ka sayi C-coin na N25,000 sannan ka sayi D-coin na N25,000 shi ma, ka ga kana da coins guda huɗu maimakon ɗaya ke nan. Idan A-coin ya faɗi iya asarar bangarensa kawai za ka yi yayin da sauran kuma suna iya ba ka ribar da za ta maye maka asarar da ka yi a jikin A-coin. Idan kuma suka ba ka riba duka to za ka samu riba mai karfi huɗu domin babu yadda za a yi dukkaninsu su ba ka adadin riba ɗaya, dole wani zai fi ba ka riba a cikinsu. To ka ga da A-coin kawai ka saya ya ba ka riba da ribar da za ka samu mai karfi ɗaya ce kawai.

Martingale System

Martingale system tsari ne na tattali da traders ke amfani da shi domin sarrafa kuɗaɗe da taikaita yin babbar asara ta hanyar gwada zurfin ruwa da kafa ɗaya maimakon shiga da kafofi biyun. Tsarin ya shahara sosai a wajen kwararrun Yan kasuwar cryptocurrency, forex da dai sauransu. Yadda tsarin ya ke shi ne: idan za ka sayi coin to ka fara sayen na karamin kuɗi a matakin farko, idan coin ɗin ya ba ka riba sai ka haɗa ribar a cikin kuɗin sannan ka kara saye, idan kuma ya ba ka faɗuwa sakamakon farashinsa ya sauka to sai ka kara saye da ragowar kuɗin da ka ware. Misali: kana son sayen A-coin na N100,000 to ka fara da sayen a kalla na N25,000, idan ya ba ka ribar misali N5000 sai ka haɗa ribar da N25,000 (N30,000) ka kara saye, idan kuma farashinsa ya faɗi akan

yadda ka saya sai ka dāuko wata N25,000 dīn a cikin ragowar kudīn ka kara saye domin ka amfana da saukar da farashin ya yi ta yadda idan ya tashi ba ka riba ma zai ba ka da yawa.

Watakila mai karatu ya ce "to idan kuma farashin A-coin ya tashi sosai ga shi ban saya da yawa ba to na rasa riba mai yawa ai." Sanin A-coin zai tashi ya ba ka riba sosai babu tabbas, zai iya yiwuwa ya tashi sosai ya ba ka riba sai ka gode Allah da ribar da ka samu akan na N25,000 dīn da ka fara saya domin inda kuma farashinsa mummunar sauka ya yi ga shi ka sayi na duka N100,000 dīn to mummunar asara za ka yi.

Gann's 10-percent Rule

Gann's 10-percent rule shi ma wani tsarin tattali ne da traders ke amfani da shi domin kiyaye yin mummunar asara. Yadda tsarin ya ke shi ne; duk coin dīn da za ka saya kada ka sayi fiye da 10% na jarinka, hakan na nufin 10% na kudīnka kadai za ka dinga sanyawa a duk lokacin da ka zo yin trading. Idan ka samu riba to ribar da ka samu ta iya 10% dīn ce kawai sannan idan ka fadī to har yanzu kana da ragowar 90%, hakan zai sa ka iya hakurin holding har lokacin da zai zo ya ba ka riba. Galibi sanya kudade masu yawa na jarinka shi ke sanyawa ka gaza hakurin yin holding, amma idan kudīn da ka sanya bai wuce 10% na jarinka ba to za ka iya jure yin holding na tsawon lokaci idan ma ba ka so ka sayar da coin dīn a fadūwa kenan, idan kuma ka yanke shawarar sayarwa da niyyar rungumar asara to asarar da za ka yi kafan ce.

CHAPTER 09

TRADING PSYCHOLOGY

Trading psychology tsari ne na saita dabi'u da sarrafa tunani domin yaƙi da dabi'un da ke haddasa asara tare da rungumar dabi'un da ke haifar da samun nasara yayin gudanar da kasuwancin cryptocurrency.

Baya ga ilimin sanin cryptocurrency, ilimi gane ingancin coin da ilimin fahimtar alkiblar da farashi ke fuskanta, Kwararrun y'an Crypto suna amfani da ilimin sarrafa tunani da dabi'a domin samun nasara a kasuwa. Saboda ilimi kadai ba ya ba wa 'Dan kasuwa nasara idan bai dabi'antu da dabi'un nasara ba, a nawa ra'ayin ma ina ganin dabi'a da tunani sun fi taka muhimmiyar rawa wajen bawa 'Dan kasuwa nasara fiye da ilimi. Misali: kana iya ganin; masanin cryptocurrency, masanin analysis, masanin blockchain technology kuma mai dɓimbin jari amma duk da haka bai cika samun riba a kasuwancinsa ba, kana kuma iya ganin wani ba shi da ilimin crypto kuma ba shi da jari sosai amma yana cin riba a mafi yawan kasuwancin da ya ke yi. Hakan na faruwa ne saboda dabi'a da salon sarrafa tunani ya fi tasiri ga 'Dan kasuwa fiye da ilimin sanin kasuwanci.

Best Trading Psychology

1. Control your emotions
2. Avoiding psychological bias

Control Your Emotions

A kofarinka na samar da kyakkyawan tsarin saita tunani da dabi'un da za su kai ka matakin nasara, abu na farko da za ka fara kofarin yi shi ne: ka iya sarrafa motsin zuciya. Idan na ce motsin zuciya to ina nufin duk wani nau'in ji da ke motsa zuciya kamar; jin haushi, jin tsoro, jin son daukar fansa, jin haɗama, jin karfin gwiwa da sauransu.

A matsayinka na Dan kasuwar cryptocurrency, kana kasuwanci ne a tsakanin riba da faɗuwa, motsi kaɗan zai iya sanyawa ka ci riba sannan motsi kaɗan zai iya sanyawa ka tafka asara. Rashin sayen coin a lokacin da ya dace, rashin sayen coin ɗin da ya dace da rashin sayarwa a lokacin da ya dace su ne abubuwan da za su janyowa maka asara, yayin da sayen coin ɗin da ya dace, sayen coin a lokaci da ya dace da sayarwa a lokacin da ya dace su kuma su ne abubuwan da za su sanya ka samu riba. Ashe kuwa, samun ribarka da yin asararka duka yana faruwa ne a sanadiyyar hukunci zuciya na yin abin da ya dace ko yin abin da bai dace ba.

Domin ka samu riba, kana buƙatar yanke hukunci mai kyau na lokacin saye da lokacin sayarwa. Ba kuma za ka iya yanke hukunci mai kyau ba matuƙar ɗaya daga cikin abubuwan da ke motsa zuciya ya yi tasiri wajen murɗa zuciya inda bai dacewa ba, za ta sanya; ka sayi coin ɗin da bai dace ba, ko ka sayi coin a lokaci da bai dace ba, ko kuma ka sayar a lokacin da bai dace ba.

Bincikena ya nuna min cewa; duk ilimin da ka ke da shi na cryptocurrency, duk tarin jarin da ka ke da shi matuƙar ba ka iya sarrafa motsin zuciya ta hanyar ba wa zuciya natsuwar yanke hukunci mai kyau ba to ba za ka samu nasara a kasuwancinka ba. Saboda ko da iliminka ya nuna maka ka sayi coin tsoro kan iya sanyawa ka fi saye, ko da iliminka ya nuna maka kada ka sayi coin haɗama kan iya sanyawa ka

saya, ko da iliminka ya nuna maka ka sayar da coin son d'aukar fansa kan iya sanyawa ka fi sayarwa, sannan ko da iliminka ya nuna maka ka yi bincike kafin ka sayi coin zumudfi kan iya sanyawa ka saya ba tare da ka yi binciken ba. Kokarinka na iya danne abubuwan da kan iya rinjayar zuciya su hana ka yanke hukunci mai kyau shi ne mizanin nasaraka. Domin idan ka iya sarrafa zuciya to za ka mallaki tunaninka, idan ka mallaki tunaninka za ka sayi coin ko ka sayar a lokacin da ya dace, yayin da rashin iya yin hakan kuma shi zai janyo maka akasin haka.

Daga cikin abubuwan da ke motsa zuciya akwai wanda suka fi tasiri wajen haddasawa zuciya yanke hukunci mara kyau da zai janyowa Dan kasuwa asara. Masana ilimin halayya (psychology) sun tabbatar da kafin ka samu nasara a kasuwancinka wajibi ne ka iya sarrafa abubuwan nan gudu huɗu:

- ❖ Greed
- ❖ Fear
- ❖ Revenge
- ❖ Euphoria

Greed

Hadama a kasuwancin cryptocurrency na faruwa ne yayin da coin din da ka saya ya ba ka riba amma ka fi sayarwa saboda tunanin zai zo ya ba ka ribar da ta wuce wannan wanda a farshe har zai zo ya ba ka faduwa kuma ka sayar a faduwar. Hadama ce ke sanya Dan kasuwa ya yi amfani da dukkanin kudadensa wajen sayan coin guda ɗaya da tunanin coin din zai ba shi riba sosai. Revenge

Daukar fansa na faruwa ne yayin da Dan Crypto ya ga coin dīn da ya saya yana sauka amma ya ki sayarwa da niyyar yana jira farashinsa ya sake dawowa yadda ya saye shi sannan ya sayar.

Duk da farashin coin a kasuwa yana da dabi'ar dawowa yadda ya ke, amma ba'a so Dan kasuwa ya dogara da wannan wajen barin coin din da ya saya yai ta sauka ba tare da ya sayar don takaita asara ba. An fi so ko zai ki sayarwa to ya kasance ya yi hakan ne bisa dogaro da sakamakon bincikensa, ba wai don yana jira farashinsa ya koma yadda ya saye shi kafin ya sayar ba.

Kwararrun Yan Crypto wani lokacin suna saurin rungumar asara sai su sayar da coin dinsu a faduwa, amma suna yin haka ne idan sun ga alamun coin din zai ci gaba da sauka sosai. Ko kafan ba sa kin sayar da coin domin jiran farashinsa ya dawo yadda suka saye shi, suna rungumar asara sai su yi amfani da kudun su sayi wani coin din su ci riba maimakon jira kudun da suka yi asara ya dawo. Suna yin kasuwancin ne tsakanin riba da faduwa; idan sun ci riba to dama hakan su ke fata, idan kuma sun fadi to suna rungumar asara sannan su dauki darasi daga faduwar da suka yi domin kiyaye faruwa hakan a gaba. Kokarin dawo da kudun da ka yi asara zai iya sanyawa ka yi mummunar asara wanda inda ka sayar tun farko da asarar da za ka yi ba za ta kai haka ba. Jiran kudinka su dawo zai iya sanyawa ka ki hakuri da asarar N10, a karshe ka rungumi asarar N1000 don dole. Yin hakan kuwa, tamkar ka fado daga saman bishiya ne ka wuce rijiya.

Euphoria

Euphoria wani nau'in motsin zuciya ne wanda ke faruwa sakamakon tsananin murna ko farin ciki, sai ya haifarwa zuciya zumudi ko kuma rashin damuwa akan kiyaye hadarori. Irin wannan nau'in motsin zuciya an fi samunsa a gurin Yan kasuwar da suka samu riba sosai, sai ya sanya su sauka daga tsarin kasuwancin da suka saba amfani da shi.

Nau'ikan motsin zuciyar da muka lissafa watau; greed, fear da revenge, dukkaninsu suna zuwa ne kafin samun nasara, su kan hana zuciya

ɗaukar matakin da ya dace wanda a sakamakon haka sai su janyowa Dan kasuwa asara. Shi kuwa 'Euphoria' yana zuwa ne ma bayan Dan kasuwa ya samu nasarar cin riba ko kuma idan yana yawan samun riba, sai ya sanya shi zumuɗi da gamsuwa. Bincike ya nuna mafi yawan Yan kasuwar da suka dace da samun riba a kasuwancin cryptocurrency daga baya suna rasa ribar da suka samu, kaɗan daga ciki ne su ke iya tsira da wani adadi na ribar saboda sharrin euphoria. Dan kasuwar da ya ci riba sosai, a kasuwancinsa na gaba za ka ga wasu daga cikin ɗabi'un da ya yi yaƙi da su a baya sun dawo, sannan tsarukan da ya ke amfani da su na trading yana neman ajiye su; idan a baya ya yi yaƙi da haɗama za ka ga tudun ya tauna gardin riba to yanzu haɗamarsa ta dawo, idan a baya yana damuwa da kiyaye asara za ka ga yanzu tunda ya samu kuɗi to bai cika damuwa ba, idan a baya yana amfani da tsarin entry da exit za ka ga yanzu yana gadar yin bincike. Sakamakon haka, a hankali a hankali zai zo ya rasa duk kuɗaɗen da ya samu riba ba tare da ya farga ba.

Misalin yanayi euphoria shi ne irin yanayin nan da ke samun mutumin da bai taɓa rike manya kuɗi ba sai ya yi sa'ar samun su. Za ka ga yana kashe kuɗin ba tare da tattali ba, sannan ba tare da kashe su ta hanyar da ya dace ba wanda a farshe sai kuɗin sun farshe sannan ya dinga nadama. Kamar haka ne idan Dan kasuwa ya yi nasarar samun riba sosai, to fa sai ya yi da gaske kafin ya iya sarrafa zuciyarsa wajen yanke hukuncin da ya dace.

Kwararrun y'an Crypto da ya ke sun san da irin wannan yanayi na euphoria, suna bakin fofarinsu wajen ganin yawan samun riba bai sanya sun daina bin kyakkyawan tsarin gudanar da kasuwancin da suka tsarawa kansu ba. Kai ma mai karatu tunda yau ka san da wannan yanayi na euphoria, a duk lokacin da ka yi sa'ar samun riba, idan za ka sayi wani coin ɗin to ka tabbatar zumuɗi bai hana ka bin kyawawan

tsarin da ka ke amfani da shi ba, ta haka ne kadai za ka iya tseratar da kudaden da ka samu.

Avoiding Psychological Bias

Psychological bias dabi'a ce ta yanke hukunci bisa amfani da tunani da hasashen kwakwalwa ba tare da la'akari da hujjoji ba.

Yayin yanke hukunci dan Adam yana amfani da zuciya da kuma kwakwalwa ne, zuciya ita ce ke amincewa da hukunci kafin gangar jiki ta yi aiki da shi, yayin da kwakwalwa kuma ita ce ke; tacewa, rarrabewa, gwadawa, hasasowa, lissafawa da amincewa da sahihancin hukunci kafin ta turawa zuciya ita kuma ta jagoranci gangar jiki wajen aikatawa. A baya mun yi bayani game da nau'ikan motsin zuciya (emotions) da ke haifarwa zuciya matsalar da za ta yi sanadiyyar gurbata hukuncin da Dan kasuwa zai dauka wanda hakan ke haifar masa da asara. Bayan yaƙi da sarrafa emotions, Kwararrun ƴan Crypto suna kuma yaƙi da dabi'un gurbacewar tunani da ke hana kwakwalwa; tantancewa, bambancewa, lissafawa, da tace hukunci kafin aiwatar da shi, waɗannan dabi'u su a ke kira da "Psychological bias"

Masana ilimin dabi'ar dan Adam sun lissafa nau'ikan psychological bias da matukar Dan kasuwa na son yin nasara a kasuwancinsa dole sai ya yi yaƙi da su. Ga su kamar haka:

- Overconfidence bias
- Confirmation bias
- Gambler's fallacy
- Loss aversion bias
- Bandwagon bias

Overconfidence Bias

Overconfidence bias ḡabi'a ce ta yanke hukunci bisa tunanin babu makawa abin da a ke hasashe ḡin nan zai faru, ba tare da la'akari cewa akasin hakan kuma na iya faruwa ba. Wannan ḡabi'a ita ke sanyawa da zarar mutum ya yi hasashen abin da zai iya faruwa, sai ya ji a ransa babu makawa abin nan zai faru kuma ya yanke hukunci bisa la'akari da hakan, ba tare da tunanin akasin hakan na iya faruwa ba. Misali: wani yai maka alkawarin zai ba ka kuḡi ranar Lahadi, nan take sai ka ji a ranka cewa ranar na zuwa zai ba ka kuḡin, har ma ka fara kasafin abin da za ka saya da kuḡin tun ranar ba ta zo ba, ba tare da ka tuna za a iya samun sabani ranar ta zo ba tare da ya baka kuḡin ba.

Misalin overconfidence bias a kasuwancin cryptocurrency kuma shi ne: Dan Crypto ya sayi wani coin da tunanin nan da wani lokaci farashinsa zai kai wani adadi ba tare da dogaro da wata hujja ba, ko kuma idan ya dogara da wata hujja ne sai ya samu gamsuwa akan hujjar, ya ji a ransa tamkar babu makawa yadda ya ke tunanin nan fa hakan ne zai faru. Ḋabi'ar tana janyowa Yan kasuwa asara musamman masu long-term trading: ka ga sun sayi coin saboda tunanin nan da lokaci kaza zai kai farashin kaza. Ta na sanyawa idan Dan Crypto ya yi bincike ya gano yuyuwar farashi zai tashi ya samu riba sai ya sakankance akan hakan ba tare da tunanin hakan ba lallai ya faru ba. Sannan tana hana Ḋan kasuwa ḡaukar matakin tafaita asara sakamakon imanin da ya yi cewa ba makawa zai samu riba.

Kwararrun y'an Crypto duk tarin hujjojin da su ke da shi na yuyuwar farashi zai iya tashi ko zai iya sauka ba sa taḡa yarda su sakankance cewa ba makawa hakan zai faru, su na sanyawa a ransu hakan zai iya faruwa sannan sabanin yadda su ke tunani ma zai iya faruwa, don haka sai su sayi coin da tunanin ḡayan biyu; idan hakan ya faru dama sun tsammaci faruwar, idan kuma hakan bai faru ba to dama sun ḡauki

matakin da rashin faruwar hakan ba zai cutar da su sosai ba. Domin ka zama Dan kasuwa mai nasara, dole sai ka saita kwakwalwarka ta yadda komai tarin hujjojinka ba za ka taɓa gamsuwa da su ɗari bisa ɗari ba. Gamsuwar da za ka samu kada ya wuce 50%, ta yadda idan 50% ya ba ka karfin gwiwar saye to 50% kuma zai ba ka tunanin ɗaukar matakin da rashin faruwar yadda ka ke tunani ba zai cutar da kai sosai ba.

Confirmation Bias

Confirmation bias ɗabi'a ce ta neman hujjar kare abin da ka gamsu cewa daidai ne, ba ƙoƙarin neman hujjar da za ta nuna maka gaskiya ba. Misali: da zarar ka ji a ranka cewa abu kaza shi ne gaskiya to kawai sai ka zauna akan haka har ma ka dinga neman hujjojin da zasu ƙara gamsar da kai cewa hakan daidai ne ba neman hujjojin da za su tabbatar maka da gaskiyar al'amarin ba.

Misalin confirmation bias a kasuwancin cryptocurrency shi ne: ya kasance duk coin ɗin da ka saya to ba ka son a ba ka hujjar da ke nuna mara inganci ne, kullum a neman hujjar da za ta ƙara tabbatar maka da ingancin coin ɗin ka ke. Wannan ɗabi'ar kam ta zama ruwan dare a zukatan y'an crypto ta yadda za ka ga da zarar mutum ya sayi coin to fa ya zama lauyan coin ɗin kenan, sai yai ta neman hujjojin da za su ƙara nuna cewa ya sayi coin mai inganci ko kuma farashin da ya ke tunani zai kai babu makawa. Idan kuma bai sa yi coin ba ka ga yana kushe shi sannan duk hujjar da za ta kushe coin ɗin ita ya ke nema, ko kaɗan ba ya yarda da hujjar da ke nuna ingancinsa.

Kwararrun y'an Crypto suna kasuwanci ne don riba ba don kare darajar wani coin ba, idan sun yi tunanin riba to kuma suna tuna faɗuwa. Ba sa kamuwa da son wani coin ballantana su ke neman hujjar da ke nuna ingancinsa, sannan ba sa tsanar wani coin ballantana su ke neman hujjar aibata shi, kuɗinsu kawai su ke karewa ba ra'ayinsu da hasashen su ba.

Domin ka zama 'Dan kasuwa mai nasara, dole sai ka yi watsi da dabi'ar kofarin kare ra'ayinka da hasashenka, hakan ne zai ba ka damar yarda da duk bayanin da zai taimaka ka samu riba ko ka kiyaye yin asara.

Gambler's Fallacy

Gambler's fallacy dabi'a ce ta dogaro da abin da ya taɓa faruwa wajen yanke hukuncin abin da zai faru a gaba ba tare da yin duba da bambancin yanayi ba. Wannan dabi'ar ana samunta a galibin Yan kasuwar crypto. Saboda wasu sun sayi coin sun samu kuɗi sai ya dogara da wannan shi ma ya je ya sayi coin ɗin ba tare da la'akari da halin da coin ɗin ke ciki a lokacin da zai saya ba, saboda wasu sun sayi coin ɗin sun yi asara shi ma sai ya sayar ba tare da amfani da hujjar ilimi ba.

Kwararrun y'an Crypto ba sa la'akari da abin da ya faru wajen yanke hukuncin saye coin ko sayarwa, suna la'akari da yanayin da coin ya ke cika a halin yanzu ne sai su yanke hukuncin su saya ko su sayar.

Loss Aversion Bias

Loss aversion bias dabi'a ce da galibin mutane suna da ita na shiga damuwa idan suka hango yin asara fiye da farin cikin da su ke yi idan suka hango samun riba.

Masana ilimin dabi'a sun ce: tunanin yin asara ya fi tasiri wajen sanya mutum yanke hukunci fiye da tunanin samun riba, shi ya sa 'Dan kasuwa ya fi daukar matakin sayar da coin fi ye da matakin bari don ya samu riba, shi ya sa y'an crypto suka fi sayen coin a lokaci da ya ke tashi fi ye da lokacin da ya ke sauka duk da sun sani a lokacin ne ya kamata su saya. A zahirin gaskiya babu wanda ba ya firgita idan ya hango yin asara musamman idan aka ce asarar ta shafi kuɗi, amma barin wannan

damuwar ta taka muhimmiyar rawa a tunaninka kan iya shafar hukuncin da za ka dauka. Shiyasa Kwararrun y'an Crypto ya yin da suka hango faduwa suna kokarin ganin sun sarrafa wannan tunanin ta yadda ba zai illata hukuncin da za su yanke ba.

Domin ka samu nasara a kasuwancinka, dole sai ka iya sarrafa tunaninka yayin da ka hango za ka yi asara ta yadda ba za ka rikice ba, saboda rikicewarka kan iya sanyawa ka yanke hukuncin da ba zai hana ka yin asarar ba sai dai ma ya kara jefa ka cikin asarar.

Bandwagon Bias

Bandwagon bias dabi'a ce ta yanke hukunci saboda ganin wasu sun yanke hukunci irin wannan. Misali: Dan kasuwa ya sayar da coin dinsa don kawai ya ga wasu da ya sani suna sayarwa, ko ya sayi coin don ya ga wasu na saye, ba tare da yana da abin da ya dogara da shi na ilimi wajen yanke hukuncin ba. Wannan dabi'ar ana samun ta a kusan 70% na Yan kasuwar cryptocurrency, domin mafi yawan Yan kasuwa suna sayen coin ne don sun ga mutanen da suka sani suna saye, sannan suna sayarwa ne idon sun ga mutanen da suka sani suna sayarwa, ba su damu da su bincika chanchanta da rashin chanchanta ba.

Yayin da ka sayi coin don wani ya saya ba ka da tabbacin shi ma wanin ya gudanar da bincike ne kafin ya saya, babu mamaki shi ma wani ya gani ya saya, shi ma wanda ya gani din kila wani ya gani ya saya, a karshe sai ka samu babu wanda ya saya saboda dogaro da sakamakon bincike. Kwararrun y'an Crypto da bincike kawai su ke yanke hukunci, ba sa saye ko sayarwa don ganin wani ya yi, idan ma wani ya tallata masu coin suka ji suna da sha'awar saye, to suna kokarin dora coin din a mizanin ilimi ta yadda sai idan ya chanchanta sannan su saya. Sun sani kasuwar cryptocurrency cike ta ke da daɗin baki da alkawuran da babu cikawa,

shi ya sa su ke dogaro da abin da ilimi ya nuna masu ba wai abin da wani ya fada masu ba.

Domin ka zama Dan kasuwa mai nasara, neman ilimin cryptocurrency ya zamar maka dole ta yadda za ka iya bincikawa, tacewa, da tantancewa kafin saye ko sayarwa, ba wai ka zama dan amshin shata ba. Wanda ya tallata maka coin ka saya ba laifi ya yi ba domin yin talla ba laifi ba ne, kai da ka saya ba tare da bincike ba kai ka cuci kanka da kanka. Ka sayi coin kawai idan iliminka da bincikenka sun tabbatar maka da dacewar saye, ba wai don ganin wani ya saya ba.

CHAPTER 10

TRADING STYLES

Trading styles na nufin duk wani nau'in salon saye da sayarwa na cryptocurrency wanda ya shafi sayen coin domin a ajiye da niyyar a sayar bayan lokaci mai tsayi ko kuma a saya da niyyar sayarwa nan kusa. Scalping Trading Styles

Scalping Trading ya kunshi duk wani kalar saye da sayarwa na cryptocurrency wanda a ke gudanarwa a cikin kankanan lokaci da baya bukatar ajiye coin na tsawon lokaci da ya wuce awa 12. Akwai kalolin kasuwancin cryptocurrency waɗanda su ke farkashin inuwar scalping da Kwararrun Yan Crypto ke yi, ga su kamar haka:

- ❖ Range trading
- ❖ Price action trading
- ❖ Arbitrage trading
- ❖ RSI scalping trading

Range Trading

Range trading salon kasuwancin cryptocurrency ne wanda Yan Crypto ke yi a lokacin da farashi ke tafiya a sideways/range trend. Ana kiran tafiyar farashi da "Range trend" ne yayin da farashin ke tafiyar zigzag, ma'ana idan ya yi sama baya jimawa sai ya sauko kasa (idan ya tashi yana zuwa saitin resistance level ne, idan ya sauko kuma yana zuwa saitin support level ne).

Range trend faruwa ne idan aka samu daidaito tsakanin masu saye da masu sayarwa, ya kasance masu saye ba su rinjayi masu sayarwa ba, haka suma masu sayarwar ba su rinjayi masu saye ba. Kwararrun Yan Crypto masu yin range trading suna amfani da wannan damar wajen samun riba, ta hanyar sayen coin din a lokacin da farashinsa ke a support level sannan su sayar a lokacin da ya haura resistance level. Bambancin farashin da ke tsakanin support level din da su ke saye da resistance level din da su ke sayarwa shi ne ribar da za su dinga samu, sai su dinga maimaita yin haka suna samun ribar har zuwa lokacin da farashin zai daina tafiya a range trend.

Misali: a watan Yuni 21, 2021 farashin ETH/USD ya kasance cikin range trend ko sideways kamar yadda a ke kira.

A hoton da ke sama; farashin ETH na sauka zuwa support level ne a \$1,800, sannan ya sake tashi zuwa resistance level a \$1,830. Dan kasuwa zai dinga saye idan ya sauko support level a \$1,800, sannan sai ya saita sell-order a farashin \$1,830 - yadda da zarar coin din ya kai resistance level zai sayar da kansa. Idan ya sayar kuma sai ya sake saita buy-order a farashin \$1,800 - yadda da zarar farashin din ya sake gangarowa zuwa support level zai sayi kansa, sannan ya sake saita sell-order a farashin \$1,830 da niyyar sayarwa idan farashin ya koma resistance level. Haka zai dinga maimaitawa har zuwa lokacin da farashin zai daina tafiya a sideways/range.

Price Action Trading

Price action trading nau'in scalping trading ne wanda Dan kasuwa zai dinga amfani da alamomin gane alkiblar tafiyar farashi wajen gane lokacin da farashi zai tashi sai ya saya da kuma lokacin da farashi zai sauka sai ya sayar. Daga cikin nau'ikan candlestick patterns din da a ke amfani da su wajen gudanar da irin wannan salo na price action trading akwai bullish hammer da bullish Marubozu.

- **Hammer hammer:** nau'in candle ne da ke nuni da chajawar tafiyar farashi. Yana bayyana ne a lokacin da farashin coin ke sauka (Downtrend), a matsayin alamar da ke nuna farashin ya gama sauka daga nan zai fara tashi.

Idan bullish hammer ya bayyana a karshen tafiyar farashi lokacin da farashi ke sauka, Dan kasuwa zai yi sauri ya sayi coin din, ya jira farashin ya fara tashi sai ya sayar ya samu ribar bambancin da ke tsakanin bayyanar hammer din zuwa inda ya sayar da coin dinsa bayan farashin ya tashi.

- **Bullish Marubozu:** candle ne da ke bayyana a lokacin da masu saye suka rinjayi masu sayarwa sosai, bayyanarsa alama ce da ke nuni da farashi zai tashi sosai.

Masu amfani da wannan salo suna saurin sayen coin ne da zarar suka ga bullish Marubozu ya fara bayyana sannan su saita sell-order a daidai close price na candle din. Suna saye a lower price na bullish Marubozu sannan suna sayarwa higher price na shi, bambancin farashin da ke tsakanin lower price da higher price shi ne ribar da su ke samu a kowanne trade.

Arbitrage Trading

Arbitrage trading salo ne daga cikin nau'in scalping trading wanda Dan kasuwa zai dinga sayen coin daga wata kasuwa ya kai kasuwar da farashi coin din ya fi na kasuwar da ya saya tsada.

Galibi a kan samu bambancin farashin coin tsakanin wata kasuwar da wata kasuwa sakamakon bambanci trading volume a tsakaninsu, hakan na iya faruwa ne na karamin lokaci. Aikin mai gudanar da irin wannan salo shi ne ya nemo coin din da farashinsa ya ke da bambanci da wata kasuwar, ya saya daga kasuwar da farashin ke da sauƙi ya sayar a kasuwar da farashin ya fi tsada, ya samu ribar bambancin farashin da ke tsakanin kasuwannin guda biyu. Salon ya kuma kunshi amfani da hikima wajen sayen coin da sauƙi ka sayar da tsada a cikin kankanan lokaci ba tare da ka ajiye coin din ba, saboda haka Dan kasuwa zai dinga bincikar hanyoyin da zai sayi coin a farashi mai sauƙi ya sayar a farashi mai tsada.

Types of Arbitrage Trading

Salon kasuwanci na arbitrage ya kasu kashi biyu:

- **Exchange arbitrage:** shi ne nau'in arbitrage mafi shahara wanda Dan kasuwa zai yi amfani da bambancin farashin da ke tsakanin kasuwanni biyu, ya saya daga kasuwar da ya fi sauƙi ya sayar a kasuwar da ya fi tsada. Yayin gudanar da wannan salo, Dan kasuwa zai duba order book na kasuwa ne ya ga wanne farashi masu saye suka saita suna son saye a kasuwar? Sannan ya duba a ɗayar kasuwa wanne farashi masu sayarwa suka saita suna son sayarwa? Idan ya ga farashin da masu sayarwa su ke son su sayar da coin ɗin a wannan kasuwar ya yi kasa da farashin da masu saye a ɗayar kasuwar su ke son saye, sai ya lissafa adadin yawan coin ɗin da su ke buƙata ya ga idan ya sayo a waccen kasuwar ya zo ya sayar masu zai samu riba ko ba zai samu ba? Idan zai samu riba bayan kuɗin cajin turawa da za a caje shi to sai ya yi sauri ya saya daga inda ya ke da sauƙi ya kai inda ya fi tsada ya sayar.
- **Triangular arbitrage:** salo ne na amfani da bambancin farashin coin idan za ka saya da trading pair daban-daban.

Mafi yawan lokaci za ka ga ana samun bambanci idan za ka sayi coin da USDT da kuma idan za ka sayi irin coin ɗin da BUSD da dai sauransu. Misali, yanzu haka idan zan sayi BNB da USDT= \$625, idan kuma zan saya da BUSD= \$626. Saboda haka sai Dan kasuwa ya sayi BNB da USDT ɗin sannan ya sayar da BUSD ya tashi da ribar \$1 da ke tsakani, ya dinga maimaitawa haka gwargwadon yadda ya samu dama.

RSI Scalping Strategy

RSI manuni ne da ke la'akari da tafiyar farashi wajen gano mizanin overbought da oversold . A salon RSI Scalping Dan kasuwa zai saita 5-minutes time frame, ya sayi coin a lokaci da coin ɗin ya ke kasa da RSI

30 (Oversold), ya sayar a lokacin da coin din ya haura RSI 70 (Overbought)

Day Trading

Day trading salon kasuwancin cryptocurrency ne da Dan kasuwa zai sayi coin da niyyar sayarwa a tsawon lokacin da bai wuce kwana daya ba. Salon day trading yana kama da na scalping, bambancin mai yin day trading yana dan rike coin na a kalla rana daya yayin da mai scalping zai iya saye yanzun kuma ya sayar yanzun. Day trading ya kuma kunshi sayen coin a lokaci da ya ke tashi sai Dan kasuwa ya yi hasashen zai kara tashi don haka sai ya saya ya sanya sell order a farashin da ya yi hasashen zai kai, ko kuma sayen coin a lokaci da ya ke sauka sai Dan kasuwa ya yi hasashen farashin coin din ya kai makurar saukarsa don haka sai ya saya da niyyar sayarwa idan farashin ya daga.

Masu gudanar da salon day trading na bukatar lokaci sosai na kula da motsin farashi a kasuwa, sannan su na bukatar samun kyakkyawan tsarin entry da exit. Yayin gudanar da day trading Dan kasuwa na bukatar saye da sayarwar coin wanda ya ke da higher volatility, ma'ana ya ke da rashin tabbacin tsayuwar farashi ta yadda farashinsa na iya tashi ko ya sauka babu tsammani kamar dai Bitcoin, Ethereum, Shiba Inu da dai sauransu. Irin wadannan coins din su ne aka fi amfani da su wajen yin day trading, al'adarsu ta rashin tabbacin tsayuwar farashi ya sa an fi samun riba da su. Dan kasuwar da ba shi da kwarewa sosai, akwai bukatar ya ware coin guda daya ya ke amfani da shi musamman domin yin day trading. Hakan zai ba shi damar kwarewa wajen bibiyar motsin farashinsa don gane yadda ya ke hawa da al'adar hawansa, yadda ya ke sauka da dabi'ar saukarsa.

Swing Trading

Swing trading salon kasuwancin cryptocurrency ne wanda Dan kasuwa zai sayi coin da niyyar sayarwa a lokacin da ba mai tsayi ba, galibi daga kwana biyu zuwa sati biyu. Salon na kama da day trading bambancin su shi ne, mai yin swing yana ajiye coin har ya kai sati biyu, yayin da mai yin day trading baya wuce kwana daya ya ke sayarwa.

Swing trading ya kunshi amfani da alamomin da ke nuna hawan farashi sosai, sai a sayi coin a jira ya kai wannan lokacin sannan a sayar. Masu yin wannan salo su ma suna bukatar kwarewa wajen gane tafiyar farashi, su kan sayi coin idan yana swing low su sayar a swing high, kafin coin ya tashi daga swing low zuwa high ya kan dauki kwanaki.

- **Swing low:** na faruwa ne a lokacin da farashin coin ya kai makurar saukarsa, ya kasance a y'an kwanakin nan farashin bai taba sauka kasa da haka ba.
- **Swing high:** na faruwa ne a lokacin da farashi ya kai makurar tashinsa, kuma ya kasance a y'an kwanakin nan farashi bai taba tashi sama da haka ba.

Salon swing shi ne solon da muka fi amfani da shi a arewacin Nijeriya wanda mu ke sayen coin a lokacin da mu ka ga coin din ya sauka sannan mu sayar a lokacin da mu ka ga ya tashi. Sannan mukan yi amfani da lokacin Dip wajen sayen coins mu jira idan kasuwa ta fita daga Dip sai mu sayar. Masu yin swing trading su kan fi masu yin day trading da scalping trading samun kudfi kasancewar suna sayarwa ne a lokacin da farashi ya yi babban tashi, a wani bangaren kuma suna fin su fuskantar hadarin kasuwa domin gwargwadon yawan riba shi ne gwargwadon yawan asara idan ta dauro.

Position Trading

Position trading salo ne na kasuwancin cryptocurrency wanda Dan kasuwa ke sayen coin da niyyar sai ya kai wani adadin farashi kafin ya sayar, ko sai ya kai adadin wani lokaci sannan ya sayar. Misali: Dan kasuwa ya sayi A-coin a farashin N100 ya kaddara ba zai sayar ba sai ya kai N200, ko kuma ya sayi coin yau ya kaddara ba zai sayar ba sai nan da shekara biyu.

Galibin masu yin position trade ba su dogara da kasuwancin cryptocurrency a matsayin abin da zai dinga ba su kudafen shiga ba, shi ya sa idan sun sayi coin suna daukar lokaci mai tsayi ba tare da sun waiwayi coin din ba ma. Wanda zai yi position trade ba ya bukatar kwarewa a fannin gudanar da technical analysis, maimakon haka ya fi bukatar kwarewa a fannin gudanar fundamental analysis don gane nagarta da darajar coin.

Bot Trading

Bot trading salon kasuwancin cryptocurrency ne wanda kwararrun Yan crypto ke yi ta hanyar amfani da robot wajen gudanarwa. Robots din ana kirkirar su ne ta yadda za su iya fahimtar halin da kasuwa ke ciki su kuma iya gano duk wata dama da kafa ta sayen coin aci riba, sannan suna da tsarin money management ta yadda za su iya tattala wa Dan kasuwa kudafensa ta hanyar amfani da tsarukan sanya jari da kiyaye asara.

Da ya ke cryptocurrency kasuwa ce wadda ba a rufe ta, ma'ana ko da yausha ci ta ke har lokacin da ka ke bacci, saboda haka abubuwa da yawa za su iya faruwa ba tare da ka sani ba. Ko ba haka ba ma, a matsayinka

na Dan Adam ai wani lokacin za ka buƙaci bacci, hutu ko aiwatar da wani aiki alhalin kasuwa kuma na ci gaba da ci. Sannan farashin coin a kasuwar ba shi da tabbacin tsayawa, yanzu kana iya ganin coin ya tashi yanzu kuma kana iya ganin ya sauka, gashi kuma ɗan adam na da ɗabi'ar; tsoro, haɗama, da kuma kwaɗayi, kuma ɗabi'un na taka muhimmiyar rawa wajen janyo masa asara yayin gudanar da kasuwancinsa. Ta hanyar amfani da salon bot trading, robots ne za su saya maka coin ɗin da ya dace kuma su sayar maka a lokacin da ya dace sannan su aje maka ribar. Ba su da zuciya ballantana su ji tsoro, ba sa jin tsoro ballantana tsoron ya sa su sayar da coin faɗuwa, sannan ba su da haɗama ballantana haɗama ta sanya su ki sayar da coin a lokaci da ya dace domin jiran babbar riba.
